PRADHAN MANTRI JAN DHAN YOJANA
A SCHEME THAT USHERED IN SOCIAL REVOLUTION

Dr. Ashwani Mahajan

JAM Trinity is the finest example of how technology can bring change in everybody's life. When Shri Narendra Modi took over as Prime Minister in May 2014, the economy was passing through a difficult phase. On the one hand, growth had slowed down and on the other, inflation was at its peak. It was a challenge for the new government. For a country inhabited by poor masses, food security is a major concern and that requires a huge food subsidy. And if the same is attempted by way of Public Distribution System (PDS), that required a huge government expenditure. According to erstwhile Planning Commission, to transmit food subsidy to the intended beneficiaries of one rupee, the government has to spend Rs. 3.85. Similarly, though by allowing petrol and diesel prices to be out of administrative control, diesel subsidy had come down, but LPG subsidy requires a huge food subsidy. And if the beneficiaries of one rupee, expenditure. According to erstwhile Public Distribution System (PDS), that the same is attempted by way of
social welfare State, however major concern was leakage in subsidies, which was needed to be plugged at any cost, to ensure that subsidies reach the real beneficiaries.

There was another issue, a large number of poor households (with limited financial resources) were almost untouched by the banking system. For financial inclusion, first task was to open their saving bank accounts without any deposit requirement (zero balance). That could be made possible by a push given by the government programme, namely, ‘Pradhan Mantri Jan Dhan Yojana’ (PMJDY).

For targeted transfer of government subsidies, the essential requirement was that all beneficiaries of government subsidies must have bank accounts. Similarly, if financial remittances are essential part of modern businesses, they are equally needed for the poor too, in order to transfer money to near and dear ones. Now since tele-density in the country improved so much, transfer of funds is just a click away for masses.

For targeted delivery of subsidies, identification of beneficiaries has been a big issue and that was helped by ‘Aadhaar’. Therefore, one needs to look at Jan Dhan bank accounts, Aadhar and Mobile telephony in an integrated way to understand financial inclusion and targeted delivery of subsidies. This is what one calls JAM Trinity. PMJDY

The objectives of PMJDY are ensuring access to financial services, like availability of basic Banking. Savings bank account, access to need based credit, remittance, insurance and pension facility to the excluded sectors, that is, weaker sections and low income groups, as enshrined in the documents of the scheme. It is notable that most of these accounts have been opened by nationalised banks. Though, the provision of opening zero balance accounts existed even earlier, however, even public sector banks never used to open such accounts. It was only after, Prime Minister Narendra Modi, took it as a campaign and instructions were issued to banks, that accounts could be opened in a big way. It is notable that on the very first day of this scheme more than 1.5

How to clear…
Continued from page 1

in full swing and you might be going through a little loss of confidence. So, before you appear for the prelims, I will discuss here the strategies that I followed for Prelims. I would like to talk about some Do’s & Don’ts for them.

● Don’t change your own strategy: In the last 1 month before the exam try to restrict yourself to the resources and follow the simple mantra “Revise and Revise”

● Previous year UPSC Papers: This is the only thing that I would suggest if any of the aspirants haven’t solved them yet. Do it. It will not only help you in understanding areas on which one needs to focus more in last one month but also it will improve elimination as well as help you in management in the examination hall.

● Time Management in last one month: Prelims examination is on 3rd June and it will go on for rest of the days. It will help you in two ways, firstly you will remain calm and confident that everything will be covered before you go into actual examination. Secondly it increases your efficiency on daily basis. This is something that I realized, after doing mistakes and correcting it in my journey but follow it only if you feel it is right for you and it is upon your own strength and weakness.

● Health : Just take care of your health in last one month as it’s the most important thing. Don’t try to make 10-20 minutes or an hour at max by neglecting diet or exercise but if God forbid one gets sick, it can take away 3-4 days straight.

● Due Exam: When you enter the examination hall, just say to yourself you are the best, I will definitely clear this. Believe me it works, it gives a sense of confidence and reduces performance pressure.

Further, fill all your particulars with extra caution. It might happen you might have committed few mistakes wrong mistakenly even after knowing it (It happened with me twice). Don’t panic and just try to focus on rest of the questions. Don’t let one mistake fool you in entrance paper.

Some Tips for Preliminary Examination

1) Make Mnemonics: It will help in remembering factual information in the examination hall.
   For instance: a. BacChPoN + Mba-To remember length of boundary India shares in decreasing order-Bangladesh-Myanmar-China, Pakistan, Nepal, Myanmar, Bhutan, Afghanistan.
   b. PATNA : To remember Missiles under integrated program. Prthivi Agni Trishul Nag Akash
   c. MBBS PAIN: Trick to Remember SAARC Countries- Maldives Bangladesh Bhutan Sri Lanka Pakistan Afghanistan Pakistan Indian Nepal. It works. It will really help you while preparing and remembering important facts.

2) Extreme options / Sweeping Statements are likely to be wrong:
   (Caution: It is not a rule but just a observation)
   Rest I believe, everyone is working hard on this one and I think a situation might have planned out how to go about prelims this year.

Now I would like to discuss strategy for those of you who will appear for Prelims next year or thereafter:

First of all, the resources that I have referred during my preparation:

Ancient History: Old NCERT by RS Sharma

Medieval History: Old NCERT by Satish Chandra

Modern History: Old NCERT by S.C. Bhattacharya

Art and Culture: NCERT 11th class book on Art & Nitin Singhania’s notes

Polity: Indian Constitution at Work, Laxmikantr

Economy: Munjal’s videos, NCERT’s of Economics of Class 12th, Indian Polity (KVPY) and Key Concepts by Sankaranagim

Geography: NCERTs, Rajanil Ma’am lectures of Geography on Munjal’s Youtube Channel

Environment: Student Blackswan Atlas

While compiling best out of different resources and stick to it. I took help of NCERT for revision sticky notes on important pages.

Sticking to the resources: While one is preparing for prelims, try to study in a holistic manner along with Mains preparation at least till 4-5 days before the actual examination. Try to go through all the NCERT’s once for each subject along with one Standard book whichever you feel comfortable with. Moreover, don’t get distracted with the amount of resources you will be flooded with on the internet and in the market. One may feel, that he/she will get extra things or can learn more by reading books but you have to remember that one should have atleast 2-3 revisions. Try to have concise notes on each topic even if you learn everything. Don’t try to revision or compiling best out of different resources at one place, so that you can revise twice or thrice before examination.

To remember important facts or clear revision. Ultimately one needs to have a target plan for next 3-4 months. It will help you in understanding areas he/she is not comfortable. My peer group has helped a lot in many instances when I was not able to remember at certain topics. There will be many ups and downs, it is important to maintain continuity. For this, one can follow any one test series. It can be two or more, firstly scheduling as well as maintaining tempo of preparation all throughout. When you feel comfortable overall across the subjects you can start solving previous 10 years prelims paper.

Time Management: This is one of the key areas. Here I would say, try to have a target plan for next 3-4 months and then divide it into monthly and weekly plans. Further based upon your schedule, divide it into daily targets. Let’s say, one is working, he/she can set 1-2 hours things on weekends or on holidays and light on working days.

I have already written about last 15 days strategy which I feel is one of the most crucial phases in prelims examination. I wish you all the best for your all your endeavors!
