INDIA'S ROAD SECTOR TO BOOST EMPLOYMENT OPPORTUNITIES

Dr. Ranjeet Mehta

Roads provide access to the outside world. Roads are the conduit of life's activities. Roads make a crucial contribution to economic development and growth and bring important social benefits. They are of vital importance in order to make a nation grow and develop. In addition, providing access to employment, social, health and education services makes a road network crucial in fighting against poverty. Transport infrastructure is one of the most important factors for a country's progress. By linking producers to markets, workers to jobs, students to school, and the sick to hospitals, roads are vital to any development agenda. World Bank lends more for roads than for education,

health, and social services combined.

Road Infrastructure is a major sector that propels overall development of the Indian economy. India's economy is big and getting bigger. It has been estimated that India will become the

world's third largest economy by 2050. The importance of road transport infrastructure for sustained economic development is well recognized. High transaction costs arising from inadequate and inefficient infrastructure can prevent the economy

from realizing its full growth potential regardless of the progress on other fronts. The performance of infrastructure is largely a reflection of the performance of the economy. Although India has a large and diverse transport sector with its own share of

challenges, they can be overcome by energy-efficient technologies and customer-focussed approach. One cannot overemphasize the importance of transportation than call it the 'lifeline' of a nation. It has been proven by so many instances how transport infrastructure has added speed and efficiency to a country's progress.

The development of road infrastructure in India is witnessing great momentum. Robust demand, higher investments, attractive opportunities and policy support changed the face of the road sector in the country within four years. The Indian road network is the second largest in the world at 5.6 million km and with rapid growth in national and state

CLEARING CENTRAL TEACHER ELIGIBILITY TEST

Shweta Tiwari

Teachers play a vital role in nation building. They are the basic source of knowledge for most of the citizens of a country. Their job is not limited to make children literate only but also to give them words of wisdom. They shape up the personality of students and tap their potential to the fullest. There is a famous saying, "Teaching is a profession that creates all other professions". It is a noble as well as a challenging profession because it combines several aspects in order to help a child grow. A good teacher essentially needs to be having good communication skills, managerial skills, reading and writing skills, storytelling skills and so on. To make India an educated nation and a Vishwa Guru, the country needs to have a talent pool

opting teaching as a profession. The CTET (Central Teacher Eligibility Test) Exam is a national level eligibility exam for teachers introduced by the

Government of India in 2011, is a giant step towards accomplishing that goal.

CTET was introduced with an objective to ensure that all students have access to teachers with a certain level and knowledge and also to enforce national standards within teaching community. The exam covers the minimum eligibility qualifications that a person should possess for appointment as a teacher for classes I to VIII. This exam is conducted to improve the quality of education in schools and meet the goals of free education for children under the Education Act effectively. The National Council for Teacher Education (NCTE) has laid down the minimum qualifications for teachers in classes I to VIII as per the provisions sub-section (1) of Section 23 of the Right To

Education. One of the necessary qualification for a person to be consider eligible for the appointment as a teacher in any of the schools as mentioned in the clause (n) of section 2 of the RTE Act is that he or she must clear the Teacher Eligibility Test (TET) which is organised by the Government as per the guidelines being quoted by the NCTE. The rationale for TET as a minimum qualification for appointing a teacher is a) to bring national standards and benchmark of teacher quality in recruitment procedure. b) to foster teacher education institutions and students from these institutions and enhance the performance level. c) to show a positive signal to all stakeholders that the Government puts special focus on teacher quality. The Ministry of Human Resource

highways,it is bound to grow exponentially. Road infrastru-
cture is one of the major
priorities for the Indian

government as the roads carry
more than 60% of all goods and
85% cent of total passenger
traffic.
India has awarded road
contracts at a "breakneck pace"
in 2018, raising the prospect that

orders will reach a record this
financial year. Orders from the
National Highway Authority of
India may cross Rs 1 lakh crore
(\$15.3 billion) in the 12 months
through March, climbing from Rs
60,000 crore a year ago. Ministry
of Road Transport and
Highways, and National
Highways Authority of India
(NHAI) has gone about in a very
structured and methodical
fashion to address key sector
issues, working out ways to
address stalled projects to get
them back into the system,
policy changes to make the
sector more investor-friendly and
bringing in new models that
suited the sector requirements at
various points in time.

India's road infrastructure has
seen consistent improvement in
the last few years. Connectivity
has improved and road
transportation has become a
focus of rapid development.
Roads are providing better
access to services, ease of
transportation and freedom of
movement to people.
Recognizing the significance of a
reliable and swift road network in
the country and the role it plays
in influencing its economic
development, the Ministry of
Road Transport and Highways
(MORTH) has taken up the
responsibility of building quality
roads and highways across the
country.

Some of the major road
infrastructure development
measures in India in last four
years are as follows:-

NATIONAL HIGHWAYS DEVELOPMENT PROJECTS

The seven phased NHDP is
being implemented by the
National Highways Authority of
India (NHAI) with a total
estimated expenditure of USD
92 billion. As the largest highway
development project in the
country since 2000, more than
49,260 km of the roads are being
upgraded to match international
standards.

Development of National
Highways to 4/6 lane standards
on the following routes: Golden
Quadrilateral connecting 4 major
metropolitan cities viz. Delhi-
Mumbai- Chennai-Kolkata. North
South & East West Corridors
(NS-EW) connecting Srinagar to
Kanyakumari and Silchar to
Porbandar with a spur from
Salem to Cochin.Road
connectivity of major ports of the
country to National Highways 4-
laning of 4,000 km of National
Highways Upgradation of about
20,000 km of National Highways
to 2-lane paved.Six laning of
6,500 km of existing 4 lane
National Highways Development
of 1,000 km of fully access
controlled expressways under
Public Private Partnership (PPP)
model following Design - Build -
Finance - Operate (DBFO)
approach. Nine such
expressways have been
identified along High-Density
Corridors. These corridors will
seek to ensure quicker
connectivity.Construction of
standalone Ring Roads,
Bypasses, Grade Separators,
Flyovers, elevated roads,
tunnels, road over bridges,
underpasses, service roads, etc.
on BOT (Toll).

The government has already
fast-tracked at least 24 roads
and highways projects and is

under planning to approve nearly
10,000kms of national highway.
Moreover, the National
Highways Authority of India
(NHAI) plans to build 50,000 km
of roads worth \$250 billion by
2022 as part of a long-term goal
of doubling the length of the
national highway network to two
lakh kilometres.In a bid to fulfill
the ambitious goal, the target
pace of road construction has
been increased to 28km a day,
making way for greater
connectivity in no time.

The government is
implementing various projects
across the length and breadth of
the country to solve woes of the
common man. The Ministry has
introduced notable trends that
will make India number 1 in road
infrastructure in the coming
times.

Bharatmala Pariyojana

The Union cabinet on 25th
October, 2017, approved an
outlay of Rs. 6.92 trillion for
building an 83,677 km road
network over the next five years.
The largest ever outlay for road
construction comes in the
backdrop of the Modi
Government implementing the
Goods and Services tax (GST)
which aims to create a common
market by dismantling inter-state
tariff barriers. A robust road
infrastructure will help in that
direction.

The road construction push
includes the Bharatmala
Pariyojana with a Rs. 5.35 trillion
investment to construct 34,800
km of roads. In addition, Rs. 1.57
trillion will be spent on the
construction of 48,877 km of
roads by the state-run National
Highway Authority of India
(NHAI) and the Ministry of road
transport and highways.

Bharatmala includes economic
corridors of around 9,000 km,
inter-corridor and feeder routes
of around 6,000 km, 5,000 km
roads under the National
Corridors Efficiency Program,
border and international
connectivity roads of around
2,000 km, coastal and port
connectivity roads of around
2,000 km, expressways of
around 800 km and 10,000 km of
NHDP roads. The total length in
phase 1 comes to around 34,800
km. Bharatmala project will start
in Gujarat and Rajasthan,
followed by Punjab and
subsequently traversing the
Himalayan belt through Jammu
and Kashmir, Himachal Pradesh,
Uttarakhand, parts of Uttar
Pradesh, Bihar, West Bengal,
Sikkim, Assam, Arunachal
Pradesh, Manipur (next to the
Indo-Burmese border) and then
to Mizoram. Northeastern states
have been given special focus in
the project and international
trade is a key aspect as well.

Employment Generation

It is expected that the
Bharatmala will bring down
logistics cost, impacting exports
and investment. Government's
marquee Bharatmala scheme
will create 100 million man-days
of jobs during the construction
phase and 22 million permanent
jobs due to the increased
economic activity triggered by it.
The government expects the
road construction programme in
pipeline including Bharat-mala
will generate 142 million man-
days of jobs. Bharatmala will not
only boost the economic activity

but the number of road accident
deaths will reduce by half as per
the Hon'ble Minister Mr. Nitin
Gadkari. According to the
ministry of road transport and
highways, a combination of
factors such as human error,
road defects, manufacturing
defects in vehicles and
worsening traffic congestions is
raising the level of human
vulnerability to accidents.

All these steps will provide a
positive push to the
infrastructure segment in the
economy. Mobilizing large
quantum of funds required,
especially from the private
sector, would be vital for the
successful implementation of
these projects. This
Infrastructure plan will contribute
2-3 percent to the GDP. Roads
built under India's ambitious
Bharatmala programme will
increase vehicle travelling speed
by around 20-25%, thereby
helping reduce logistics costs.
This in turn would help reduce
India's supply chain cost to 6%
from the present levels of 18%
and will create 2 lakh crore jobs
as per Mr Gadkari Union
Minister of Ministry for Road
Transport, Highways and
Shipping, and Water Resources,
River Development and Ganga
Rejuvenation.

It can be concluded that the
prospects for India's roads
sector have brightened with new
project awards and fewer
stranded assets. Regulatory
changes and greater
government spending have
helped revive the sector in last
four years. Faster clearances
and dispute resolution, last mile
funding and easier exits for
companies are among steps
taken by the Modi Government
to help the sector since it came
to power in May 2014. With the
Government permitting 100%
FDI in the road sector, several
foreign companies have formed
partnerships with Indian players
to capitalise on the sector's
growth. The Indian infrastru-
cture sector offers massive
investment opportunities to the
tune of about Rs. 28.2 trillion in
coming years. The government
has cleared several project
proposals and offered a one-time
capital infusion to revive those
short of funds including hybrid
annuity model, where it commits
up to 40% of the project cost. It is
acknowledged that roads
enhance mobility, taking people
out of isolation and therefore
poverty. The road transport
industry is the backbone of
strong economies and dynamic
societies. It is therefore
legitimate and indispensable to
safeguard an industry that is vital
to economic growth, social
development, prosp-erity and,
ultimately, peace and which
plays a crucial role in everyone's
life in industrialized and
developing countries alike by
meeting the demand for the
sustainable mobility of both
people and goods.The road
transport industry is indeed
instrumental in interconn-ecting
all businesses to all major world
markets, driving trade and
creating employ-ment
opportunities.

CLEARING CENTRAL TEACHER ...

Continued from page 1

www.jobriya.com

Development has given the responsibility of organising the Central Teacher Eligibility Test (CTET) to the Central Board of Secondary Education (CBSE), Delhi.

Qualifying the CTET is compulsory for candidates who wish to teach in Central Government schools including Kendriya Vidyalaya, Navodaya Vidyalaya, Central Tibetan Schools, schools under the administrative control of Union Territory's of Chandigarh, Dadra & Nagar Haveli, Daman & Diu and Andaman & Nicobar Islands, Lakshadweep and NCT of Delhi. A number of unaided private schools also consider CTET score while appointing teachers. Some State Governments also consider the CTET which do not conduct state TET. However, it must be noted that qualifying the exam doesn't guarantee a teaching job. There are many other factors on which the appointment depends.

CTET is conducted twice a year in February and September. It is conducted Offline. There is no restriction on the number of attempts a person can take for acquiring a CTET Certificate. An aspirant who has qualified the exam may also appear again for improving his/her score. A student can apply online through its official website- **ctet.nic.in** and complete the online registration. The online registration opens usually 3 months before the examination date and lasts up to 1 month. The candidates appeared in the exam are issued Marks Statement. The candidates who secure 60% and above marks are issued Eligibility Certificate. The score of a qualifying candidate for all categories is valid for 7 years from the date of declaration of its result.

Basic Eligibility for becoming teachers of class I-VIII:

CBSE Affiliation Bye-Law 53 prescribes the minimum qualifications for teachers to teach various subjects in Classes I to VIII in the schools Affiliated to CBSE stands. As per its provisions, it is mandatory that the teachers appointed after March 2012 need to qualify CTET or TET. To appear in the CTET for the primary stage (Class I-V), a candidate must be Senior Secondary pass with at least 50% marks and also passed or appearing in final year of 2-year Diploma in Elementary Education or passed or appearing in final year of 4- year Bachelor of Elementary Education (B.El. Ed). The minimum Educational Qualification for becoming teachers of classes VI-VIII (elementary stage) is graduation and passed or appearing in final year of 2-year Diploma in Elementary Education or Graduation with at least 50% marks and passed or appearing in 1-year Bachelor in Education (B.Ed) or passed or appearing in final year of 4- year Bachelor in Elementary Education (B.El.Ed).

Structure of CTET exam:

Multiple Choice Questions (MCQs) are asked in the CTET test where each question carries one mark. There is no negative marking. There are two papers. Paper I is for a candidate who intends to be a teacher for classes I to V whereas Paper II is for those who intends to be a teacher for classes VI to VIII. An aspirants who intends to be a teacher for both levels needs to appear in both the papers. The duration of the exam is two-and-a-half hours.

CTET Syllabus:

The syllabus of CTET 2018 for papers I and II have topics prescribed in the syllabus of the NCERT for classes I to VIII. The difficulty level is also up to the level of senior secondary stage. Candidates are tested for two languages, one as medium of instruction and another language that they can choose. For the second language, aspirants are tested on the elements of language, communication and comprehension abilities. The syllabus for Child Development and Pedagogy section includes topics related to teaching ability and students that they will be teaching after qualifying CTET and recruitment as teachers in primary and elementary schools in India. In Paper I, the test items on Child Development and Pedagogy focus on educational psychology of teaching and learning relevant to the age group of 6-11 years. They focuses on understanding the characteristics and needs of diverse learners, interaction with learners and the attributes and qualities of a good facilitator of learning.
