One of the biggest successes of the government in the past 48 months has been in the diplomatic arena. From the neighbourhood to beyond, the diplomacy has worked well. Though there have been some disappointments as well given the evolving global situation, but India’s global profile and its respect amongst the comity of nations has gone up many notches.

To understand it better, the following are the key areas in which the Government’s policy has had its successes:

The surgical strike against Pakistan is a case in point, which was a game changer approach. India ensured it sent a strong message to Pakistan, that it will no longer act with restraint if Pakistan continues to provoke it with terrorist incidents. It was also a message to the military establishment in Pakistan that India will respond at a time of its choosing and will not hesitate to hit back. While Pakistan was shocked, the global community supported India. The fact that even Pakistan’s close backers are questioning it on the issue of terrorism is a major shift. This has been brought about by its increased isolation in the global arena following India’s sustained efforts during bilateral and multilateral parleys in the world.

A majority of SAARC countries decided to boycott the summit in Pakistan which led to the postponement of the summit. Not only this, the Trump administration also gave a strong warning to Pakistan on the issue of terrorism. Besides this, from receiving the highest civilian award from Saudi Arabia to a closer strategic relationship with the Gulf countries like UAE, Oman and Qatar to engaging Israel, the diplomacy under Narendra Modi has seen an accelerated push. From cooperation on security issues and repatriation of Indian fugitives to investment by their sovereign wealth funds, India’s diplomatic engagement has brought in tangible strategic outcomes.

The Road Ahead

Diplomacy has been one of the high points of Narendra Modi government’s tenure from the gains at the UN, winning ICJ and a strong support from the US President Donald Trump on the issue of terrorism. India’s global clout has expanded exponentially.

Work on India US Confluence

The Indo US relations have intensified with Prime Minister Narendra Modi and US President Donald Trump forging a good chemistry. That has translated into China. The United Nations markets in the world, second only to China. The United Nations World Tourism Organization (UNWTO) estimates that India will account for 50 million outbound tourists by 2020. Despite the slowdown due to rupee fluctuations, the Indian outbound numbers have been growing with an average 10-12% annual growth over the last seven years. The market for travel and tourism in India is expected to grow at a Compound Annual Growth Rate (CAGR) of around 7.23% during 2016-2021. A growing, consumption-driven economy, a large and increasingly affluent middle class, and the ongoing liberalization of air transportation have contributed significantly to this growth in international outbound travel. Additional interest in niche tourism sectors such as medical, wellness and adventure tourism has also contributed to this growth. Increased smartphone and internet penetration have also contributed to an increased number of online bookings.

"Athithidevo Bhava" these are not only the two words but the complete gesture of hospitality in itself for the tourists of any place. The hospitality industry is a broad category of fields within the service industry that includes lodging, event planning, theme parks, transportation, cruise line, and additional fields within the tourism industry. The hospitality industry is a multibillion-dollar industry that depends on the availability of leisure time and disposable income. A hospitality unit such as a restaurant, hotel, or an amusement park consists of multiple groups such as facility maintenance and direct operations (servers, housekeepers, porters, kitchen workers, food and beverage bartenders, management, marketing, and human resources etc.). Hospitality industry offers unlimited opportunities. It is one of the first businesses in history. Individuals have always gone out for work or leisure purpose - to enjoy with family/friends. Currently, this is a $61 billion business. Managing and selling services to individuals without negotiating on quality is a challenging issue. Bears in mind the challenge issue of technology and globalization, it has become imperative for the Hospitality Industry to handle operations, marketing and human resources in an effective way. Hospitality Industry offers unlimited opportunities to employing individuals worldwide through tourism.

GLOBAL SUCCESS OF INDIA’S DIPLOMACY

Four Years of the Government : Special Series Part-VI

Prabha Negi & Antriksha Negi Pant

India is the largest democracy in the world. It is gifted with rich cultural heritage, splendid geographical location and wide variety of flora and fauna which makes it one of the finest destinations in the world to explore. In recent years, travel and tourism has become one of the largest service industries in India. The industry is set to grow at 7.5% in 2016 exceeding the previous year’s growth rate of 6.9%. According to World Travel and Tourism Council’s “Travel and Tourism Economic Impact 2015” report the direct contribution of this industry to the country’s GDP in 2014 was 2.2%. It is forecast that the contribution will rise significantly to 2.5% of total GDP in 2025. The improved connectivity, better lodging facility and favorable government policy on visa reforms like Visa-on-arrival have helped the Indian Tourism to thrive and flourish.

India is now one of the fastest growing outbound tourism markets in the world, second only to China. The United Nations

The true saint is the one who recognizes & understands the sufferings of others. Those who do not feel the pain of others are not a saint. However, even a great, famous personality or a great, famous personality is not a great saint. The true saint is the one who feels the pain of others.

It was a matter of great pride for a hundred thousand youths of India to welcome our brave soldiers. They are our heroes and we love them. This was a victory ceremony.

The world was undergoing strife and degradation. It was a world that was seeking to spread the message of peace and harmony. He worked towards uniting all peoples, bridging all differences.

The world is full of cruelty, the guileless, unarmored and innocent people were fired with bullets.

There will be no enmity in the world if there is peace and truth. Compassion should be the ultimate aim.

Travel and Tourism Industry: Road ahead

When we think of a passion and the options, Travel and Tourism is one of the best choices ever, as it provides the way of living to the majority of the population throughout the world. It is very well said that Travel brings power and love back to your life. Travel is not reward for working, it is education for living. Fill your life with experiences, not things, have stories to tell, not stuff to show off. We can always make more money. But we can't always make more memories. Sampling a bit of everywhere is the real joy of Travel and Tourism. In the end, we only regret the choices we didn't make. We can apply these lines everywhere, be it our personal life, work life or anything we can think about. The above lines very well represent the travel addiction of people in today’s scenario and seems, it is the need of the hour as well.
