Shantesh Kumar Singh

In the year 2015, WHO and its member states agreed to adopt the Sustainable Development Goals, and also committed to adopt concrete steps to advance ‘Health For All’. Such a pledge was taken to ensure that everyone, everywhere can access essential quality health services without facing financial hardship. Building on the Millennium Development Goals, the UN 2030 Agenda for Sustainable Development has drawn 17 Sustainable Development Goals and 169 targets. Trying to achieve what the MDG failed to achieve, it strives to realize human rights and equality and the empowerment for all and to achieve gender equality and the empowerment for all and to achieve gender equality.

The present government is trying to fulfill its promise to people by improving the health infrastructure all over the country. In the last four years, the government has brought various health schemes to ensure health for all i.e. Rashtriya Swachhata Mission to end open defecation; New Health Policy in 2015, E-health initiative as part of Digital India Campaign along with special attention on health equipment production. In the recent budget, the government has adopted the world’s largest universal health coverage scheme namely Ayushman Bharat Scheme.

During the budget session 2018-19, Union Finance Minister Shri Arun Jaitley announced the Ayushman Bharat Scheme on 14th March, 2018. Later, the scheme was officially declared by Prime Minister Shri Narendra Modi on the occasion of Ambedkar Jayanti i.e. 14th April, 2018 at Bijapur District of Chhattisgarh. On this occasion, he stated “The Ayushman Bharat scheme is not limited to simply providing a service, but also invokes public participation so that we can create a healthy, capable and content New India.” The Government is prepared to launch the scheme on 15th

CAREER IN HORTICULTURE FOR GREENER FUTURE

Usha Albuquerque & Nidhi Prasad

CAREER OVERVIEW

• Are you someone who is fond of gardening and dream of having your own garden with all exotic plants, flowers, vines and trees?

• How often have you thought about the fact that there is not enough green cover in our city?

• Do you think you can spend hours tending to plants so that they bloom just right?

• Have you ever brought home a dying plant to revive it and watch it blossom over the months?

If you are a person who appreciates the role plants play in your life, then a career in horticulture might be just what you would like. Nowadays, horticulture is considered as one of the most rapidly growing sectors in agriculture and is a focus area to stimulate agricultural growth, due to the fast-changing food habits of the domestic population towards more nutritious food and increasing overseas demand.

Horticulture is an intensive subset of agriculture that deals with flowers, landscape plants, vegetables, and fruits. Horticulture is socially important because it improves how we use plants, for food and other human purposes, as well as repairing the environment and personal aesthetics. India, with its diverse soil and climate comprising several agro-ecological regions, provides the opportunity to grow a variety of horticulture crops. These crops form a significant part of total agricultural produce in the country comprised of fruits, vegetables, root and tuber crops, flowers, ornamental plants, medicinal and aromatic plants, spices, condiments, plantation crops, and mushrooms. Horticultural crops play a unique role in India’s economy by improving the income of the rural people. High-tech green houses, in-house research and off-season cultivation have ushered in trends of rapid developments in this sector, making India among the largest producers of fruits and vegetables in the world.

What is Horticulture?

The term can be broken down into two Latin words: hortus (meaning “garden”) and cultus (which means “tilling”). Horticulture is the science and art of growing plants (fruits, vegetables, flowers etc.). It also includes plant conservation, landscape restoration, soil management, landscape and garden design, construction, and maintenance, and arboriculture. Horticulturists apply their skills, knowledge and technology to intensively produce plants for personal or social needs. The work of a horticulturist includes propagation of plants and cultivation. Their main aim is to improve plant growth, yield, nutritional value, quality and resistance to insects and diseases. Horticulturists work as gardeners, growers, therapists, designers and technical advisors in sectors of horticulture.

There are broadly two main areas of activity in horticulture: Commercial Horticulture involves growing fruits and vegetables in orchards and plantations for sale both as raw commodities and for processing purposes. Horticulturists also create exotic and high quality plants by interbreeding, which are then multiplied on a mass scale for commercial purposes.

Amenity Horticulture involves making and maintaining gardens as pleasant environs.

AYUSHMAN BHARAT...
Continued from page 1

August 2018 in all States of India in one go. Ayushman Bharat Scheme or National Health Protection Mission will subsume the on-going two centrally sponsored schemes, Rashtriya Swasthya Bima Yojana (RSBY) and the Senior Citizen Health Insurance Scheme (SCHIS), Ayushman Bharat, has basically two core agendas to fulfill. First, it will establish a network of Health and Wellness Centers (HWC’s) across the country to deliver comprehensive primary healthcare. These centers will provide free drugs and diagnostics services to all identified poor families. To ensure that nobody is left out, in tune of UN-SDG - No One Left Behind, (especially women, children and elderly), capping on family size and age has been removed from the scheme. Pre and post-hospitalization expenses will be covered under this scheme, which will include transport allowances too.

Second, this scheme will be known as National Health Protection Scheme (NHPS), Ayushman Bharat or National Health Protection Scheme, will over 10 crore poor and vulnerable families (approximately 500 million beneficiaries) providing coverage up to 5 hundred thousand rupees per family per year for secondary and tertiary care hospitalization. This scheme is going to be the world’s largest universal health coverage scheme.

The entitlement of beneficiaries under this scheme will be based on Socio-Economic Caste Census (SECC) database. Beneficiaries from rural areas will be families having only one room with kucha walls and kucha roof (kucha means temporary); families having no adult member between age 16 to 59; female headed households with no adult male member between age 16 to 59; disabled member and no able bodied adult member in the family, SC/ST households; and landless households deriving major part of their income from manual casual labour, Families in rural areas having any one of the following will get automatically included: households without shelter, destitute, living on alms, manual scavenger families, primitive tribal groups, legally released bonded labour. For urban areas, 11 defined occupational categories are entitled under the scheme.

Another major feature of this scheme is that the beneficiary will be able to avail the scheme both in public and empanelled private facilities. To keep the costs under control, the payments that will be made for the treatment of the beneficiaries will be done on package rates, which will be defined by the Government in advance.

While strengthening and establishing the UNSDG, the core principle of the Ayushman Bharat scheme is to strengthen cooperative federalism and add operational flexibility to the states. There is provision to partner the States through core alliance. This will ensure appropriate integration with the existing health insurance/ protection schemes of various Central Ministries/Departments and State Governments (at their own cost). State Governments will be allowed to expand Ayushman Bharat both horizontally and vertically.

For the smooth operation of the scheme and for giving policy directions and fostering coordination between Centre and States, the Government has proposed to set up Ayushman Bharat National Health Protection Mission (AB-NHPM) at the apex level which will be chaired by the Union Health and Family Welfare Minister. It is proposed to have an Ayushman Bharat National Health Protection Mission Governing Board (AB-NHPMB) which will be jointly chaired by Secretary (HFW) and Member (Health), NITI Aayog with Financial Advisor, MoHFW, Additional Secretary & Mission Director, Ayushman Bharat National Health Protection Mission, MoHFW (AB-NHPM) and Member Secretary (AB-NHPM), MoHFW as members. CEO, Ayushman Bharat - National Health Protection Mission will be the Member of this committee.

At the state level, each State will have a State Health Agency (SHA). At the central level, the Government will establish a new agency namely Ayushman Bharat National Health Protection Mission Agency (AB-NHPMA). It will be headed by a full time CEO of the level of Secretary/ Additional Secretary to the Government of India. State Health Agency (SHAs) will give advice to all the governments of the State and Union Territories on the implementation process of the scheme. States and UTs are free to give power of execution and implementation to existing Trust/ Society/ Not for Profit Company/ State Nodal Agency (SNA) or set up a new entity. They can implement the scheme through insurance company, trust or societies.

The expenditure incurred in premium payment will be shared between Central and State Governments in specified ratio as per Ministry of Finance guidelines in vogue. The expected premium will not be more than Rs. 2000 per year per family. The expenses for the scheme will be jointly borne by Central (60%) and State governments (40%). The total expenditure will depend on actual market determined premium paid in States/ UTs where Ayushman Bharat - National Health Protection Mission will be implemented through insurance companies. In States/ UTs where the scheme will be implemented in Trust/ Society mode, the central share of funds will be provided based on actual expenditure or premium ceiling (whichever is lower) in the pre-determined ratio. The State has the flexibility to decide the quantum of grants within defined time frame. To ensure that the funds reach SHA on time, the transfer of funds from Central Government to Ayushman Bharat - National Health Protection Mission to State Health Agencies may be done through an escrow account, directly. It is anticipated that in the first year of its implementation, a total cost of Rs. 100 billion will be incurred, of which Rs. 80 billion will come from Centre and the rest Rs. 40 billion will be borne by the States.

Looking at the large base of beneficiaries, as well as in tune with the policy of ‘Digital India’, the Government has also decided to launch a robust, modular, scalable and interoperable IT platform, in partnership with the NITI Aayog, which will make the entire process paperless and cashless.

This scheme will enable the Governments to cover the poor and vulnerable people of the population have increased access to quality health and medication. In addition, the needs of the population which had remained hidden due to lack of financial resources will be catered to. This will lead to timely treatments, improvements in health outcomes, patient satisfaction, improvements in productivity and efficiency, job creation thus leading to improvement in quality of life. The primary aim of the Ayushman Bharat Scheme is to inform, clarify, strengthen and prioritize the role of the Governments, centrally and state-wise, in shaping health systems for poor and vulnerable people of the country in all dimensions i.e. investment in health, organization and financing of healthcare services, prevention of diseases and promotion of good health through cross sectoral action, access to technologies, developing human resources, encouraging medical pluralism, building the knowledge base required for better health, financial protection strategies and progressive assurance for health. With Ay- NHPS and related regulatory frameworks there is a sense of optimism that India will make Sustainable progress towards attaining “Health for All” and the SDG targets.

3. The Freedom Struggle- its various stages and important contributors/contributions from different parts of the country.

4. Post-independence consolidation and reorganization within the country (till 1965 A.D.)

5. History of the world will include events from 18th century to middle of the 20th century such as French revolution, Industrial revolution, World Wars, withdrawal of natural boundaries, Socialism, Nazism, Fascism etc. and its effects on the society.

6. Salient features of Indian Society and culture.

7. Role of Women in society and women’s organization, population and associated issues, poverty and development issues, urbanization, their problems and their remedies.

8. Meaning of liberalization, privatization and globalization and their effects on economy, polity and social structure.

10. Distribution of major natural resources of Water- Water, Soils, Forests in reference to South and South-East Asia with special reference to India. Factors responsible for the location of industries (with special reference to India).

12. Oceanic resources of India and their potential.

13. Human migration-refugee problem of the World with focus on India.

14. Fertile land with boundaries to Indian sub-continent.

15. Population and Settlements- Types and Patterns, Urbanization, Smart Cities and Smart Villages.

APPENDIX-X

GENERAL STUDIES-II

1. Indian Constitution- historical understandings, evolution, features, amendments, significant provisions and basic structure, Rule of Supreme Court in evolution of basic provisions of Constitution.

2. Functions and responsibilities of the Union and the States: issues and challenges prevailing on federal structure, devolution of powers and finances up to local levels and challenges therein.

3. Role of Finance Commission in Centre-State financial relations.

4. Separation of powers, dispute redressal mechanisms and institutions. Emergence and emergence of alternative methods of conflict resolution.

5. Comparison of the Indian constitutional scheme with that of other major democratic countries.

7. Structure, organization and functioning of the Executive and the Judiciary: Ministries and Departments of the Government, Pressure groups and formal/informal associations and their role in policy making.

9. Appointment to various Constitutional posts, Powers, functions and their responsibilities.

10. Statutory, regulatory and various quasi-judicial bodies including NITI Aayog, their features and functioning.

11. Government policies and interventions for development in various sectors and issues arising out of their design, implementation and Information Communication Technology (ICT).

12. Development processes- the role of Non Governmental Organizations (NGOs), Self Help Groups (SHGs), various groups and associations, donors, charities, institutional and other stakeholders.

13. Welfare schemes for vulnerable sections of the population by the Centre and States and the performance of these schemes, mechanisms, laws, institutions and Bodies constituted for the protection and betterment of these vulnerable sections.

15. Issues relating to their implication on body politic.

17. Role of Civil Services in a democracy in the context of emerging trends.

18. India and its relationship with neighbouring Countries.

19. Bilateral, Regional and Global groupings and agreements involving India and/ or affecting India's interests.

20. Effect of policies and politics of developed and developing countries on India's interests- Indian diaspora.

21. Important International Institutions, Agencies their structure, mandate and functioning.

22. Specific knowledge of Uttar Pradesh regarding Political, Administrative, Revenue and Judicial System.

23. Current affairs and events of Regional, State, National and International importance.

GENERAL STUDIES-III

1. Economic planning in India, objectives and achievements. Role of NITI Aayog, Pursuit of Sustainable Development Goals (SDG’s).

2. Issues of Poverty, Unemployment, Social justice and inclusive growth.

3. Composition and Functioning of the Planning Commission.

5. Issues related to direct and indirect farm subsidies and minimum support prices, Public Distribution System, Agricultural Lending, Reforms, rupees of prices of food stocks, Food Security missions in agriculture.

6. Food processing and related industries in India- scope and significance, localization, upgradation and development of the sector through timely planning and management.

7. Land reforms in India since independence.

8. Effects of liberalization and globalization on the economy, changes in industrial policy and their effects on industrial growth.

9. Infrastructure- Energy, Ports, Roads, Airports, Railways etc.

10. Science and Technology-developments and applications in everyday life and in National Security, India’s Science and Technology policy.

12. Developments of New technologies, transfer of technology, dual and critical use technologies.

13. Awareness in the fields of Information and Communication Technology (ICT) and Space, Information Technology, Computer, Green Technology, role of technology, microdivision, biotechnology. Issues relating to intellectual property rights (IPR), and digital rights.

15. Disaster as a Non-traditional security and safety challenge, disaster mitigation and management.

18. India’s internal security challenges: Terrorism, corruption, insurgency and organized crime.

19. Role, kind and mandate of security forces, Higher defense organizations in India.

20. Specific knowledge of the state of UP (U.P.) and its Geography, Resources, Human Resources and Skill development, Government Programmes and Welfare Schemes.

22. Law and Order and Civil Defence Departments and its role in UP.

GENERAL STUDIES-IV

1. Ethics and Human Interface: Essence, determinants and consequences of Ethics in human action, dimensions of ethics, ethics in private and public relationships. Human Values- Their sources, bases and roles of values and ethics in individual and social conduct.

2. Basic concepts of moral and political attitudes, social influence and persuasion.

3. Aptitude and foundational values for Civil Service, integrity, impartiality and non partiality, participation in public service, empathy, tolerance and compassion towards the weaker sections.

4. Emotional Intelligence- concept and dimensions, its utility and application in administration and governance.

5. Comparative study of the role of philosophers and philosophers from India and world.

6. Public/Civil Service values and ethics in Public Administration: status and problems, ethical concerns and dilemmas in government and private institutions, laws, rules, regulate, redefine and reconcile as a foundation of moral, accountable and ethical governance, strengthening of moral values in governance, ethical issues in international relations and funding, corporate governance.

7. Proliferation in Governance: concept of public service, philosophical basis of governance and the concept of corporate governance.

8. Indian Constitution, Code of ethics, codes of conduct, citizen's charter, work culture, quality of service delivery, utilization of public funds, challenges of corruption.

9. Case studies on above issues.

AGRICULTURE

1. AGRICULTURE - PAPER-I (SECTION -A)

2. AGRICULTURE - PAPER-II (SECTION -A)

Water use efficiency in relation to crop production. Criteria for scheduling irrigations, ways and means of reducing run off losses of irrigation water. Drainage of water-logged soils. Farm management its scope, importance and characteristics, farm planning and economic decision making, profitability of different farming systems, marketing and pricing of agricultural inputs and outputs, price fluctuations and their cost. Role of co-operators in agricultural economy, Types and system of farming and factors affecting them Agricultural extension, its importance and role, method of evaluation of extension programmes, and mechanisms of communication of innovations, people’s participation and production and motivation. Farm mechanization and its role in agricultural production and rural employment. Training programme for extension workers and farmers, Extension systems and programmes. Training in KVK, KVG, NAPT and IVLP.

3. AGRICULTURE - PAPER-II (SECTION -B)

Hybrid and variation, Mendel’s law of inheritance, Chromosomal theory of inheritance, Cytological inheritance, Sex linkage and sex limited and sex limited characters. Spontaneous and induced mutations. Role of chemicals in mutation. Origin and domestication of field crops. Morphological patterns of variations in varieties and related significance. Importance of various crops in crop improvement. Application of the principles of plant breeding to the improvement of major field crops, Methods of breeding to self and cross-pollinated crops. Introduction, selection, hybridization, male sterility and self incompatibility, utilization of mutation and polybiodiversity in crop improvement. Quality assurance and certification, marketing and production of seeds. Role of national and state seed organization in production, processing and marketing of improved seeds. Physiology and its significance in agriculture, Physical properties and chemical constitution of proteins, inhibitors, surface diffusion and osmosis. Absorption and translocation of water, transpiration and water economy.

4. AGRICULTURE - PAPER-II (SECTION -B)

equipments.  
Construction activity, schedules, organizations, Quality assurance principles. Basic principles of network. Types of network models. Concept of optimization and resource allocation. Basic principles of Economic analysis and methods.  
Project Profitability: Basic principles of financial planning, simple toll fixation criteria.  
(b) Surveying: Common methods and instruments for distance and angle measurement for surveying. Their use in plane table, traverse surveying, leveling, triangulation, contouring and topographical maps. Basic principles of photogrammetry and remote sensing. Introduction to Geographical information system.  
(c) Water Resources Engineering: Transit diagrams, hydraulic conductors, measurement of streams, cross-sections, C-optimization and resource allocation.  
Pavement structure for flexible and rigid pavements, Design principles and methodology.  
Construction methods and materials for stabilized soil, WBM, Bituminous works and CC roads.  
Surface and sub-surface drainage arrangements for roads, culvert structures.  
Pavement distresses and strengthening by overlays.  
Traffic surveys and their application in traffic planning, Typical design features for children's playground, special-purpose roads, standard traffic signs and markings.  
(d) Railway Engineering: Permanent way, ballast, sleeper, chair and fastenings, points, crossings, different types of turnouts, cross-over, setting out of points, Maintenance of track, ballast, sleepers, ballast, aggregate, maintenance, rail joint, track capacity, etc.  
(e) Pipeline Engineering: Types of pipelines, Hydro-geology, design and construction of pipelines, pumping systems.  
(f) Refuelling and Air Conditioning: Engine vacuum, pump absorption, steam jet and air refrigeration systems, Desirable properties of refrigerants, eco-friendly refrigerants, Analysis of compressors, condenser, expansion valves and evaporators.  
indicating Indicators. DC and AC Bridges, Electronic measuring instruments. Multi-meter, digital voltmeter, frequency counter, Q-meter, oscilloscope, techniques, special applications, DC and AC Measurements, Waveform generators, Multi-vibrators; Boolean algebra. Logic Gates Combinational and sequential digital circuits.  
Semiconductor memories. A/D & D/A converters; Microprocessor: Number system and codes, elements of microprocessors & their important applications.  
indicating Indicators. DC and AC Bridges, Electronic measuring instruments. Multi-meter, digital voltmeter, frequency counter, Q-meter, oscilloscope, techniques, special applications, DC and AC Measurements, Waveform generators, Multi-vibrators; Boolean algebra. Logic Gates Combinational and sequential digital circuits.  
Semiconductor memories. A/D & D/A converters; Microprocessor: Number system and codes, elements of microprocessors & their important applications.  
(8) Quality Management: Quality analysis, control charts, acceptance, sampling, total quality management, Operations research, linear programming, graphical and simplex methods, Transportation and assignment models, single Server queueing model, Engineering.  
MECHANICAL ENGINEERING: PAPER-I (PART-A) 

1. Thermodynamics: Laws of thermodynamics and their applications: T-s diagrams, Maxwell and Clapeyron equation and their use; Availability and irreversibility.  
Steam table, Heat exchangers, Radiation heat transfer, Stefan's law, Newton's cooling law.  
7. Electronic Circuits: Basic principles of measurement, Instrumentation, Measurement of current, voltage, power, power-factor, resistance, inductance, capacitance, frequency and loss-angles.  
indicating Indicators. DC and AC Bridges, Electronic measuring instruments. Multi-meter, digital voltmeter, frequency counter, Q-meter, oscilloscope, techniques, special applications, DC and AC Measurements, Waveform generators, Multi-vibrators; Boolean algebra. Logic Gates Combinational and sequential digital circuits.  
Semiconductor memories. A/D & D/A converters; Microprocessor: Number system and codes, elements of microprocessors & their important applications.  
indicating Indicators. DC and AC Bridges, Electronic measuring instruments. Multi-meter, digital voltmeter, frequency counter, Q-meter, oscilloscope, techniques, special applications, DC and AC Measurements, Waveform generators, Multi-vibrators; Boolean algebra. Logic Gates Combinational and sequential digital circuits.  
Semiconductor memories. A/D & D/A converters; Microprocessor: Number system and codes, elements of microprocessors & their important applications.

SECTION-C (Light Current)

28. English Literature

Paper-I

Answers must be written in English.

Candidates will be required to show adequate knowledge of the following topics and movements:

The Renaissance: Elizabethan and Jacobean Drama; Metaphysical Poetry, The Epic and the Mock-epic; Neo-classicism, Satire; The Romantic Movement; The Rise of the Novel, The Victorian Age.

Texts for detailed study are listed below:

3. John Milton: Paradise Lost, Book I
4. John Dryden: All for Love
5. Alexander Pope: The Rape of the Lock
6. William Wordsworth: The following poems: "Tintern Abbey," "Three Years She Grew," "Michael" and "Milton, Thou Shouldest be Living at This Hour".
7. P.B. Shelley: "To a Skylark" and "Ode to the West Wind"
8. Alfred Tennyson; "Ulysses" and "Lotus Eaters"
9. Robert Browning: "My Last Duchess" and "The Lost Leader"
10. Francis Bacon: "Of Studies" and "Of Truth"
11. Charles Lamb: "Dream Children" and "Poor Relations"

Text for non-detailed study are listed below:

3. Thomas Hardy: Far from the Madding Crowd.

English Literature

Paper-II

Answers must be written in English.

Candidates will be required to show adequate knowledge of the following topics and movements:

Pre-Raphaelite Movement, Modernism; Poets of the Thirties; The stream-of-consciousness Novel; Absurd Drama; Colonialism and Post-Colonialism; Indian Writing in English; Feminist approaches to Literature.

Texts for detailed study are listed below:

2. T.S. Eliot. The following poems: "The Love Song of J. Alfred Prufrock" and "Journey of the Magi"
3. W.H. Auden. The following poems: "The Unknown Citizen" and "In Memory of W.B. Yeats".
4. Philip Larkin. The following poems: "Afternoon" and "Deceptions"
5. Sylvia Plath. The following poems: "Mirror" and "Daughter"
6. Derek Walcott. The following poems: "Opening Poems" and "Sea and Space"
7. Nissim Ezekiel. The following poems: "Background, Casually", "Night of the Scorpion"
8. A.K. Ramanujan. The following poems: "Looking for a Cousin on a Swing", "On The Death of a Poem".
11. Girish Karnad: Hayesvadna
12. Thomas Carlyle: "Hero as a Poet"
13. John Ruskin: "The Veins of Wealth" (Essay II from Unto This Last)

Texts for non-detailed study are listed below:

1. Graham Greene: The Power and the Glory
2. William Golding: Lord of the Flies
4. Nathaniel Hawthorne: The Scarlet Letter

26. URDU LITERATURE PAPER - FIRST:

PART-A

(1) Development of Urdu language, (a) Western Hindi and its dialects mainly khari Boli, Braj Bhasha and Haryanvi. (b) Persio-Arabic elements in Urdu. (c) Urdu Language connected with the Paradise Poems and comparison of the theories of the origin of Urdu language. (2) a) Development of Urdu Literature in Deccan (b) Two classical Schools of Urdu Poetry Dehli & Lucknow. (c) Development of Urdu prose upto Ghulam (3) Aligarh movement. Progressive movement and their impact on Urdu Literature. (b) Urdu Literature after independence.

PART-B

URDU LITERATURE PAPER-SECOND

This paper will require first-hand reading of the texts prescribed and will be designed to test the candidates critical ability.

PART-A (PROSE)

PART-B (POETRY)

27. ARABIC: PAPER-I

1. (a) Origin and development of the language in outline. (b) Significant features of the grammar of the language and Rhetorical topics.

- Afsa-e-naqseah
- Huroof-e-jaar wa maroor
- Iznaf
- Sifat wa masuuf
- Mubatta wa khabar
- Matfai-e-khamsah
- Isteerah, Tashbih, Kimsayah, Tazad
- Husr-e-Taleeq
- Bahar-e-Ramal
- Bahar-e-Maazaj
- Bahar-e-Mulaqib

2. Literary History and Literary Criticism: Literary movement. Socio-cultural influence (Classical Background) and modern genres. Origin & Development of modern literary genres including novel, short story, drama & essay.

ARABIC: PAPER-II

This paper will require first-hand reading of the text prescribed and will be designed to test the candidate critical ability.

PART-A (POETS)

1. Imraul Quais : His Mujlaqah (Complete)
2. Zuhair bin Abi Sulma : His Mujlaqah (Complete)
3. Amin bin Umais Alinbaby nama (Complete)
4. Al-Khanasa: The following two elegies from her Diwan
5. Ta'azzara Bilal-baj (Complete)
6. Uzakluunn (Complete)
7. Habib Haibh: The following Qasidas from his Diwan: Qasida No: 1, 11, 14

8. Umar bin Abi Rabiyah: The following four Ghazals from his Diwan:
9. Ibn jiama Tawaqafana (Complete)
10. Ibnaa Hayaa (Complete)
11. A-Mal-Abd: The following four Qasidas from his Diwan (Al-shawqatat):
12. Yarudaya-Abaha-hasana (Complete)
13. Al-waaz wa al Zuhdi (Complete)
14. Al-Faqura: The following four Qasidas from his Diwan (Al-faqurat):
15. Al-Hamash al-Nabawiyyah (Vol. I) (Complete)

SECTION-B: AUTHORS

1. Ibn ul Maqaafa: "Kilwa ka Diwan" (Complete) (excluding Muddamadah)
2. Al-Asad Wa Ali Taalii (Complete)
Agricultural Engineering

Paper-I

Section A

2. Aerial Photography and Remote Sensing: Basic characteristics of photographic imagery. Interpretation keys, equipment for interpretation, imagery interpretation for land evaluation, geological soil and vegetation mapping. Remote sensing—merits and demerits of conventional and remote sensing approaches. Types of satellite images, fundamentals of satellite imaging techniques, techniques of visual and digital interpretations for soil, land and water management use. Use of GIS in planning and development of watersheds, forests including forest cover, water resources etc.

Section B

Agricultural engineering

Paper-II

Section A

4. Instrumentation and computer applications in Agricultural Engineering: Electronic devices and other characteristics rectifiers, amplifiers, oscillators, multiplexers, microcomputers, microprocessors, and microcontroller systems. Application of microprocessors in data acquisition and control of agricultural engineering processes - measurement systems for level, flow, strain, force, torque, power, pressure, vacuum and temperature. Computer instrumentation, input/output devices, central processing unit, memory devices, etc.\n
5. Bioinformatics: Key aspects of biological information technology, including data management, data mining, and data visualization. Use of bioinformatics in biological research and applications.

4.1. Microbiology and Plant Pathology: Viruses, fungal diseases, microbial diseases, and plant pathogen systems. Interaction of pathogens and plants.\n
4.2. Cryptogams: Cryptograms, algae, fungi, bacteria, and Archaea. Interaction of these microorganisms with plants and other organisms.\n
4.3. Phanerogams: Angiosperms and gymnosperms. Physical and chemical characteristics of angiosperms and gymnosperms.\n
4.4. Vegetation: Vegetation types, community structure, and diversity.\n
4.5. Morphogenesis: Cell differentiation, cell movement, and cell death. \n
5. Plant Breeding and Plant Biotechnology: Crop improvement through traditional and modern techniques. Genetic engineering and molecular breeding. \n
6. Chemicals and Bioinformatics: Chemical compounds and their biological activities. Bioinformatics tools and techniques in chemical research. \n
7. Chemical Kinetics: Reaction rates, activation energy, and Arrhenius equation. Kinetic studies and their applications in chemical engineering.
and gas-solid and gas-liquid reactions. Interionic kinetics and global rate control
important of interphase and intraparticle mass transfer on performance.
Effective-necessary: isothermal and non-isothermal reactors and reactor stability.

SECTION-8

(d) Chemical Technology
Natural organic products-Wood and wood-based chemicals, pulp and paper, Agro-
products, biotech & biofuels, Biochemicals (e.g., enzymes, detergents, Essential oils- Biomass gasification (including biogas), Coal and coal chemical, Petroleum and Natural gas- Petroleum refining (Atmospheric and Vacuum Refining) Petrochemical industries- Polyethylene’s (LDPE/HDPE/LLDPE), Polypropylene, Polystyrene, Polyamide and other
and lime industries, Paints and varnishes. Glass and ceramics-Formation and alcohol.

E) Environmental Engineering and Safety Ecology and Environment, Sources of pollutants in air and water, Green house effect, ozone layer degradation, acid rain,

(f) Process Engineering Economics

CIVIL ENGINEERING PAPER-1

Part-A

ENGINEERING MECHANICS, STRENGTH OF MATERIALS AND STRUCTURAL ANALYSIS

SECTION-1

Units and Dimensions, SI Units, Vectors, Concept of Force, Concept of particle and rigid body. Concurrent, Non-Concurrent- and parallel forces in a plane, moment of force and Vector's theorem, free body diagram, conditions of equilibrium Principle of virtual work.

STRENGTH OF MATERIALS:
Basic Stress and strain concepts, Axially loaded compression members, Shear force and bending moment, theory of simple bending, Shear Stress distribution across cross sections, Beans of uniform strength, Leaf Spring, Strain Energy in direct stress, direct and indirect stresses, Repeated Loading, Direct and Indirect stresses.

Concrete and Reinforced Concrete, Conjugate beam method, unit load method, Torsion of Shafts, Transmission of power, close coked helical springs, Elastic stability of columns, Euler's Rankin's and Sear's formules. Principal Strains and Strains in two dimensions, Mohr's Circle, Theories of Elasticity, Elasticity of Thin and Thick cylinder, Stresses due to internal and external pressures- Lame's equations.

STRUCTURAL ANALYSIS:
Castigliano's theorems I and II. Unit load method of consistent deformation applied to beams and pin jointed trusses. Slope-deflection, moment distribution, Kan's method of analysis and column Analytical method applied to indeterminate beams and rigid frames. Rolling loads and influences lines. Influences lines for Force Bending and Moment at a point of bearing. Influence of shear force and bending Moment in beam traversed by a system of moving loads. Influences lines for simply supported plane jointed trusses.

PART-B

DESIGN OF STRUCTURES: STEEL, CONCRETE AND MASONRY STRUCTURES.

STRUCTURAL STEEL DESIGN:

DESIGN OF CONCRETE AND MASONRY STRUCTURES:
Concept of mix design, Reinforces Concrete: Working Stress and Limit State method of design-recommendations of I.S. codes, design of one way and two way slabs, stair-case slabs, simple and continuous beams of rectangular, T and L sections, Compression members, shear, and flexural design rules with stirrups, plain and reinforced concrete and combined footings, Cantilever and counterfort type retaining walls, Water tanks: Design requirements for rectangular and circular tanks resting on ground. Prestressed concrete: methods and systems of prestressing, stress-strain graphs, analysis and design of sections for flexure and working stress loss of prestress, Disign of brick masonry as per I.S. Codes Design of masonry retaining walls.

PART-C

FLUID MECHANICS, OPEN CHANNEL FLOW AND HYDRAULIC MACHINES

Fluid Mechanics: Fluid properties and their role in fluid motion, fluid statics including forces acting on plane and curve surfaces, Kinematics and Dynamics of Fluid flow: Velocity and accelerations, stream lines, equation of continuity, irrotational and rotational flow, conservation of mass and momentum, potential and irrotational flow field, methods of drawing flownet, sources and sinks, flow separation, free and forced vortices. Control volume equation, continuity, momentum, energy and momentum Source free equation from control volume, Navier-Stokes equation, Euler's equation of motion, application to fluid flow problems, pipe flow, pipe, curved, stationary and moving planes, sluice gates, weirs, orifice meters and Venturi meters

Dimensional Analysis and Similitude. Buckingham's Pi theorem, dimensionless...
2. Forest Management and Management Systems

Objective and principles: the concept of a system of standing and dynamics, sustainably, and revenue from the loss. The management principles and methods, the management of resources, the management of the environment, forest conservation, and the management of biodiversity. The protection of forests, management of state forests, management of private forests, and the management of community forests.

3. Forest Surveying and Forest Engineering

Forest Surveying: The process of determining the boundaries and the extent of forest areas, the identification of forest types, the measurement of forest areas, and the estimation of forest resources. Forest Engineering: The process of planning, designing, and implementing forest management activities, including the selection of the appropriate forest management practices, the design of forest management systems, and the implementation of forest management activities.

4. Forest Resources and Utilization

Forest Resources: The biological and environmental resources that are available for use in a forested area. Forest Utilization: The process of using forest resources for human needs, such as timber, fuelwood, and non-timber forest products. The management of forest resources, the management of forest ecosystems, the management of forest communities, and the management of forest landscapes.

5. Forest Fire and Wildlife Protection

Forest Fire: The process of controlling and managing forest fires to protect human life, property, and the environment. Wildlife Protection: The process of protecting and conserving wildlife, including the management of wildlife populations, the protection of wildlife habitat, and the management of wildlife conflicts.

6. Forest Policy and Administration

Forest Policy: The process of developing and implementing policies to manage and conserve forest resources. Forest Administration: The process of managing and administering forest resources, including the planning and implementation of forest management activities, the monitoring and evaluation of forest management activities, and the enforcement of forest management laws and regulations.
(iv) Economic Geology

(v) Mining Geology: Metallurgical and geotechnical
- Exploration-Geological, geophysical, geochemical and geo-botanical

(vi) Geochemistry and Environmental Geology:
Cosmic abundance of elements, Composition of the planets and meteorites. Structure and composition of earth and distribution of elements. Trace elements, Elements of crystal chemistry, and applications of crystallography, coordination number, Isomorphism and polymorphism, Elementary thermodynamics.

Natural hazards-floods, landslides, coastal erosion, earthquakes and volcanic activity and mitigation. Environmental impact of urbanization, open cast mining, industrial and radioactive waste disposal, use of nutrients and discharge of mine wastes and fly-ash. Pollution of ground and surface water, marine pollution, environment protection legislative measures in India.

MATHMATICS
PAPER-I

Section-A

Linear Algebra
- Vector space, linear dependence and independence, subspaces, bases, dimensions.
- Finite dimensional vector spaces.
- Matrices, Cayley-Hamilton theorem, eigen-values and eigenvectors, matrix of linear transformation, row and column reduction. Echelon form, equivalences, congruences and similarity, reduction to canonical form, rank, orthgonal, symmetric, skew-symmetric, Hermitian, skew-Hermitian forms - their eigenvalues. Orthogonal and unitary reduction of quadratic and hermitian forms, positive definite quadratic forms.
- Calculus
- Real numbers, limits, continuity, differentiability, mean-value theorems, Taylor's theorem with remainders, indeterminate forms, maxima and minima, asymptotes. Functions of several variables: continuity, differentiability, partial derivatives, maxima and minima. Lagrange's method of undetermined multipliers. Jacobian, Riemann contour of continuous functions, Riemann integral, the indefinite integrals, improper and infinite integrals, beta and gamma functions. Double and triple integrals (evaluation techniques only).
- Areas, surface and volumes, centre of gravity.
- Analytical Solid Geometry
- Cartesian and polar coordinates in two and three dimensions, second degree equations in two and three dimensions. Reduction to canonical forms, straight lines, shortest distance between two skew lines, plane, sphere, cone, cylinder, paraboloid, ellipsoid, hyperboloid of one and two sheets and their properties.

Section-B

Ordinary Differential Equations
- Formulation of differential equations, order and degree, equations of first order and first degree, integrating factor, equations of first order but not of first degree, Clairaut's equation, singular solution. Higher order linear equations with constant coefficients, complementary function and particular integral, general solution, Euler-Cauchy equation.
- Second order differential equations with variable coefficients, determination of complete solution when one solution is known, method of variation of parameters.

Dynamics, Statics and Hydrostatics
- Degree of freedom and constraints, rectilinear motion, simple harmonic motion, motion in a plane, centripetal motion, central forces.
- Energy functions, work and potential energy, friction, common catenary, principle of virtual work, stability of equilibrium, equilibrium of forces in three dimensions.
- Pressure of heavy fluids, equilibrium of fluids under given system of forces, Bernoulli's equation, centre of pressure, thrust on curved surfaces, equilibrium of floating bodies, stability of floating system, meta-centre, pressure of gases.

Vector Analysis
- Scalar and vector fields, triple products, differentiation of vector function of a scalar variable, gradient, divergence and curl in Cartesian, cylindrical and spherical coordinates and their physical interpretations. Higher order derivatives, vector identities and vector equations. Applications to Geometry; Curves in space curvature and torsion. Serret-Frenet's formulae, Gauss and Stokes' theorems, Green's identities.

MATHMATICS
PAPER-II

WWWJOBRIYA.COM

Algebra
- Groups, sub-groups, normal subgroups, homomorphism of groups, quotient group, basic isomorphism theorems, Sylvow's group, permutation groups, Cayley theorem, rings and ideals, principal ideal domains, unique factorization domains and Euclidean domains.
- Field extensions, finite fields.

Real Analysis
- Real number system, ordered sets, bounds, ordered field, real number system as an ordered field with least upper bound property, Cauchy sequence, completeness, Cauchy's theorem on contraction continuous function, compact sets. Riemann integral, improper integrals, absolute and conditional convergence of series of real and complex terms, rearrangement of series. Uniform convergence, continuity, differentiability and integrability for sequences and series of functions. Convergence of power series, change in the order of partial derivatives, implicit function theorem, maxima and minima. Multiple integrals.

Complex Analysis

Linear Programming
- Linear programming problems, basic solution, basic feasible solution and optimal solution, graphical method and Simplex method of solutions, Duality. Transportation and assignment problems, Traveling salesman problems.

Partial differential equations
- Storage of numbers in computers, bits, bytes and words, binary system, arithmetic and logical operations on numbers, Bithwise operations. AND, OR, XOR, NOT, and shift operators.

Algorithms and flow charts for solving numerical analysis problems.

Developing simple programs in Basic for problems involving techniques covered in the numerical analysis.

Mechanics and Fluid Dynamics:
- Generalised coordinates, constraints, holonomic and non-holonomic systems, D' Alembert's principle and Lagrange's equations, Hamilton equations, motion of rigid bodies in two dimensions. Equations of motion, Euler's equation for motion in inviscid fluid, stream-lines, path of a particle, potential flow, two-dimensional and axially symmetrical motion, sources and sinks, flow past a cylinder and a sphere, method of images, Navier-Stokes equation for a viscous fluid.

MECHANICAL ENGINEERING

PAPER-I

1. Theory of Machines

2. Mechanical of Solid Bodies
- Stress and strain in two dimensions. Principal stresses and strains, Mohr's construction, linear elastic materials, isotropy and anisotropy, Stress-strain relations, uniaxial loading, thermal stresses, Beams: Bending moment and shear force diagrams, bending stresses and deflections of beams. Torsion of shafts, helical springs, Combined stresses, Thin and thick walled pressure vessels. Struts and columns. Stability of frames and structures.

3. Manufacturing Science

4. Manufacturing Science

5. MANUFACTURING PROCESS

6. ELEMENTS OF COMPUTATION

MECHANICAL ENGINEERING

PAPER-II

1. THERMODYNAMICS:
- Basic concept, Open and closed systems, Applications of Thermo-dynamic Laws, Gas equations, Clapeyron equation, Availability, Irreversibility and T ds relations.

2. I.C. Engines:

3. HEAT TRANSFER AIR CONDITIONING:

4. TURBO-MACHINES AND POWER PLANTS:
- Continuity, Momentum and Energy Equations. Adiabatic and isentropic flow, fan lines, Refrigeration lines, Theory and design of axial flow turbines and compressors, Flow through
1. Classical Mechanics (a) Particle dynamics
   Central mass of mass and laboratory coordinate conservation of linear and angular momentum, The rocket equation, Rutherford scattering, Galilean transformation, inertial and non-inertial frames, rotating frames, centrifugal and Coriolis forces, Foucault pendulum.
   (b) System of particles
   Constraints, degrees of freedom, simplified momenta, Lagrange's equation and applications to linear harmonic oscillator, simple pendulum and central force problems, Calculus of variations, Hamiltonian Lagrange's equation from Hamilton's principle.
   (c) Rigid body dynamics
   Eulerian angles, inertia tensor, principal moments of inertia, Euler's equation of motion of a rigid body, force-free motion of a rigid body, Gyroscope.

2. Special Relativity, Waves & Geometrical Optics
   (a) Special Relativity
   Michelson–Morey experiment and its implications, Lorentz transformations-locus construction of relative motion, Addition of velocities, Galilean transformation, time dilation effect, mass-energy relationship, simple application to a decay process Minkowski diagram, four-dimensional vectorial momentum.
   Covariance of equations of physics.
   (b) Waves
   Simple harmonic motion, damped forced oscillation and resistance, Beats, Stationary waves in a string, Pulses and wave packets, Phase and group velocities, Reflection and Refraction from Huygen's principle.
   (c) Geometrical Optics
   Laws of reflection and refraction from Fermat's principle, Matrix method in paraxial optical-thin lenses formula, nodal planes, system of two thin lenses, chromatic and spherical aberrations.

3. Physical Optics
   (a) Interference
   Interference of light-Young's experiment, Newton's rings, interference by thin films, Michelson Interferometer. Multiple beam interference and Fabry-Perol interferometer.
   Holography and simple applications.
   (b) Diffraction
   Fraunhofer diffraction-sing slit, double slit, diffraction grating, resolving power. Fresnel diffraction for lenses and apertures, Fraunhofer integrals, Application of Complex Variable to the analysis of diffraction at a straight edge and by a long narrow slit. Diffraction by a circular aperture and the Airy pattern.
   (c) Polarisation and Modern Optics

4. Electricity and Magnetism
   (a) Electrostatics and Magnetostatics
   (b) Current and Magnetism

5. ElectromagnetTheory & Black Body Radiation
   (a) Electromagnetic Theory
   (b) Blackbody Radiation
   Blackbody radiation and Planck radiation law-Stefan-Boltzmann law, Wien displacement law and Rayleigh-Jeans law, Planck mass, Planck length, Planck time, Planck temperature and Planck energy.

6. Thermal and Statistical Physics
   (a) Thermodynamics
   (b) Statistical Physics
   Saha ionization formula, Bose-Einstein condensation, Thermodynamic behaviour of an ideal gas, Individual states and excitations, excitation density of states, partition function, Boltzmann equation, Brownian motion as a random walk, diffusion process, Concept of negative temperatures.

7. Quantum Mechanics
   (a) Quantum Mechanics
   Solution of one-dimensional Schrödinger equation for particle in a box, particle in a finite well, linear, harmonic oscillator, Reflection and transmission by a potential step and by a rectangular barrier, use of WKB formula for the lifetime calculation in the alpha-decay problem.
   2. Quantum Mechanics II & Atomic Physics
   (a) Quantum Mechanics
   (b) Atomic Physics
   Stark and Zeeman effect, electron spin, fine structure of hydrogen, Hydrogen, J, J', coupling, Spectroscopic notation of atomic states, Zeeman effect, Frank-Condon principle and applications.

8. Nuclear Physics
   (a) Nuclear Physics
   Basic nuclear properties, binding energy, angular momentum, parity, magnetic moment, Semi-empirical mass formula and applications, Mass parabolas, Ground state of deuterium magnetic moment and non-central forces, Meson theory of nuclear forces, Salient features of nuclear forces, Shell model of the nucleus-successful, Violation of parity in beta decay, Gamma decay and internal conversion, Elementary ideas about Mossbauer spectroscopy, Q-value of nuclear reactions, Nuclear fission and fusion, energy production in stars, Nuclear reactors.
   (b) Particle Physics
   Solid State Physics
   (a) Particle Physics
   Classification of elementary particles and their interactions, Conservation laws, Quark structure of hadrons, Field quanta of electro-wake and strong Interactions, Elementary ideas about Unification of Forces, Physics of neutrinos.
   (b) Solid State Physics
   Cubic crystal structure, Band theory of solids-conductors, insulators and semiconductors, Free electron model, band structure of some insulators and semiconductors, Band structure and functions and applications, Elementary ideas about high temperature superconductivity.

9. Electronics
   Intrinsic and extrinsic semiconductors-p-n and n-p-n transistors. Amplifiers and oscillators, Q-camps, FET, JFET and MOSFET, Digital electronics-Boolean Identities, De-Morgan's laws, Logic gates and truth tables, Simple logic circuits, Thermostats, solar cells, Fundamentals of microprocessors and digital computers.

---

**Appendix**

**Probability**
Sample space and events, probability measure and probability space, random variable as a function, Probability of a random variable, discrete and continuous-type random variable, probability mass function, probability density function, vector-valued random variable, marginal and conditional distributions, stochastic independence of random variables, Random vectors, Multivariate normal distribution, conditional expectation, convergence of a sequence of random variable in distribution, in probability, in p-th mean and almost everywhere, their criteria and inter-relations, Borel-Cantelli lemma, Chebyshev's and Khinchine's weak laws of large numbers, strong law of large numbers and Central Limit Theorem, Kolmogorov-Cantelli theorem, probability generating function, characteristic function, inversion theorem, Laplace transform, related uniqueness and continuity theorems, determination of distribution by its moments. Linderberg and Levy forms of central limit theorem, standard discrete and continuous distributions, their Inter-relations and limiting cases, simple properties of finite Markov chains.

**Statistical Inference**

Non-randomised and randomised tests, critical function, MP tests, Neyman-Pearson theorem, UMP tests, monotone likelihood ratio, UMP test for Neyman-Pearson lemma, similar and unbiased tests, UMPO tests for single and several-parameter families of distributions, likelihood ratio and its large sample properties, chi-square goodness of fit test and its asymptotic distribution.

**Sampling Theory**
Sampling with and without replacement, with and without stratification, random sampling, systematic sampling and its efficacy for structural populations, cluster sampling, simple random sampling' two-stage and multi-stage sampling ratio and regression, methods of estimation involving one or more auxiliary Variables, two-stage sampling, proportion proportional to size sampling with and without replacement, the Hansen-Hurwitz and the Horvitz-Thompson estimator. Non-negative variance estimation with reference to the Horvitz-Welch.

V. Instrumental methods

VI. Genetics

VII. Biochemistry

II. Physiology (with special reference to mammals)

III. Developmental Biology
Page-I

Section-A

Livestock industry - its scope and potential.

WWW.JOBRiya.COM

Section-B

Animal diseases:
- Immunity and vaccination: Principles and method of immunization of animals against specific diseases.
- Herd immunity, disease free zone, zero disease concept.
- Extention-Principles of extention, different methods adopted to educate the farmers under rural conditions.
- Generation of technology- Its transfer and feed back. Problems and constraints in transfer of technology Animal husbandry programmes for rural development.

Animal Husbandry and Vet. Science

Paper-II

Section-A

B- Animal Physiology
- Physiological mechanisms and livestock production, Growth rate & animals production, Nervous and hormonal controlling mechanism, Physiology of Reproduction. Lactation and egg laying. Physiology of digestive system of various classes of animals including wild animals, Semen evaluation, preservation & artificial insemination in various classes of animals.

Section-B

A- Livestock production & Management:
- General care and management of livestock - Cattle, buffalo, Goats, Sheep, Pigs and Poultry. General care and management of wild animals. Feeding and management of livestock and wild animals under drought, Flood and other natural disaster. Classification, breeding and marketing of livestock and their products.
- Milk and milk products-
  - Milk-Collection, transportation of raw milk, quality testing and grading of raw milk, milk pasteurization, standardization, & Homogenization, Reconstituted and recombined milk.
  - Milk Product technology- Production, Processing, Storage, distribution and marketing of milk products such as butter, Cheese, Khoa, Chhena, Cheese, condensed and dried milk, ice-cream, yoghurt, Dahi and Shrikhand and their testing and grading, BIS specification, legal standards, quality control and nutritive properties of various milk products.
- Milk by product technology - whey products, butter milk, Lactose, and casein.

Horticulture "Fruit and Plantation Crops"
Ministry of Culture
National Museum, New Delhi

Sub: Filling up the post of Curator (Archaeology), Group ‘A’, Gazetted, Non Ministerial in Pay Matrix Level No. 11 (Rs. 67700-20870/0) on deputation (including short-term contract) plus promotion in the National Museum, New Delhi.

Applications are invited from the officers of the Central Government or State Governments or Union Territories or Universities or Recognized Research Institutions or Public Sector Undertakings or Semi Govt. or Statutory or autonomous organizations for appointment for one post of Curator (Archaeology) in Pay Matrix Level No. 11 (Rs. 67700-208700) by Composite Method [Deputation (including short-term contract) plus promotion] in the National Museum, New Delhi a subordinate office under the Ministry of Culture, Govt. of India.

2. Job Description
To conduct the specialized work of scholarly study, cataloging, research, to contribute to publication, custody/custodian of antiquities collection, safeguarding, exhibitions and interpreting for education and culture and the material in the field of Archaeology.

3. Eligibility
Officers of the Central Government or State Governments or Union Territories or Universities or Recognized Research Institutions or Public Sector Undertakings or Semi Govt. or Statutory or autonomous organizations.

(a) (i) holding analogous post on regular basis in the parent cadre or Department OR
(b) With five years' experience in the grade rendered after appointment thereto on regular basis in posts in the Pay Band of Rs. 15600-39100 + 5400/- Grade Pay (pre-revised pay scale of Rs. 8000-13500/-) or equivalent in the parent cadre or Department; and possessing the following educational qualifications and experience:

- Essential
A. (i) Master's Degree of a recognized University or equivalent in History or Sanskrit or Pali or Prakrit or Persian or Arabic or Anthropology or Fine Arts or History of Art; and
(ii) Diploma in Museology of a recognized university or institution or equivalent.

- Optional
B. (i) Master's Degree of a recognized University or equivalent in Museology with History as a subject at Bachelor's Degree level.
(ii) Five years' experience in a museum of National or Regional importance under the control of Central Govt. or State Govts. or Union Territories including one year's practical experience in collection, conservation/preservation and exhibition of art objects. OR

C. (i) M. Phil Degree from a recognized University or equivalent in History or Sanskrit or Pali or Prakrit or Persian or Arabic or Anthropology or Fine Arts or History of Art; OR
M. Phil Degree from a recognized university or equivalent in Museology with History as subject at Bachelor's Degree level.
(i) Three years' experience in a museum of National or Regional importance under the control of Central Govt. or State Govt. or Union Territories including one year's practical experience in collection, conservation/preservation and exhibition of art objects.

Desirable
Ph. D. Degree from a recognized university or equivalent in any one of the subjects mentioned in essential qualification.

(2) The departmental Deputy Curator (Archaeology) and Deputy Curator (Pre Historic Archaeology) in the Pay Band of Rs. 15600-39100 + 5400/- Grade Pay (pre-revised pay scale of Rs. 8000-13500/-) with five year's regular service in the grade shall also be considered with outsiders and in case he/she is selected for appointment to the post the same shall be deemed to have been filled by promotion.

Note 1: The departmental officers in the feeder category who are in the direct line of promotion shall not be eligible for consideration for appointment on deputation. Similarly, deputationist shall not be eligible for consideration for appointment by promotion.

Note 2: Period of deputation (including short-term contract) including the period of deputation (including short-term contract) in another ex-cadre post held immediately preceding this appointment in the same or any other organization/department of the Central Govt. shall ordinarily not exceed three years.

Note 3: The maximum age limit for appointment by deputation (including short-term contract) shall be not exceeding 56 years as on the closing date of receipt of applications.

4. The application in duplicate in the prescribed proforma placed below in Annexure - II and complete up to date aCRA/ APARs dossier of the officer (last five years) which can be spared in the event of their selection alongwith vigilance clearance, Integrity certificate, cadre clearance, major/minor penalty statement for the last ten years should be duly certified within proper channel under the undersigned within a period of 60 days from the date of publication of the advertisement in the Employment News. Application received after due date or otherwise incomplete will not be considered and stand rejected. The applications/CV not accompanied by supporting certificates/documents in support of Qualification and Experience claimed by the candidates would not be processed for determining the eligibility of the candidates for the selection.

5. The details regarding eligibility conditions, educational qualifications and experience, applications form etc are also available in the website of the National Museum at www.nationalmuseumindia.gov.in.

(ANNEXURE- II)

SL No. Essential Desirable

1. Name of the applicant (in block letters) ____________________________
2. Date of Birth (In Christian era) ____________________________
3. Postal Address (With telephone no. & email address) ____________________________
4. Educational Qualification ____________________________

5. Whether belong to SC/ ST ____________________________
6. Present post & Scale of pay (including last drawn) ____________________________
7. Details of Employment in chronological order. ____________________________
8. Enclose a separate sheet duly authenticated by your signature, if the space below is insufficient. ____________________________
9. In case of present employment is held on deputation please state;
   a) The date of initial appointment ____________________________
   b) Period of appointment on deputation/contract ____________________________
   c) Name of the parent office/organization to which you belong ____________________________
10. Additional details about present employment please state whether working under
   a) Central Govt. ____________________________
   b) State Govt. ____________________________
   c) Autonomous Organization ____________________________
   d) Government undertakings ____________________________
   e) Universities ____________________________
11. Are you in revised scale of pay? If yes, give the date from which reservation took place and also indicate the pre-revised scale ____________________________
12. Additional Information, if any, which you would like to mention in support of your suitability for the post. Enclose a separate sheet, if the space is insufficient. ____________________________

Applications invited for the following posts under ICAR-BIRD5 Krishi Vigyan Kendra at Belagavi-1 Gokak-Taluk, Belagavi-District, Karnataka-State

SL No. Name of Post No. of Vacancies Pay Scale
1. Sr. Scientist & Head 01 Rs. 37400-67000 + RGP Rs. 9000/-
2. Subject Matter Specialist/ T6 (Animal Science) 01 Rs. 15600-39100 + GP Rs. 5400/-
3. Subject Matter Specialist/ T6 (Horticulture) 01 Rs. 15600-39100 + GP Rs. 5400/-

Application should be sent with duly attested copies of all relevant documents as indicated in the detailed advertisement, within 30 days of publication of this advertisement in Employment News. For more details please logon to our website (www.kvkbirds.org)
## Recruitment Advertisement for Teaching Posts in various schools in IMU under Direct Recruitment

Applications are invited from eligible & interested candidates for the following Teaching posts in Indian Maritime University (IMU):

### Post Sl.No. 1. Associate Professor (Marine Engineering) – Maximum Age Limit – 60 years

**Educational and other qualifications required for Direct Recruitment:**

**Category 1: Mariners without Ph.D**

**Essential:**
- a) Directorate General (Shipping) recognized MEO Class I (Motor) Certificate of Competency;
- b) Sailing experience for a minimum period of two years at Management level within the meaning of STCW Convention in force;
- c) A minimum of six years of experience in Maritime industry in one or more of the following areas:
  - Sailing experience at Management level beyond the prescribed minimum of two years indicated in (b) above. For the purpose of calculation of total work experience (for clause c), the sailing experience at Management level beyond the prescribed minimum of two years indicated in (b) shall be multiplied by a factor of two.
- ii) Teaching Marine Engineering in a Directorate General (Shipping) recognised maritime institution/university.
- iii) Engineering Surveyor in Directorate General of Shipping or in any recognized Classification Society or equivalent.
- iv) Technical Superintendent in any reputed Ship-owning or Ship-managing Company or equivalent.

**Desirable:**
- a) Research publications such as books/research papers/policy papers as per the UGC norms.
- b) Experience of guiding Ph.D scholars.

**Category 2: Mariners with Ph.D**

**Essential:**
- a) Directorate General (Shipping) recognized MEO Class I (Motor) Certificate of Competency;
- b) Sailing experience for a minimum period of two years at Management level within the meaning of STCW Convention in force;
- c) A Ph.D. Degree in relevant discipline.
- d) A minimum of two years of experience in Maritime industry in one or more of the following areas:
  - Sailing experience at Management level beyond the prescribed minimum of two years indicated in (c) above. For the purpose of calculation of total work experience (for clause d), the sailing experience at Management level beyond the prescribed minimum of two years indicated in (b) shall be multiplied by a factor of two.
- ii) Technical Superintendent in any reputed Ship-owning or Ship-managing company or equivalent.

**Desirable:**
- a) Research publications such as books/research papers/policy papers as per the UGC norms.
- b) Experience of guiding Ph.D scholars.

**Post Sl.No. 2. Associate Professor (Nautical Science) – Maximum Age Limit – 60 years**

**Educational and other qualifications required for Direct Recruitment:**

**Category 1: Mariners without Ph.D**

**Essential:**
- a) Directorate General (Shipping) recognised Master (Foreign Going) Certificate of Competency;
- b) Sailing experience for a minimum period of two years at Management level within the meaning of STCW Convention in force;
- c) A minimum of six years of experience in Maritime industry in one or more of the following areas:
  - Sailing experience at Management level beyond the prescribed minimum of two years indicated in (b) above. For the purpose of calculation of total work experience (for clause c), the sailing experience at Management level beyond the prescribed minimum of two years indicated in (b) shall be multiplied by a factor of two.
- ii) Teaching Nautical Science in a Directorate General (Shipping) recognised maritime institution.
- iii) Nautical Surveyor in Directorate General of Shipping or in any recognized Classification Society.
- iv) Technical Superintendent in any reputed Ship-owning or Ship-managing company
- v) Pilot in Major Port.

**Desirable:**
- a) Research publications such as books/research papers/policy papers as per the UGC norms.

  v. Pilot in Major Port.

**Desirable:**
- a) Research publications such as books/research papers/policy papers as per the UGC norms.
- b) Experience of guiding Ph.D scholars.

**Category 3: From Assistant Professors with Ph.D**

**Essential:**
- a) Good academic record with at least 55% marks or an equivalent grade at both UG and PG level or at Integrated PG level in a relevant discipline.
- b) A Ph.D. Degree in relevant discipline.
- c) A minimum of eight years of teaching/research/industry experience in a relevant area of which at least four years should be at the level of Assistant Professor in a University, College or Research Organisation.

**Desirable:**
- a) Research publications such as books/research papers/policy papers as per the UGC norms.
- b) Experience of guiding Ph.D scholars.

**Post SL.No. 3. Associate Professor (Naval Architecture) – Maximum Age limit – 60 years**

Educational and other qualifications required for Direct Recruitment:

**Essential:**
- a) Good academic record with at least 55% marks or an equivalent grade at both UG and PG level or at Integrated PG level in a relevant engineering discipline.
- b) Ph.D. Degree in a relevant discipline.
- c) A minimum of eight years of teaching/research/industry experience in a relevant area of which at least four years should be at the level of Assistant Professor in a University, College or Research Organisation.

**Desirable:**
- a) Research publications such as books/research papers/policy papers as per the UGC norms.
- b) Experience of guiding Ph.D scholars.

**Post SL.No. 4. Associate Professor (Dredging and Harbour Engineering) – Maximum Age limit – 60 years**

Educational and other qualifications required for Direct Recruitment:

**Essential:**
- a) Good academic record with at least 55% marks or an equivalent grade at both UG and PG level or at Integrated PG level in a relevant engineering discipline.
- b) Ph.D. Degree in a relevant discipline.
- c) A minimum of eight years of teaching/research/industry experience in a relevant area of which at least four years should be at the level of Assistant Professor in a University, College or Research Organisation.

**Desirable:**
- a) Research publications such as books/research papers/policy papers as per the UGC norms.
- b) Experience of guiding Ph.D scholars.

**Post SL.No. 5. Associate Professor (Electrical Engineering) – Maximum Age limit – 60 years**

Educational and other qualifications required for Direct Recruitment:

**Essential:**
- a) Good academic record with at least 55% marks or an equivalent grade at both UG and PG level or at Integrated PG level in a relevant engineering discipline.
- b) Ph.D. Degree in a relevant discipline.
- c) A minimum of eight years of teaching/research/industry experience in a relevant area of which at least four years should be at the level of Assistant Professor in a University, College or Research Organisation.

**Desirable:**
- a) Research publications such as books/research papers/policy papers as per the UGC norms.
- b) Experience of guiding Ph.D scholars.

**Post SL.No. 6. Associate Professor (Mechanical Engineering) – Maximum Age limit – 60 years**

**Essential:**
- a) Good academic record with at least 55% marks or an equivalent grade at both UG and PG level or at Integrated PG level in a relevant engineering discipline.
- b) Ph.D. Degree in a relevant discipline.
- c) A minimum of eight years of teaching/research/industry experience in a relevant area of which at least four years should be at the level of Assistant Professor in a University, College or Research Organisation.

**Desirable:**
- a) Research publications such as books/research papers/policy papers as per the UGC norms.
- b) Experience of guiding Ph.D scholars.

**Post SL.No. 7. Associate Professor (Logistics & Supply Chain Management/Port & Shipping Management) – Maximum Age limit – 60 years**

**Essential:**
- a) Good academic record with at least 55% marks or an equivalent grade at both UG and PG level or at Integrated PG level in a relevant discipline. (OR) Good academic record with at least 55% marks or an equivalent grade at UG level and professionally qualified Chartered Accountant / Cost and Management Accountant.
- b) Ph.D. Degree in relevant discipline.
- c) A minimum of eight years of teaching/research/industry experience in a relevant area of which at least four years should be at the level of Assistant Professor in a University, College or Research Organisation.

**Desirable:**
- a) Research publications such as books/research papers/policy papers as per the UGC norms.
- b) Experience of guiding Ph.D scholars.

Interested and eligible candidates may apply online through IMU website. For detailed instructions and other requisites candidates may refer IMU website www.imu.edu.in.

Note 1: Candidates should apply only through online mode by referring the relevant link in IMU’s Website www.imu.edu.in. Hard copies of applications or any other format will not be entertained.

Note 2: (i) Starting date of online application: 01st August 2018 at 11:00 Hours
(ii) Closing date of online application: 30th August 2018 at 23:59 Hours

Note 3: Selection for all posts by Personal Interview only.

Note 4: IMU reserves the right to increase/decrease any number of posts and either not to fill up any of the posts or cancel the recruitment fully or partially at any stage without any individual communication.

Note 5: For further updates, candidates may visit IMU website www.imu.edu.in frequently for intimation/notices issued from time to time. No interim correspondences by the individual will be entertained.

**Post Sl.No. 1. Assistant Professor (Marine Engineering) – Maximum Age limit – 50 years**

Educational and other qualifications required for Direct Recruitment:

**Category 1**

**Essential:**
- a. Directorate General (Shipping) recognized MEO Class I (Motor) Certificate of Competency;
- b. Sailing experience for a minimum period of six months at Management level within the meaning of STCW Convention in force;

**Desirable:**
- a. Ph.D in a relevant discipline.
- b. Research publications such as books/research papers/policy papers as per the UGC/IMU norms.
- c. Teaching experience in Directorate General (Shipping)/recognized training institutes.

**Category 2**

**Essential:**
- a. B.E/B.Tech degree in Marine Engineering with at least 55% marks or an equivalent grade and M.E/M.Tech in relevant discipline with at least 55% marks or an equivalent grade (OR) B.E/B.Tech degree with at least 55% marks or an equivalent grade along with PGDME/GME course approved by Directorate General (Shipping) with at least 55% marks or an equivalent grade and M.E/M.Tech in relevant discipline with at least 55% marks or an equivalent grade
- b. Sailing experience for a minimum period of six months at any level within the meaning of STCW Convention in force;

**Desirable:**
- a. Ph.D in a relevant discipline.
- b. Research publications such as books/research papers/policy papers as per the UGC norms.
- c. Teaching experience in Directorate General (Shipping) approved training institutes.

**Post Sl.No. 2. Assistant Professor (Nautical Science) – Maximum Age limit – 50 years**

Educational & other qualifications required for Direct Recruitment.

**Essential:**
- a. Directorate General (Shipping) recognized Master/Foreign Going Certificate of Competency;
- b. Sailing experience for a minimum period of six months at Management level within the meaning of STCW Convention in force;

**Desirable:**
- a. Ph.D in a relevant discipline.
- b. Research publications such as books/research papers/policy papers as per the UGC norms.
- c. Teaching experience in Directorate General (Shipping) approved training institutes.

**Post Sl.No. 3. Assistant Professor (Ocean Engineering) – Maximum Age limit – 50 years**

Educational and other qualifications required for Direct Recruitment:

**Essential:**
- a. Good academic record with at least 55% marks or an equivalent grade at both UG and PG level or at Integrated PG level in a relevant engineering discipline.

**Desirable:**
- a. Ph.D in a relevant discipline.
- b. Research publications such as books/research papers/policy papers as per the UGC norms

**Post Sl.No. 4. Assistant Professor (Mechanical Engineering) – Maximum Age limit – 50 years**

Educational and other qualifications required for Direct Recruitment:

**Essential:**
- a. Good academic record with at least 55% marks or an equivalent grade at both UG and PG level or at Integrated PG level in a relevant engineering discipline.

**Desirable:**
- a. Ph.D in a relevant discipline.
- b. Research publications such as books/research papers/policy papers as per the UGC norms
Technology Development Board invites application from eligible Indian citizens for the post of Secretary, TDB, who is the Chief Executive Officer of the Board and also ex-officio Member Secretary of the Board.

Applications are invited from Officers of the Central Government / State Government or Manager / Executive of Financial Institution / Commercial Bank / Private or Public Sector Company or Scientist/ Technologist of Central Government/State Government/ Autonomous bodies / Industry for filling of post of the Secretary of the Board.

The Level of Pay of this post is Level 15 or Level 14 of Pay Matrix under 7 CPC. The mode of recruitment is Deputation (including short term contract) failing which by absorption.

Applications completed in all respect should be sent to Under Secretary, Technology Development Board A-Wing, Ground Floor, Vishwakarma Bhawan, Shaheed Jeet Singh Marg, New Delhi-110016 by Registered Post or through Speed Post in a cover superscribed “APPLICATION FOR THE POST OF SECRETARY”.

Last date for receipt of applications: 24th Aug 18, 5.00 PM.

DST, Dopt or TDB website (www.dst.gov.in, http://persmin.gov.in/DOPT.asp or www.tdb.gov.in) may be referred for detailed Vacancy Notice along with essential qualification and desirable qualification, application format and other terms and conditions etc.

dby 361601/11/0001/1819

EN 17/5

ADVERTISEMENT NO. 1 /2018

Applications are invited from suitable candidates for the post of Registrar/Chief Administrative Officer at the Institute for Stem Cell Biology and Regenerative Medicine on direct recruitment/Deputation/Re-employment for a limited period.

Scale of Pay: PB-4 (37400-87000) and GP Rs. 7000 (Level-13).

For appointment with Lower pay in PB 3 (Level-12) depending upon Qualification and experience.

Age: Below 50 year in case of Direct Recruitment and 56 years for Deputation.

Qualification: Essential - Graduate/Post Graduate in any discipline or CA/CWA/CS/SAS;

Desirable: Degree in Law, Knowledge of computer and applications.

Category: Unreserved

Experience: 10 years in a reputed Academic/ R&D centres.

RESERVE BANK OF INDIA - RECRUITMENT - PANEL YEAR 2017 FOR THE POSTS OF (I). MANAGER (TECHNICAL - CIVIL) IN GRADE 'B' (II). ASSISTANT MANAGER (RAJBHASHA) IN GRADE 'A' - (III). ASSISTANT MANAGER (PROTOCOL AND SECURITY) IN GRADE 'A' (IV). LEGAL OFFICER IN GRADE 'B' AND PANEL YEAR 2018 FOR THE POST OF (V) ASSISTANT LIBRARIAN IN GRADE 'A'

1. Candidates to ensure their eligibility for the posts:
   i) Before applying, candidates should ensure that they fulfill the eligibility criteria for the advertised posts in the Reserve Bank of India (RBI/Bank). The Reserve Bank of India Services Board, hereinafter referred to as ‘Board’, would admit to the examination all the candidates applying for this post with the requisite fee/intimation charges (wherever applicable) on the basis of the information furnished in the ONLINE application and shall determine their eligibility only at the final stage i.e. interview stage. For Assistant Librarian in Gr. ‘A’ shortlisting of candidates will be done for Interview. If at that stage, it is found that any information furnished in the ONLINE application is false/incorrect or if according to the Board, the candidate does not satisfy the eligibility criteria for the post, his/her candidature will be cancelled and he/she will not be allowed to appear for interview.
   ii) A candidate must be either:-
   (a) A citizen of India or
   (b) A subject of Nepal, or
   (c) A subject of Bhutan, or
   (d) A Tibetan refugee who came over to India before 1st January, 1962 with the intention of permanently settling in India, or
   (e) A person of Indian origin who has migrated from Pakistan, Burma, Sri Lanka, East African countries of Kenya, Uganda, the United Republic of Tanzania, Zambia, Malawi, Zaire, Ethiopia and Vietnam with the intention of permanently settling in India.

Provided that a candidate belonging to categories (b), (c), (d) and (e) shall be a person in whose favour a certificate of eligibility has been issued by the Government of India.

A candidate in whose case a certificate of eligibility is necessary, may be admitted to the examination but the offer of appointment may be given only after the necessary eligibility certificate has been issued to him/her by the Government of India.

2. Mode of application:
   Candidates are required to apply only ONLINE through the Bank’s website www.rbi.org.in. No other mode for submission of application is available.

Instructions for filling up the "Online Application Form" are given in Appendix-I (Available in detailed advertisement on our web site www.rbi.org.in).

3. Important Dates:

7. NOTE: FOR EDUCATIONAL QUALIFICATIONS (For all the above posts):

(1) Some Universities/Institutes do not award Class or percentage of marks and allot Aggregate Grade Points (e.g. CGPA/OGPA/CPI, etc.). In case University/Institute defines criteria for conversion of Aggregate Grade Point into Class and/or percentage of marks, the same will be accepted. However, where the University/Institute does not define criteria for conversion of Aggregate Grade Point into Class and/or percentage of marks, or not stating class in the degree certificates, the undefined parameter(s) would be worked out as under:

<table>
<thead>
<tr>
<th>Equivalent CGPA/OGPA/CPI or similar terminologies allotted on a 10 point scale</th>
<th>Class / Division</th>
<th>Aggregate Percentage of Marks</th>
</tr>
</thead>
<tbody>
<tr>
<td>6.75</td>
<td>I (First)</td>
<td>60%</td>
</tr>
<tr>
<td>6.25</td>
<td>II (Second)</td>
<td>55%</td>
</tr>
<tr>
<td>5.75</td>
<td>II (Second)</td>
<td>50%</td>
</tr>
</tbody>
</table>

(2) Aggregate Grade Point or percentage of marks where awarded would mean aggregate over the entire duration of the course.

(3) Where the Aggregate Grade Point (CGPA/OGPA/CPI, etc.) is awarded out of a number other than 10, it will be normalized out of 10 and computed as per item (1) above.

8. APPLICATION FEE AND INTIMATION CHARGES (NON-REFUNDABLE) (For all the above posts):

The Prime Minister of India Shri Narendra Modi launched the Van Dhan Scheme of Ministry of Tribal Affairs and TRIFED on 14th April, 2013 with the celebrations of Ambadkar Jayanti at Bijapur, Chattisgarh. Emphasising the important role of value addition in increasing tribal incomes, he stated that Van Dhan, Jan Dhan and Gobar- Dhan Scheme together will help to change the tribal-rural economic system. All these three schemes in tandem need to be promoted for this purpose by the State Governments. The establishment of “Van Dhan Vikas Kendra” is for providing skill upgradation and capacity building training and setting up of primary processing and value addition facility.

This first model Van Dhan Vikas Kendra in Bijapur being inaugurated for training of 300 training beneficiaries with a total outlay of Rs. 43.38 lakhs for training and providing equipment and tools for primary level processing and infrastructure & building for housing the Kendra. This Kendra to start with will have processing facility for Tamarind bark making, Mahua flower processing and storage facility and churpi cutting and packing. Under Van Dhan, 10 Self Help Groups of 30 Tribal gatherers is constituted. They are then trained and provided with working capital to add value to the products, which they collect from the jungle. Working under the leadership of Collectors these groups can then market their products not only within the States but also outside the States. Training and technical support is provided by TRIFED.

It is proposed to develop 30,000 such centres in the country. Value addition assumes critical importance in ensuring relevant returns to the farmers in this approach. Three stage value addition would be the corner stone for enhancing incomes of the tribals under the scheme. The grass root level procurement is proposed to be undertaken through Self Help Groups associated with implementing agencies. Converging and Networking with other Govt. departments/scheme shall be undertaken to utilise the services of existing SHGs like Ajevika, etc. These SHGs shall be appropriately maintained on sustainable harvesting/ collection, primary processing & value addition and be formed into clusters so as to aggregate their stock in tradable quantity and linking them with facility of primary processing in a Van Dhan Vikas Kendra. The stock after primary processing shall be supplied by these SHGs to the State Implementing Agencies or direct tie up for supply to corporate secondary processor. For creation of secondary level value addition facility at district level and tertiary level value addition facility at State level. Big Corporates shall be involved under PPP model. This PPP model will be based on utilising Private entrepreneur skills in undertaking processing as well as marketing of the produce and Central/ State Govt. support in terms of creating infrastructure and providing enabling environment for undertaking value addition of systematic scientific lines. These will be sophisticated large value addition hubs managed by Private entrepreneur.

The Van Dhan Vikas Kendras will be a important milestone in the economic development of tribals involved in collection of MFPs by helping them in the utilization of natural resources and provide sustainable MFP-based livelihood in MFP-rich districts.

Government of India

Serious Fraud Investigation Office

2nd Floor, Pt. Deendayal Antyodaya Bhawan, B3 Wing
CGO Complex, Lodhi Road, New Delhi-110003

No. 02/01/2017-Admn/SFIO/Vol. III

It is proposed to fill up the following vacancies in this office on deputation/ISTC basis.

<table>

3. Senior Assistant Director [Forensic Audit] 03
Delhi/Mumbai/Kolkata/ Chennai/ Hyderabad
Rs. 15600-39100 plus GP Rs. 5400

Application Form, This will be subject to verification of all the eligibility conditions by the Board/Bank. The mere fact that an Admit card has been issued to a candidate, will not imply that his/her candidature has been finally cleared by the Board or that entries made by the candidate in his/her application for the Preliminary examination have been accepted by the Board as true and correct. Candidates may note that the Board takes up the verification of eligibility conditions of a candidate, with reference to original documents, only after the candidate has qualified for the interview. Unless candidature is formally confirmed by the Board, it continues to be provisional. The decision of the Board as to the eligibility or otherwise of a candidate for admission to the Examination shall be final.

Candidates should note that the name in the Admit card in some cases, may be abbreviated due to technical reasons

The possibility for occurrence of some problems in the examinations cannot be ruled out completely, which may impact test delivery and/or result from being generated. In that event, every effort will be made to rectify such problems, which may include movement of candidates, delay in test. Conduct of a re-exam is at the absolute discretion of RBI/Bank conducting body. Candidates will have any claim for a re-test. Candidates not willing to move or not willing to participate in the delayed mode process of test delivery shall be summarily rejected from the process.

Candidates are advised to keep their e-mail/ID/mobile number alive for receiving advices viz. Admit cards/Interview letters, etc. Candidates may check e-mails/SMS regularly. The Board does not send any communication through any other mode.

Applications should be accompanied by the employees of RBI (Staff Candidates) to satisfy the eligibility criteria separately stipulated by the Bank vide their circular CO. HRMD.No.G-75/5599/05.01/2013-2014 dated December 20, 2013 and who apply Online within the closing date. Their status as staff candidate will be verified at the time of interview.

The Board does not furnish the mark-sheet to the candidates. Marks obtained in Examination and Interview will be made available on the Bank’s web-site in an interactive mode only after declaration of the final result.

Any canvassing by or on behalf of the candidates or to bring political or other outside influence with regard to their selection/recruitment shall be considered as disqualification.

In all matters regarding eligibility, conduct of examinations, interviews, assessment, prescribing minimum qualifying standards in both the Examination and interview, in relation to number of vacancies and communication of result, the Board’s decision shall be final and binding on the candidates and no correspondence shall be entertained in this regard.

The eligibility for availing reservations against the vacancies reserved for the persons with disabilities (Persons with Disability (PwD) Rights Act 2016) Provided further that the persons with disabilities shall also be required to meet specific eligibility criteria in terms of physical requirements/functionual classification (abilities/disabilities) consistent with requirements prescribed.

A candidate will be eligible to get the benefit of community reservation only in the case the particular caste to which the candidates belong is included in the list of reserved communities issued by the Central Government. If a candidate indicates in his/her application form that he/she belongs to General category but subsequently writes to the Board to change his/her category to a scheduled one, such request shall not be entertained by the Board. Similar principle will be followed for PwD categories also in case of a candidate unfortunately becoming physically disabled during the course of the examination process, the candidate should produce valid document showing him/her as having acquired a disability to the extent of 40% or more as defined underPWD Act, 2016 to enable him/her to get the benefits of PwD reservation.

(1) Any resultant dispute arising out of this advertisement shall be subject to the sole jurisdiction of the Courts situated at Mumbai only.

The particulars of posts, eligibility conditions, etc. may be obtained from the website www.sfo.nic.in www.mca.gov.in. Interested and willing officers may forward their application complete in all respect through proper channel in the prescribed format to the Director, Serious Fraud Investigation Office, 2nd Floor, Pt. Deendayal Antyodaya Bhawan, B-3 Wing, CGO Complex, Lodhi Road, New Delhi-110003 within 60 days from the date of publication of this advertisement in the Employment News. CAREER IN...

Continued from page 1

Horticulture has five distinct disciplines:

- Floriculture - Floriculture pertains to producing and marketing flowers.
- Landscape and Horticulture - Landscape horticulture is about producing, marketing, and maintaining plants for decorating landscaped areas.
- Ornamental Horticulture - Ornamental horticulture is about the cultivation of vegetables.
- Pomology - deals with fruit production.
- Post-harvest Physiology - It is the post-harvest physiology of foods that grocery stores hire to prevent produce from spoiling prematurely. They too are horticulturists.

The work in this career broadens into production which includes the growing and harvesting of raw fruits, vegetables and flowers carried out mainly by farmers. However, with many large multi-national companies and retail houses making forays into the farming sector, there are now more scientific and managerial inputs in the cultivation and marketing of flowers, fruits and vegetables. Processing is another aspect of the work which covers all aspects of handling flowers, fruits and vegetables for distribution whether in natural form or as processed foods. New and scientific methods of plant breeding and processing have made it possible not only to extend the shelf life of these perishables, but also to process them in packaged form, or as canned foods, preserves, juices, jams and so on. Today's cold chain for fruits and vegetables makes it possible to transport these perishables to markets all over the world, as fresh as the day they were harvested.

Agriculture horticulture involves all aspects of cultivation of flowers, flowering plants, shrubs, and ornamental trees for decorative purposes in gardens. Development and maintenance of town and country parks, recreational areas, golf courses as also landscaping of gardens, lawns, hot-houses and nurseries are other areas handled by horticulturists in amenity horticulture.

Research is another area of work for a horticulturist, to improve and breed new varieties of fruits and vegetables or flowers, by the application of scientific techniques such as tissue culture, micropropagation, and embryo culture etc. This would generally be undertaken by government-funded research institutions, although there are research and development laboratories being set up by private sector companies in the business of processing or marketing horticultural foods and plants.

Work areas will be:

- Production and sales: Operating a business or managing cultivable land for growing horticultural and ornamental crops, and plants, and processing or marketing flowers and vegetables.
- Public Gardens: Managing landscapes and collecting plants is best for persons interested in both plants and their maintenance.
- Agricultural engineering: This deals with the conservation of soil and water and farm structures.
- Landscape design, construction and management: Creating gardens and knowing the appropriate plants to use to achieve the desired aesthetic effect.
- Horticultural Therapist: Working with the regulatory agencies, agricultural suppliers, processing corporations, large farm organizations as agricultural sales representatives.

Horticulturist can work in the following areas:

- Cashew, tea and coffee plantations,
- Contractors for plant maintenance,
- Exporters of flowers and fruits,
- Floral arrangement and cut flower business,
- Fruit and flower plantations,
- Government horticulture departments,
- Landscaping firms,
- Large and small nurseries,
- Packaging, transport, cold storage, food processing and manufacturing industries,
- Plant, seeds, fertilizer and herbicides sales,
- Resorts, health farms, farm stays and hotels.

Other areas of work include:

- Marketing: Involves the sale of fresh or processed fruits and vegetables.
- Teaching: Involves teaching in schools and colleges and to all people who are open to learning new ideas of horticulture.
- Agricultural engineering: This deals with the conservation of soil and water and farm structures.
- Landscape design, construction and management: Creating gardens and knowing the appropriate plants to use to achieve the desired aesthetic effect.
- Horticultural Therapist: Working with the regulatory agencies, agricultural suppliers, processing corporations, large farm organizations as agricultural sales representatives.

Horticulturist needs to:

- Develop innovative products and manage cultivating businesses, agri-business.
- Manage trading system and assisting in operating structure, storage and transportation of perishable products.
- Ensure that the quality, health, safety and hygienic standards and principles of the products are fulfilled.
- Stay abreast with new developments in the horticulture field.
- Survive frost, disease and weed control programmes, equally with health and hygienic principles.
- Plan, manage and operate transplanting lines in greenhouses as products vary throughout the year.
- Examine produce, costs and profits of horticultural operations.

SCOPE

Due to the increasing popularity of this field, there are many job opportunities for graduate and postgraduate students of the discipline. Qualified horticulturists can enter various fields in industry, gardening or educational institutions or private concerns. There are many areas of work including agricultural business, botanical gardens, conser-vation, crop management, floral design, food chemistry, fruit and vegetable production, garden centers, greenhouses, grounds management, landscape construction and management, nurseries, management and sales, marketing/public relations, research and development, teaching/instruction, technical writing and publishing.

There are also job openings in ancillary industries like packaging, transport, cold storage, food processing and manufacturing units.

Holiday resorts, health farms and farm houses have resident horticulturists, and many work under contracts and agreements with architectural firms. Those with horticulture skills can also become a consultant for offices and commercial organisations providing them with ornamental plants, potted plants, planters, lawn and garden, and the supply and decoration of fresh flowers.

They can also work in government horticulture departments, or at institutions like the Indian Council for Agricultural Research, and the National Botanical Research Institute. There is always a need to improve the quality and yield of the seeds and therefore horticulturists work in conjunction with other professionals in developing new horticultural products. Another option for graduates is being self-employed, as consultants, or floral decorators, etc. There are various avenues for self-employment - setting up one's own farm for growing fruits, vegetables, flowers, and ornamental plants, or running nurseries. The National Horticulture Board provides loans to companies for setting up horticulture/futurity units.

List of Institutes

Some of the top institutes providing B.Sc in Horticulture are:

- Dr. Y S Parmar University of Horticulture & Forestry, Himachal Pradesh - www.jspuniversity.ac.in
- Tamil Nadu Agricultural University, Coimbatore- www.tnau.ac.in
- Anand Agricultural University, Gujarat, www.aau.in
- Punjab Agricultural University, Ludhiana
- Mahatma Phule Krishi Vidyapeeth, Pune- www.mpkv.ac.in
- IGNOU, Delhi- www.ignou.ac.in
- ICAR- Central Institute for Subtropical Horticulture, Uttar Pradesh- www.cish.res.in

The Prime Minister, Shri Narendra Modi, interacted with citizens from villages across the country which have been electrified since 2014. The interaction covered the beneficiaries of Pradhan Mantri Sahaj Bijli Har Ghar Yojana - 'Saubhagya' scheme, through video bridge. This is the tenth interaction in the series by the Prime Minister through video conference with the beneficiaries of various Government schemes. Expressing delight in interacting with the villagers from the recently electrified 18000 villages, Prime Minister said "People who have not seen darkness, don't understand the meaning of illumination. Those who have not spent their lives in the darkness don't realise the value of light."

Union Home Minister has said that incidents of mob lynching are unfortunate. Social media is being used to spread fake news and rumours. He further said that social media sites have been asked for regulation. He also added that the onus lies on State Governments to ensure they are not repeated in future. He noted that the Centre had already issued two advisories in connection with the Lynchings in the past.

Union Minister of State for Personnel, Public Grievances & Pensions Dr Jitendra Singh in a written reply to a question in Rajya Sabha has informed that there is no proposal to alter the existing mode of recruitment to civil services through Civil Services Examination (CSE) which is conducted according to the CSE Rules notified by the Government every year. For Civil Services Examination-2018, a total of 782 vacancies (tentative) has been advertised by UPSC on 07.02.2018 in its notice of Examination for 24 participating services.

Lok Sabha has passed a bill to amend the Right to Education (RTE) Act to abolish the no detention policy in schools. Replying to the debate in the Lok Sabha on The Right of Children to Free and Compulsory Education (second amendment) Bill, 2017, Union Human Resource Development Minister Shri Prakash Javadekar said that it will be at the discretion of the States whether to continue with no detention or not. The States, he said, will decide at what level and who will conduct the examination, the Minister said.

The Cabinet Committee on Economic Affairs chaired by Prime Minister Shri Narendra Modi has approved the proposal for continuation of Pre-Matric, Post Matric and Merit-cum-Means based Scholarship Schemes for the students belonging to the six notified Minority Communities at a total cost of Rs. 5338.32 crore for period up to 2019-20. This will benefit 70 lakh students annually.

The Government has proposed to set up National Resource Centres (NRCs) to prepare online training material with focus on latest developments in the discipline, new & emerging trends, pedagogical improvements and methodologies for teaching-revising revised curriculum. In the first phase, 75 discipline-specific National Resource Centres have been identified, under the Ministry’s Pandit Madan Mohan Malaviya National Mission on Teaching (PMMMNMT) located in Central Universities, IISc, IUCAA, IITs, IISERs, NITs, State Universities; UGC’s Human Resource Development Centres (HRDCs), National Institutes for Technical Teachers Training (NITTTRs), IITs, Open Universities.

The University Grants Commission (UGC) has informed that it has decided to grant autonomy to 76 Educational Institutions including 62 Universities (5 Central Universities, 21 State Universities, 34 Deemed to be Universities and 2 Private Universities) and 14 Colleges across the Country. These Universities/Institutions have been selected on the basis of National Assessment and Accreditation Council (NAAC) ratings.

Top security officials of India and the United States have resolved to enhance cooperation in areas like counter-terrorism, immigration and aviation security. The Homeland Security Dialogue focused on issues relating to security cooperation, customs and immigration, aviation security, capacity building, an official statement said. A Home Ministry official said cooperation in matters related to counter terror initiatives and intelligence sharing were part of the dialogue. Both sides agreed to work out the modalities to address these issues. The discussions were held in a friendly atmosphere and it was agreed to maintain sustained interactions to enhance security cooperation between the two countries, the statement said. The Indian delegation was led by Additional Secretary in the Home Ministry Rajni Sekhri Sibal while the US side was led by James McCament, Deputy Under Secretary, Department of Homeland Security.

Sri Lankan government has said that it is in the process of finalizing a joint venture with India for operating the Matale international airport, located in south of the neighboring country.

The Turkish government has ended the nationwide state of emergency which was imposed two years ago, state media said.

The 12 boys and their soccer coach rescued from a flooded cave in Thailand recounted details of their ordeal at a press conference in Chiang Rai on July 18, 2018, following their discharge from the hospital on the same day.

Business & Economy

Keeping in view the interest of sugarcane farmers, the Cabinet Committee on Economic Affairs chaired by Prime Minister Shri Narendra Modi has approved the Fair and Remunerative Price (FRP) for sugarcane for sugar season 2018-19 at Rs. 275/- per quintal for a basic recovery rate of 10%, providing a premium of Rs. 2.75/qtl for each 0.1% increase in recovery over and above 10%. The cost of production of sugarcane for the sugar season 2018-19 is Rs. 155 per quintal. This FRP Rs. 275 per quintal at recovery rate of 10% is higher by 77.42% over production cost thereby ensuring the promise of giving the farmers a return of more than 50 % over their cost.

The Parliament has passed the State Banks (Repeal and Amendment) Bill, 2017. The Rajya Sabha adopted the amendment moved by the government regarding the bill. The Bill was introduced in the Lok Sabha by the Finance Minister Shri Arun Jaitley on July 21, 2017 and has been passed by the lower house. The Bill seeks to repeal the State Bank of India (Subsidiary Banks) Act, 1959, the State Bank of Hyderabad Act, 1956 and further to amend the State Bank of India Act, 1955. Under it, the five associate banks that were merged are State Bank of Bikaner and Jaipur, State Bank of Hyderabad, State Bank of Mysore, State Bank of Patiala and State Bank of Trivandrum. The merger of these banks have already been effective from 1st April, 2017.

The International Monetary Fund projected a growth rate of 7.3 per cent in 2018 and 7.5 per cent in 2019 for India as against 6.7 per cent in 2017, making it the fastest growing country among major economies.

Led by India, South Asia will continue to be the fastest growing economic area despite new trade tensions in Asia and Pacific region, Asian Development Bank (ADB) said in a new report.

The European Commission is set to fine Google 4.34 billion euros (around 5 billion U.S. dollars) for monopoly with its Android operating system, alleging it had violated the EU competition rules, the European Commission said on July 18, 2018.

Goals from Paul Pogba and Kylian Mbappe, as well as a controversial VAR-awarded penalty, helped France beat Croatia 4-2 in an incredible World Cup final in Moscow to lift the trophy for the second time in their history.

India’s javelin star, Neeraj Chopra struck gold in the Sotteville Athletics meet in France. Chopra, who had won the gold medal at the Commonwealth Games earlier this year, threw 85.17 metres to bag the top prize.

Novak Djokovic claimed a fourth Wimbledon title in ruthless fashion as he beat giant South African Kevin Anderson 6-2 6-2 7-6(3) on a sweltering Centre Court.

Russian President Vladimir Putin on Sunday handed over the mantle of World Cup host to the Emir of Qatar, whose country will stage the 2022 edition of the tournament. (Images Courtesy : Google)
