## OPTIONS IN THE FIELD OF MEDICAL EDUCATION APART FROM MBBS & BDS

**Dr. Ankur Garg**

**A**fter passing of 12th Examination with Physics, Chemistry and Biology as subjects, students and their parents think that MBBS and BDS are the only options ahead for career prospects in the field of medicine. But all students cannot get through the entrance exams because of limited number of seats available in the courses. This article, tried to list other options available with the students for having a bright future.

**BAMS (Bachelor of Ayurvedic Medicine and Surgery)**

Ayurveda is one of the ancient medical systems of the world. It traces its roots to the Vedic period. The Ayurvedic system of medical care is based on the concept where the natural healing capacity of the body is being enhanced by Ayurvedic therapy. Ayurvedic treatment includes reducing symptoms, eliminating impurities, reducing worry, increasing resistance of disease and increasing harmony of patient's life.

The course aims at providing basic education in Ayurveda leading to the degree of B.A.M.S. It aims at preparing

graduates of Ayurveda having basic and fundamental knowledge in different subjects of Ayurveda with extensive practical training. A student can become an efficient teacher, a research scholar and a competent Ayurvedic physician (Kayachikitsaka) and surgeon (Shalyachikitsaka) to be able to contribute in the medical and health services of the country. BAMS course in India is governed by Central Council of Indian

Medicine, a statutory body under IMCC Act 1970, Ministry of AYUSH, Government of India.

The course duration is of 5½ years, out of which 4½ year are academic session and there is 1 year of mandatory internship.

## RECENT SCIENTIFIC AND TECHNOLOGICAL BREAKTHROUGHS

**Rayies Altaf**

**S**cience and technology is becoming an inherent part of our lives. We can not imagine our life without taking into account the various instruments and electronic devices which have become an essential part of our lives.

For our esteemed readers, we bring some of the interesting news stories and recent technological breakthroughs from the world of science. Scientific developments and breakthroughs have the potential of changing our culture, influencing our economy and also enhancing the quality of our life.

**Bacterium that can degrade plastics**

Consumption and proliferation of plastic and plastic products is becoming one of the greatest environmental threats to our ecosystem. An estimated 311 million tons of plastic products are produced

and used annually in the world. Biological degradation of plastics is still a challenge for us all including our scientific community. Until recently no organism was known to decompose it. It seems that scientists now have an answer to this problem. Scientists in Japan have been successful in discovering a bacterium which

can break down and consume plastics. This new species of bacterium is called Ideonella Sakaiensis and was isolated outside a bottle-recycling plant. It feeds on plastic and consumes it. It breaks down Polyethylene terephthalate (PET) and uses it as a source of energy and carbon, thus leaving behind simple

elements and compounds which are easy to degrade. This discovery, if commercially successful will help in biodegradation of plastics in an ecofriendly way and help humans get rid of non-biodegradable waste.

 ONLINE applications are invited from eligible Male and Female candidates for the recruitment of Sub-Inspectors (SI) in Level 6 of 7<sup>th</sup> CPC Pay matrix for the vacancies in Railway Protection Force (RPF) of various Zones of Indian Railways and Railway Protection Special Force (RPSF). Applications complete in all respect should be submitted **ONLINE ONLY** before **23.59 hrs. of 30.06.2018**.

## IMPORTANT INSTRUCTIONS

Candidates should ensure that they possess/fulfil all eligibility conditions prescribed for the post as on the closing date for submitting applications. **CANDIDATES WAITING FOR RESULTS OF PRESCRIBED EDUCATIONAL QUALIFICATION SHOULD NOT APPLY.**

- I) Applications are to be submitted ONLINE through Indian Railway websites ONLY. No other mode for submission of application shall be allowed. Each candidate shall fill ONLY one application. Any attempt to submit more than one application by a candidate against this notification shall result in disqualification and debarment.
- II) Eligibility of the candidates will be considered only on the strength of the information furnished in the ONLINE application. Candidates need NOT send printouts of application or Certificates or copies to Central Recruitment Committee (CRC) by posts. If at any stage of recruitment or thereafter, it is found that any information furnished by the candidate in his/her application is false/incorrect or the candidate has suppressed any relevant information or the candidate does not satisfy the eligibility criteria for the post, his/her candidatures will be rejected forthwith.
- III) Candidates can apply against the vacancy of either a Group of Zonal Railway or RPSF. Within a Group of Zonal Railways also they shall be required to give their preference for individual Zones. The candidate will be considered against vacancies of that Group only and allocated a Zonal Railway based on merit and preference. Candidates shall serve normally in the Zone/RPSF allotted to him/her, if selected. However, selected candidates may be liable to serve anywhere in the country.
- IV) Those opting for RPSF will have to serve in RPSF only, till they are promoted to gazetted rank.
- V) Application to more than one Group will lead to rejection of all the application of the candidates.
- VI) Vacancies are provisional and may increase or decrease as per actual requirements and the administration reserves the right to cancel the notified vacancies at its discretion.
- VII) Candidate must ensure that they fulfil the prescribed medical standard. The candidature of candidate found medically unsuitable for the post of SI shall be cancelled.
- VIII) Candidates applying for the post shall be advised to ensure that they fulfil all eligibility conditions prescribed for the post/examination. Admission of the candidates for the CBT for the posts notified would be on the basis of the information furnished by them in the ONLINE application. If at any stage of recruitment or thereafter, it is found that any information furnished by the candidate in his/her ONLINE application is false/incorrect or the candidate has suppressed any relevant information or the candidate otherwise does not satisfy the eligibility criteria for the post, his/her candidature will be cancelled forthwith.
- IX) **Scale of Pay:** Level 6 of 7<sup>th</sup> CPC pay Matrix with initial pay of Rs. 35,400/- plus other allowances admissible at that time.
- X) **Age:** On 01.7.2018 the age of candidate shall be between 20 – 25 Years – Refer Para 3.0(v) for age relaxations.
- XI) **Stages of exam:** There shall be online Computer Based Test (CBT) which will tentatively be held in September and October 2018. Candidates qualified and securing marks in the merit list (10 times of the category-wise vacancies notified) and in the CBT shall have to undergo Physical Efficiency Test (PET) & Physical Measurement Test (PMT) and Document Verification (DV). However, in case requisite candidates do not qualify in PET/PMT and it is assessed that vacancies in any category/Group for Male/Female/Ex-Servicemen will not be filled up, additional candidates equal to 10 times the number which are likely to remain vacant after the first round of PET/PMT may again be called from amongst the candidates who have secured minimum qualifying marks for a second round of PET/PMT. There shall be a maximum of two rounds of PET/PMT.
- XII) Electronic gadgets like mobile phones, bluetooth, pen drive, laptops, calculators, and wrist watches or any other communication devices or pen/pencils are strictly NOT allowed inside the hall. Any infringement of this instruction shall entail summary rejection besides legal action including debarment from future examinations. Therefore, candidates are advised in their own interest not to bring any of the banned items including mobile phones, etc to the venue of the examination, as arrangements for safe keeping cannot be assured.
- XIII) Candidates should have their own mobile number and valid & active personal email id which may be kept active till the final result of recruitment is declared as CRC shall send all recruitment related communications only through SMS and email till the recruitment is complete. CRC will not entertain any request for change of mobile number and e-mail at any stage.
- XIV) Before filling up of the online application, candidates are advised to thoroughly read the entire instructions and information in the employment Notice available on the websites of Indian Railways.
- XV) Candidates are advised to visit only official websites of the Indian Railways and be cautious about fake websites and job racketeers.
- XVI) These posts have not been identified as suitable for persons with disabilities and hence the same have been exempted from the purview of sections 33 and 47 of the Persons with Disabilities [Equal Opportunities, Protection of Rights and Full Participation] Act, 1995 by the Ministry of Social Justice and Empowerment.

Selection Process:

The prescribed essential qualifications are minimum requirements and the mere possession of the same does not entitle candidates to be called for interview. If the numbers of applications, received in response to advertisement are large, it will not be convenient or possible to call all candidates for interview. Hence, Ministry may restrict the number of candidates to be called for interview before Selection Board to the reasonable limit through screening process.

The criteria for screening of the applications will be based on candidates qualifying credentials against:

- (i) the essential requirements specified above.
- (ii) date of birth.
- (iii) completeness of the application in terms of providing accurate details and submission of the passport size photograph, and copies of the marks list, academic and experience certificates, signature.
- (iv) essential experience.
- (v) desirable qualification and experience as specified above.
- (vi) consistent academic performance at one or more levels etc. The candidates experience certificates should clearly specify whether they possess the experience/knowledge/skills/ technology/software platform requested in the essential/desirable experience requirements against the post. The benchmark for screening the applications will be set by a committee constituted to screen the applications. The final selection of the Screened in candidate will be based on the candidate's performance before the Selection Board. No correspondence will be entertained with candidates who are not called for interview/selected for appointment.

**Closing date:** The last date for receipt of online application is **42 days** from the date of publication of this vacancy in Employment News.

General Conditions:

- Applications should be submitted online through **www.moes.gov.in** in the prescribed format.
- Applications that are not submitted in the prescribed format will not be considered.
- The candidate's age should not exceed the age limit mentioned above as on date of closure of application. Experience will be counted from the date of acquiring the essential academic qualifications.
- The experience, relevant to the requirement of job or research or teaching will only be considered towards the total period of experience.
- Doctorate degree in the relevant field will count as 3 years of experience.
- Ministry reserves the right to cancel the recruitment process without assigning any reason thereof or vary the number of posts to be filled.
- Travel : No TA will be paid by Ministry for attending the Selection/Interview.
- MoES will not be responsible for any other arrangements.
- The names of candidates screened in for interview before Selection Committee will be displayed at **Ministry's website**.

A new category of prescription for medical treatments in the form of mobile apps are being developed by many drug manufacturing companies, which doctors can prescribe to treat specific disorders. One such app is Reset, which can give patients lessons to modify their behavior. This application would be used as outpatient therapy to treat alcohol, cocaine and marijuana

addiction. Food and Drug Administration (FDA) in the US cleared this app last year and now doctors in US can prescribe this app to treat substance-use disorders. Few health companies are working to develop prescription software applications for

treatment of diseases like schizophrenia and multiple sclerosis.

### Creating and deleting magnets with laser beams

A team of scientists from Helmholtz-Zentrum Dresden-Rossendorf (HZDR) Germany and University of Virginia in the US have been successful in creating powerful magnets out of alloy of iron and aluminium by using laser beams. This development will open new and exciting possibilities in the areas of optical technology and data storage. In their experiment scientists directed high intensity laser beam at the

alloy. The laser beam destroyed the ordered arrangement of iron atoms in the alloy which in turn brought them closer to one another. This new arrangement of iron atoms created magnetic properties in the alloy, thus making it a powerful magnet. Shooting the same laser beam again but now with less intensity laser rearranges the atoms into a well-ordered structure, thus deleting the magnetic properties. Therefore this technique helps create a strong magnet out of an alloy and then deleted it, at one's own will.

### Gene Therapy 2.0

In medical field gene therapy is the therapeutic delivery of genetic material (or DNA) into the patient's cells for the treatment of a disease. In this technique genetic material is introduced into cells via an engineered virus, to compensate for defective or abnormal genes or to make a healthy protein. The engineered virus acts as a vector or carrier which delivers the new gene by infecting the cell. The vector is put into the body through an intravenous injection onto specific tissue or affected body part, where it is taken by the individual cells. The new gene delivered by the vector starts making normal and functional proteins. This approach is expected to bring a radical change in treatment of rare hereditary disorders and diseases such as heart disease, cancer etc. So far gene therapies were not approved by regulatory agencies around the world. But now first gene therapies are about to get approval in the US regulatory bodies.

In earlier Gene therapy experiments it was difficult to edit or cut gene or genome at specific points. Now with the invention of CRISPR-Cas 9

gene editing technique, it is possible for scientists to identify the defected gene and edit or remove it in a more precise manner.

### Flu Virus Genome finally sequenced in its native form using 'Nanopore Technology'

Biologists from US Center for Disease Control and Prevention at Atlanta, Battelle Memorial Institute, Atlanta, USA and Oak Ridge Institute of Science Education (ORISE), Oak Ridge USA, have been successful in sequencing the complete genome of influenza virus. This is for the first time that genome of any flu virus has been sequenced in its native form. The native form of genome in most viruses exists as RNA. To reveal and sequence this RNA fully was not an easy task for scientists. The methods used earlier (e.g. chemical degradation of radiolabelled RNA), were not only time consuming and cumbersome but also less efficient as they used to reveal only short sequences and not the full genome.

The new technique which was used in this study is known as Oxford Nanopore technology, where RNA strands get revealed while they pass through a tiny molecular channel. The importance of this new breakthrough lies in the fact that it would open up new ways and possibilities of understanding the nature and working of viruses, which may lead to creation of fast, reliable and better treatment of many viral diseases such as common cold, polio, measles, hepatitis C etc.

RNA is similar to its cousin DNA and serves as an intermediary between DNA encoded genes and proteins and also performs other tasks in the cell.

### Smarter Drugs

After smart phones and smart TVs, it is now turn of 'smarter drugs'. A new method of using nanotechnology for making 'smarter' drugs has been developed. These novel drugs and medicines would be called as nanomedicines. Scientists at University of Lincoln have developed a new technique of making nanomedicines which would be more effective and more precise in targeting any specific area or part of the body such as cancer tumour. This novel method invented by

the nanobiotechnologists at University of Lincoln will have wide ranging applications in treatment via drugs. In this technique very minute gold nanoparticles would be coated with a biological protein and then combined with drugs to make it to travel through the body and reach the affected area without getting consumed in the blood or finished on the way. Drugs made through this technique would have two potential benefits. One, nanoparticles can hold drugs on their surface, which otherwise have danger of getting degraded in blood, second, due to their extremely small size they can pass through membranes, small

itself, as never in the history of human research, a live cell, while it was normally working inside the tissue of Zebrafish's inner ear, was captured in a high resolution video in 3D. Scientists and biologists always want to observe the behavior of a cell in a living tissue or body only. This is now possible with sophisticated and cutting-edge microscopy technique. It was a big challenge to shoot live cells while they are alive and working inside their tissues because the cell's own surroundings which includes other cells and body fluids have tendency of distorting the view thus giving improper, blurred and sometimes false images. To solve this problem, scientists, led by Physicist Eric Betzig, used light-sheet microscopy and adaptive optics technique. The result was smooth, crisp and clear three-dimensional videos.

This technique of capturing live cells in good quality video formats, would help scientists, especially medical researchers in understanding the nature of cells itself (which are basic functional units of living organisms including humans) and cell behavior

(Image Captured from a video. Credit: Howard Hughes Medical Institute)

intestines and other such body organs (which usually hamper drug activity and thus prevent them from reaching the target), thus reaching the affected body part effectively and in shorter time. This new technique would enable pharmacologists to organize and put proteins onto the gold nanoparticles in organized layers in order of their choice, thus safeguarding the integrity and originality of the protein so that drug is more precise and effective.

### High Resolution 3D Video of Working Cell Inside a Living Tissue

Scientists at the Howard Hughes Medical Institute's Jenelia Research Campus in Virginia USA, have been able to capture a live 3D video of a working cell inside a living tissue. This success was recently reported in most prestigious science journals including Nature and Science. This move is unprecedented in

under abnormal conditions such as behavior of cancer cells in living tissues and thus would open up possibilities of solutions to many human and animal diseases in future. By this method researchers now would also be able to capture interaction between the cells in high resolution videos.

### BHMS (Bachelor of Homeopathic Medicine and Surgery)

The discipline aims at treating patients using homeopathic methods and medicine. The candidate having the BHMS (Bachelor of Homeopathic Medicine and Surgery) degree is eligible to be called as a doctor and eligible to do private practice. A homeopathic practitioner may look the career as a medical representative or as a doctor in private or government hospital.

The professionals in this field can work in companies dealing with the homeopathic preparations. One may get a job in homeopathic colleges as a Professor or Researcher.

BHMS course in India is governed by Central Council of Homeopathy, a statutory body under Ministry of AYUSH, Government of India.

The course duration is of 5½ years, out of which 4½ year are academic session and there is 1 year of mandatory internship.

### BUMS (Bachelor of Unani Medicine and Surgery)

The Unani medicine system is one of the ancient medication system adopted by the South-Asia and Middle-East

countries of the world. It is also known as the "Hikmat" or Unani Tibb Medicine. It has a history spanning 6000 years. Unani is the fourth most popular medication system in India after the Allopathic, Ayurvedic and Homeopathic system. BUMS course is also known as Kamil-E-Tibb-O-Jarahat. BUMS course in India is governed by Central Council Of Indian Medicine, a statutory body under IMCC Act 1970, Ministry of AYUSH, Government of India.

There is an undergraduate degree programme in the field of Unani medicine and surgery. This degree covers knowledge of the Unani system. The degree is quite enough to become a doctor (Hakim) in the Unani medical field. Unani is the system of alternative medicines. The patients are taken care of by enhancing the natural healing power of the human body. The concept of Unani is that the body rejuvenates itself because of its self-healing powers. We just need to help it by enhancing the natural healing power.

The course duration is of 5½ years, out of which 4 ½ year are academic session and there is 1 year of mandatory internship.

### B.SC. NURSING

Nurses work with old and young adults with diverse health conditions, both chronic and acute, within both hospital and community settings. An essential part of the role is the promotion of health through education, the prevention of disease and the care, sustenance and rehabilitation of adults undergoing diagnostic and therapeutic regimes. In the hospital, being a nurse will require you to work in surgical departments, operating departments, medical departments and in the intensive or high dependency care areas. Nurses can also be found working in many different areas of the community. Community nursing teams provide high quality professional care for the large number of patients cared for in their own home. Nurses also work in industry and commerce, providing health screening

and support for the workforce.

B.Sc Nursing course is broadly based on education within an academic framework specially directed to the development of critical thinking skills, competence and standards required for the practice of professional nursing and midwifery as envisaged in National Health Policy, 2002. Since, it involves nursing of the wounded or ill, a lot of sectors require these graduates hence increasing its demand, which is only expected to increase in the future as well. In India, the course is registered under and is controlled by Indian Nursing Council.

The course duration is of 4 years.

### B.PHARM. (BACHELOR OF PHARMACY)

This is an undergraduate degree course in the field of Pharmacy education. In this course the students learn about the medicines and their effect on human body, with details of the chemical and organic properties of all the elements used. The program teaches students how to become attentive professionals so as to ensure selection of a right drug for right treatment for which all topics of pharmacology, chemistry, pharmaceutical chemistry, biochemistry, kinetics, pharmacy management and compounding medications are covered. The Pharmacy Courses in India, are approved by the Pharmacy Council of India (PCI).

The course duration is of 4 years.

### B V Sc. & A H (Bachelor of Veterinary Science and Animal Husbandry)

This discipline focuses on the use of biology and technology to treat and prevent diseases occurring in animals. The Bachelor of Veterinary Sciences & Animal Husbandry (B.V.Sc. & AH) degree falls within the Veterinary Education part of Medical Education in India and is therefore monitored by the Veterinary Council of India. The programme focuses primarily on veterinary anatomy, veterinary physiology and biochemistry, and livestock production and management.

After Graduation, one may join Government/Private veterinary hospital and start working as a Veterinary Doctor or Surgeon. Also, one may start one's own clinic and start practice, for example-pet care clinic. NGOs working for Animal welfare causes also hire Veterinary Science graduates. Graduates may work as research professionals in the field of Animal health and medicines. Also, one may work at places like- Poultry farms, Livestock farms, Zoos etc. One may also work in the Pharmacy sector that deals with veterinary medicines and vaccines. Food Processing Industries also hire Veterinary Science graduates to take care of Quality control, Livestock healthcare and Livestock management activities.

The course duration is five years, including six months mandatory internship.

- President Shri Ram Nath Kovind visited the Army base camp in Siachen on May 10, 2018, becoming the first President of India to visit the world's highest battlefield in 14 years. The previous visit was undertaken by former president APJ Abdul Kalam in April 2004. Interacting with the soldiers, Mr Kovind said, their bravery and valour has given every Indian the confidence that the borders are safe and secure. The President reiterated that people and Government of India were always with them and supportive of their families. He said, the soldiers were guarding the toughest war field in the extreme climate.
- The Supreme Court has reserved its verdict on a batch of petitions challenging the constitutional validity of Aadhaar and its enabling 2016 law. A five-judge constitution bench headed by Chief Justice Dipak Misra directed all the concerned parties to file written submissions to put forth their case. The judgement was reserved after a marathon hearing which went on for 38 days spanning four months. During the arguments, the Centre strongly defended its decision to seed Aadhaar numbers with mobile phones. However, the court said that the government had misinterpreted its order and used it as a tool to make Aadhaar mandatory for mobile users.
- Union Minister of River Development and Ganga Rejuvenation, Nitin Gadkari said, the Centre has substantial funds to clean Ganga River. Briefing media in New Delhi, Mr Gadkari said, efforts are being made round the clock to clean Ganga. He said, there is a need to address the issue of solid waste management and create ways to utilize recycled water for different purposes. The Minister also said, government is ensuring accountability, transparency and monitoring of projects involved in cleaning Ganga.
- Center aims to set up five thousand Atal Tinkering lab (ATL) by March next year in all the districts of the country. Atal Tinkering Labs are dedicated work spaces where students from Class 6th to Class 12th learn innovation skills and develop ideas. Briefing reporters after announcing the top 30 innovations of Atal Tinkering Marathon in New Delhi, NITI Aayog Vice Chairman Rajiv Kumar said, Atal Tinkering labs are hubs of innovation where young minds will accelerate their ideas to solve unique local problems.
- In an effort to enhance skills of the youngsters, Ministry of Electronics and Information Technology (MeitY) has launched 'Digital India Internship Scheme' portal in which a token of Rs. 10,000 will also be offered to interns as remuneration per month. The MeitY's internship scheme will offer 25 slots in each session – summer and winter, Shri Ravi Shankar Prasad, Minister of Electronics and IT and Law & Justice, told reporters here adding that the portal will facilitate students to apply online for internship and its aim is to provide an opportunity to secure first hand and practical work experience under the guidance of a mentor.

- Prime Minister Mr. Narendra Modi jointly inaugurated with his Nepalese counterpart Mr. K P Sharma Oli, direct bus service between Janakpur in Nepal and Ayodhya in India during his two day visit to the Himalayan Nation. Speaking on the occasion, Mr Modi said, India and Nepal will work towards building 'Ramayan' circuit between both the countries. He said this will act as a foundation for strong people to people contact between the two nations. Mr Modi thanked his Nepalese counterpart for accompanying him during his visit to Janakpur. He also paid a visit to Janaki temple earlier and offered special prayers.

- India and Panama have signed two agreements on exemption of Visas for holders of Diplomatic and Official Passports and in the field of Agriculture. These agreements were signed in the presence of Vice President M. Venkaiah Naidu and President of Panama Juan Carlos Varela Rodrigues and Vice President and Foreign Minister Isabel de Saint Malo de Alvarado in Panama city. In a joint statement, Mr Naidu and Panama's President said that India and Panama always had cordial relations. They said, these ties are based on our common values and a shared commitment to democracy, pluralism, multi-culturalism, and the rule of law.
- Dr. Mahathir Mohamad has been sworn in as Prime Minister of Malaysia. Supporters waved flags and cheered outside the Istana Negara palace in Kuala Lumpur as he took the oath. Mahathir's coalition, Pakatan Harapan, won 113 of the total 222 seats, after the final results were announced. His coalition defeated the governing Barisan Nasional coalition, led by Prime Minister Najib Razak. The victory capped a dramatic comeback for Mahathir, who earlier ruled the country for 22 years. He came out of retirement to take on Prime Minister Razak after the leader became embroiled in a massive corruption scandal. Ninety two year old, Mahathir becomes the oldest Prime Minister in the world.
- US President Donald Trump will meet North Korea's leader Kim Jong-un in Singapore on 12th June for the historic meeting. In a tweet, Trump said, the highly anticipated meeting will discuss the denuclearisation on the Korean peninsula. In a tweet, the US President said, the two leaders will try to make it a very special moment for World Peace.

## BUSINESS & ECONOMY

- The International Monetary Fund, IMF has reaffirmed that India will be the fastest-growing major economy in 2018, with a growth rate of 7.4 per cent that rises to 7.8 per cent in 2019 with medium-term prospects remaining positive. The IMF's Asia and Pacific Regional Economic Outlook report said that India was recovering from the effects of demonetisation and the introduction of the Goods and Services Tax. It said the recovery is expected to be underpinned by a rebound from transitory shocks as well as robust private consumption. The report said, Medium-term consumer price index inflation is forecast to remain within but closer to the upper bound of the Reserve Bank of India's inflation-targeting band of four per cent with a plus or minus two per cent change.
- India's total export of finished steel increased by 16.7 percent to 9.6 million tonnes in 2017-18. The country had exported 8.2 million tonnes finished steel during 2016-17 fiscal, the Joint Plant Committee said in a report. Empowered by Ministry of Steel, Joint Plant Committee is the only institution which collects data on the Indian iron and steel industry.

# SWACHH BHARAT SUMMER INTERNSHIP

Union Human Resource Development Minister, Shri Prakash Javadekar has urged students to come forward and become part of the nationwide Swachhta Mission by participating in "Swachh Bharat Summer Internship- 100 Hours of Swachhata" campaign. The campaign has been launched by the Ministry of Human Resource Development in association with the Ministry of Drinking Water and Sanitation to engage youth across the country for sanitation related work and village level development. The program from 1st May to 31st July 2018 aims to develop the skill and orientation of youth for sanitation related work, bring youth across the country to make a significant contribution to the Swachhta revolution and integrate youth in community service in rural areas in the run up to the 150th birth anniversary of Mahatma Gandhi.

Students enrolled in Colleges and Universities may apply in 'Swachh Bharat Summer Internship' through the enrolment form. Candidates may participate individually or in teams also. The location and team size may be decided in consultation with

Nodal Officers. After enrollment for the internship through the website, candidates will be accepted as valid only once approved by the Nodal Officer at the Parent Institution. Candidates are to devote at least 100 hours conducting Swachhata-related activities in rural areas selected by them and approved by the parent institution.

An Internship Report is to be submitted by the candidate on the online portal in the prescribed format within 15 days of completion of fieldwork. The online report submitted by the candidate shall be reviewed and approved by the Nodal Officer for the purpose of certification and rewards. All participants will be given a Swachh Bharat Internship Certificate on completion of their internship and its approval by the parent institution. 2 curriculum credits will be given to interns whose internship reports are found eligible to get credits by parent institution. The Best 3 interns/ teams will be recognized at College, University, State and National levels.

● The winners will be awarded by Shields / cups and special certificates at College Level:

● In addition to certificates, Cash Awards will be given along with appropriate certificates as per the following:

University Level: Rs 30,000, Rs 20,000, Rs 10,000 along with appropriate certificates. State Level: Rs 50,000, Rs 30,000, Rs 20,000 along with appropriate certificates. National Level: Rs 2 lakh, 1 lakh, Rs 50,000 along with certificates.

# TIME HAS COME TO PUT RULES IN PLACE TO ENSURE THAT NO ONE PLAYER DOMINATES THE INDUSTRY : I & B MINISTER

Union Minister for Information & Broadcasting and Textiles, Smt. Smriti Zubin Irani said that time has come to put laws, ethics and rules into place which will help in balancing the media industry so that one dominant player cannot rule the industry. Inaugurating the 15th Asia Media Summit (AMS) 2018 in New Delhi on May 10, 2018, she said that India will have around 969 million internet users by 2021 and Indian media industry looks upon the digital world not only as a challenge but also as an opportunity. How do we attract, retain and develop talent which frees good content from the trappings of revenue needs and brings about a balance in media institutions, the Minister further asked.

The two day 15th Asia Media Summit was hosted by the Ministry of Information and Broadcasting, Government of India, jointly with the Indian Institute of Mass Communication (IIMC), New Delhi and Broadcast Engineering Consultants India Limited (BECIL), from 10th -12th May, 2018 in New Delhi. The theme of this year's Summit was 'Telling Our Stories - Asia and More', which would encourage regional and bilateral dialogue and cooperation to respond to challenges to the broadcasting sector in the region.

The Union Minister for Textiles and Information & Broadcasting, Smt. Smriti Irani, the Union Minister for Electronics & Information Technology and Law & Justice, Shri Ravi Shankar Prasad and the Minister of Information, Bangladesh, Mr. Hasanul Haq Inu, at the 15th Asia Media Summit, in New Delhi on May 10, 2018.

Giving a perspective of the expanding Indian media industry, Smt. Smriti Zubin Irani said, "India is the fastest growing advertising market expected to touch 10.59 billion US Dollars by the end of 2018 and the mobile spend is estimated to grow to 1.55 billion US Dollars in the year 2018. We have a vibrant media industry which has a direct established

impact of Rs 1.35 lakh crore and indirect and induced benefits of Rs 4.5 lakh crore, with close to 4 million people associated with it."

The Minister said that the Asia Media Summit will throw up new ideas so that we can look at pathways to strengthen media institutions for a better mankind.

In his address, Union Minister of

Electronics & IT and Law & Justice, Shri Ravi Shankar Prasad said that for the Indian Government, freedom of media is integral to polity, duly recognized by the Constitution and reinforced by Judiciary in series of judgements. He said that the media has full right to inform, circulate, criticize, advice and counsel. The rights of media under the Constitution are also subject to reasonable restrictions.

Mr. Hasanul Haq Inu, the Minister of Information from Bangladesh, Dr. Khieu Kanharith, the Minister of Information from Cambodia, Mr. Shigeru Aoyagi, the Director, UNESCO, New Delhi, Dr. Abbas Naseri Taheri, Director General, International Department and Advisor to President, IRIB, Iran, Ms. Amina J. Mohammed, Deputy Secretary General, UN, Mr. Vineet Jain, MD, Times Group were among the others who addressed the Summit.

This was the first time that Asian Media Summit was held in India. Over 220 foreign delegates representing 39 countries (SAARC, ASEAN, East Asia, Africa, Oceania, Europe, Syria, Uzbekistan, USA, China) and senior officials of the Government and members of Indian media industry participated in the event.

**BPT (Bachelor of Physiotherapy)**

This discipline uses massages, exercises and movement of muscles to treat patients who have suffered injuries from accidents or are recovering from surgeries. The course provides core skills like manual therapy, therapeutic exercise, and the application of electro physical modalities. Physiotherapy is very challenging and demanding as one may need to work for long hours and have tremendous patience as some patients may not respond to treatment immediately. Apart from rigorous education, a physiotherapist needs to have a lot of physical stamina to help patients doing various exercises.

The course duration is of four years with six months of mandatory internship.

# "BEING PERSISTENT AND STICKING TO THE BASICS IS THE KEY TO SUCCESS IN IAS EXAM"

**Employment News** wishes you heartiest congratulations on your exceptional achievement! We are happy that your hard work has paid off.

**Mr. Gupta:** Thank you so much Sir!

**E N:** *How did you feel when you came to know that you had not only competed in one of the toughest exams in India but your name was in the toppers list? Can you share those moments of happiness with our readers?*

**Mr. Gupta:** I don't have words to express my emotions after seeing the result. It was a mixed feeling ranging from remembrance of all the hard work, moments when I felt low and finally getting into where I always wanted. However, more than just a feeling of happiness, I had a sense of satisfaction regarding busting a myth Civil Services is meant only for extra-ordinary people. I came from humble background and one of the backward districts Sirsa in Haryana but I did it, which I believe ignites a sense of confidence in lakhs of youth in different parts of the country.

Further I believe it's time to be the change that I always aspired for. This success has made me more and more responsible towards a cause for which I started. And I believe my journey has not ended but just started.

**E N:** *What is the secret of your success?*

**Mr. Gupta:** Hard Work + Intelligence + Persistence= Smart Work.

I believe each one of us are working hard for achieving our goals, but I think we sometimes try to hide our weakness and this journey has taught me , we don't need to hide it but need to work over it. There will be moments when one feels low. Here perseverance is the key.

**E N:** *How did you approach this exam? What was your strategy in general (Prelims, Mains and Interview)?*

**Mr. Gupta:** Although I have written a blog for it but here I will share it again. There are four papers, especially for GS, Paper I, II and III are more about the content. It doesn't mean that one has to scamper only for the content. Articulating that content is also important. Firstly, during preparations, make mind maps as I did. Let's take the example of the topic, Poverty: what I used to do is to prepare a good definition on poverty from a good source like a renowned organisation. Then I would look at the reports of committees formed on poverty in the last few years and then important facts and figures. Thereafter, I could see its linkages with issues like the state of education, women, underprivileged societies, hunger, malnutrition etc. This way, I could be sure that whenever I write an answer, it has a clear structure and is organized logically. That's the way I prepared every topic. This strategy of creating mind maps also made it very easy to make last minute revisions.

While writing an answer, you should read the question twice, thrice or more because, earlier as soon as I saw a question, I identified two or three key words and answered based on those. This made my answers more in line with what I understood rather than what

Percentage of marks in Graduation - 84.8

the examiner expected. That was a key mistake. This time, I followed this practice of reading the question a few times before answering and then examine it again in between just to make sure I was pursuing the right direction. While concluding also I read the question again to be very clear about what I wanted to convey because these days questions are opinion based. Give them very clear opinions about what you feel about the issue at hand.

**Personality Test:** Here the key remains "Knowing Thyself". I believe personality test is not just about knowledge but about knowing oneself. About each and everything that one has done in his or her life. Why he or she has done the same. Further, is one curious enough who tries to understand things happening around oneself.

**E N:** *Did you integrate your Prelims or Mains preparation or was it separate in the changing scenario?*

**Mr. Gupta:** When we talk about preparation I firmly believe study in an integrated and holistic manner.

It will not makes us understand the issues in and out but also gives a sense of confidence. However I believe we need to give specific time for some time period before Prelims, Mains and personality test to do focused study for the same respectively.

**E N:** *How did you prepare for essay?*

**Mr. Gupta:** For Essay paper, I tried to prepare all the topics, major themes like education, health, women, etc in addition to some of the philosophical basics. For this, I read a lot of essay of past years' toppers to get an idea about how they write. I found that there are some common things such as good flow, different features of a particular topic and a solid conclusion. In the introduction section, I tried to include some innovativeness like linking the topic with some recent incident so that the essay becomes more current and interesting to read. Highlight different

facets and discuss them and one may use sub-headings to ensure that the flow is maintained.

**E N:** *How did you manage your time during the preparation?*

**Mr. Gupta:** I think time management is the key area in preparation strategy , especially for the working professionals. . I use to set 3 month plan mentioning what all I would be covering in that period along with revision. Then divide it into monthly and daily schedules. That not only improves efficiency of oneself but have inner mental peace that after 3 months that much would be covered.

**E N:** *How did you maintain your tempo and what did you do to break the monotony of preparation?*

**Mr. Gupta:** Civil examination cycle takes 1 year of aspirants and in which one has to clear all the three stages. There have been many moments of doubt when I felt I may not be able to crack it or Civil Services is not cup of my tea. There are times when I got frustrated during the preparation, especially after moments of failure. But trust me, its normal and take it as a phase of preparation. Talk to your well-wishers, parents that can give you positive vibes and get back to studies as soon as possible. I used to talk to my father, he used to make me remember my small achievements that helped in regaining confidence in me. I used to say again and again whenever I was feeling too much pressure "All is well, All is well, I am the best. I am the best". Trust me it works; it helps in reducing the pressure in our heads and relax a bit.

Further I used to watch Rajya Sabha TV debates and hear All India Radio. It not only helped in breaking the monotony of preparation but making me well aware as well as build my opinion after listening to experts from different fields. I would sincerely advice all the aspirants to follow the same.

**E N:** *Your advice for future aspirants.*

**Mr. Gupta:** I come from a humble background, having my father as farmer and mother as Primary Government School Teacher. All throughout my life though I was sincere student but nothing like an extraordinary student. When I used to go with my mother sometime on my holidays to her school, I use to see the difference in education facilities that I have and schools in my mother used to teach. At that point of time I was just a child and thought might

be life is like this only. But one incident in my college changed my entire course of life. Then I started learning about renowned personalities like Mahatama Gandhi, JL Nehru and then live examples of E.Sreedharan, OP Choudhary, Amstrong Pame who kept on motivating me.

Further I would like to highlight the importance of persistence in this examination, especially when we have to revise same notes, books again and again or write answers every day, demotivation comes. But at that point of time, being persistent and sticking to the basics is the key. Make sure, don't get distracted to various resources, choose resources wisely, and consolidate them and "REVISE-REVISE-REVISE". Further don't neglect answer writing by any means, at the end of a day it matters how your write 150-200 words in the examination. Make sure to answer each part of question, giving a well versed introduction , try to make flowchart in 7-8 questions overall in paper and conclude with clear thought. This is the key in mains.

I would end with a quote of Sir Harivansh Rai Bachchan, that keeps me motivating throughout my journey :

लहरों से डरकर नौका पार नहीं होती,  
कोशिश करने वालों की कभी हार नहीं होती।

नहीं चींटी जब दाना लेकर चलती है,  
चढ़ती दीवारों पर, सौ बार फिसलती है।

मन का विश्वास रगों में साहस भरता है,  
चढ़कर गिरना, गिरकर चढ़ना अखरता है।

आखिर उसकी मेहनत बेकार नहीं होती,  
कोशिश करने वालों की कभी हार नहीं होती।
