A CLEAN ENVIRONMENT WILL BE THE CORNERSTONE OF HUMAN EMPOWERMENT

By Shri Narendra Modi (October 4, 2018)

Yesterday, the United Nations honoured me with the ‘Champions of the Earth Award’. While I was extremely humbled at receiving this honour, I do feel that this award is not for an individual. Instead, it is recognition of the Indian culture and values, which have always placed emphasis on living in harmony with Mother Nature.

It was a proud moment for every Indian to see India’s proactive role in mitigating climate change being acknowledged and appreciated by the United Nations secretary general, Antonio Guterres and Erik Solheim, the executive director of the UNEP.

Human beings and nature have a very special relationship. Mother Nature has nurtured and nourished us. The first civilizations were established on the banks of rivers. Societies that live in harmony with nature flourish and prosper. Today human society stands at an important crossroads. The path that we take hereon will not only determine our well being but also that of the generations who will inhabit our planet after us. The imbalances between our greed and necessities have led to grave ecological imbalances. We can either accept this, go ahead with things as if it is business as usual, or we can take corrective actions. Three things will determine how we as a society can bring a positive change.

The first is internal consciousness. For that, there is no better place to look than our glorious past. Respect for nature is at the core of India’s traditions. The Atharvaveda contains unparalleled knowledge about nature and the environment. It is beautifully written in Atharvaveda, *Salutations to Mother Earth. In her are woven the elements. The elements of nature are manifestations of divinity.*

The ancient write about the Panch Tatvas - Pritvi (Earth), Vayu (Air), Jal (Water), Agni (Fire), Akash (Sky) - and how our life systems are based on the harmonious functioning of these elements. The elements of nature are manifestations of divinity.

Mahatma Gandhi wrote extensively on the environment and even practiced a lifestyle where compassion towards the environment was essential. He propounded the doctrine of trusteeship, which places the onus on us, the present generation, to ensure that our coming generations inherit a clean planet. He called for sustainable consumption so that the world does not face a resource crunch.

Leading lifestyles that are harmonious and sustainable are apart of our ethos. Once we realise how we are flag bearers of a rich tradition, it will automatically have a positive impact on our actions.

The second aspect is public awareness. We need to talk, write, debate, discuss and deliberate as much as possible on questions relating to the environment. At the same time, it is vital to encourage research and innovation on subjects relating to the environment. This is when more people will know about the pressing challenges of our times and ways to mitigate them.

When we as a society are aware of our strong links with environmental conservation and talk about it regularly, we will automatically be proactive in working towards a sustainable environment. That is why, I put proactiveness as the third proactive in working towards a cleaner and greener environment.

We see this proactiveness in the Swachh Bharat Mission, which is directly linked to a sustainable future. With the blessings of the people of India, over 85 million households now have access to toilets for the first time.

Over 400 million Indians no longer have to defecate in the open. Sanitation coverage is up from 39% to 95%. These are landmark efforts in the quest of reducing the strain on our natural surroundings.

We see this proactiveness in the success of the Ujjwala Yojana, which has significantly reduced indoor air pollution due to unhealthy cooking practices that were causing respiratory diseases. Till date, over five crore Ujjwala connections have been distributed, thus ensuring a better and cleaner life for the women and their families.

India is moving at a quick pace in cleaning its rivers. The Ganga, which is India’s lifeline, had become polluted in several parts. The Namami Gange Mission is changing this historical wrong. Emphasis is being given to proper treatment of sewage.

At the core of our urban development initiatives such as AMRUT and the Smart Cities Mission is the need to balance urban growth with environmental care. The over 13 crore soil health cards distributed to farmers are helping them make informed decisions that will boost their productivity and improve the health of our land, which helps the coming generations.

We have integrated objectives of Skill India in environment sector and launched the schemes including Green Skill Development Program for skilling about 7 million youth in environment, forestry, wildlife and climate change sectors by 2021. This will go a long way creating numerous opportunities for skilled jobs and entrepreneurship in environment sector.

Our country is devoting unparalleled attention to new and renewable sources of energy. Over the last four years, this sector has become more accessible and affordable. The Ujala Yojana has led to the distribution of nearly 31 crore LED bulbs. The costs of LED bulbs have reduced and so have the electricity bills and the C emissions.

My dear countrymen, Namasthkar. There must be hardly any Indian who doesn't feel proud of our Armed Forces, our army javans, our soldiers.

Even in this day and age, there is a region, caste, religion, sect or language, is ever eager to express joy and show solidarity with our brave men. On one hundred and twenty-five indians celebrated the Paraakram Paraav, the festival of Valour. We remembered that supreme sacrifice; that too in a lakh of our soldiers made the ultimate sacrifice. The Air Force has proved itself to be of world peace. It is also inspires us to maintain the unique role of this valiant of the country. I too participated in a programme held at Jodhpur in the land, Rajastan. It has now been decided that they will give a befitting reply to whosoever makes an attempt to destroy the atmosphere of peace and progress in our country, exhibitions have been resolutely committed to peace and progress in our country. Keeping this in mind while making any purchases during the 150th Anniversary of Gandhiji, we must make it a point to see that our purchase must benefit one of our countrymen and in that too, one who has put in physical labour, who has invested hard work who has applied skill must get some benefit. This is the mantra of Gandhiji, this is the message of Gandhiji and I firmly believe that a small step of yours can surely bring a visible and big benefit in the life of the poorest and the most underprivileged person.

My dear countrymen, when Gandhiji said that "Be the change you wish to see in the world", it all in clearness, freedom will be won then he probably was not aware of this would happen. But this did happen.

In the same way today we may feel that even by making a tiny contribution, we may be contributing in a big way to help in economic upliftment and economic empowerment of my country and help fight a battle against poverty by lending them a helping hand that this is true socialism, and a perfect tribute to revered Babu's work.

For example, think of purchasing Khadi and handloom products on special occasions; this will benefit many weavers. It is said that Lal Bahadur Shastriji used to present old and worn out clothes on occasions because one's labour could be felt in the making of those clothes. He used to say that all these Khadi clothes have been woven after putting in a hard labour, every thread of these clothes must be utilized. This spirit of attachment towards the country and fellow countrymen was deeply imbued in that great person of a very short physical stature. Two days later, we shall celebrate the Mahatma's birthday along with respected Babu's birth anniversary. The very name of Shastriji evokes a feeling of eternal faith in the countrymen was deep. His mild person always fills everyone with a sense of pride.

Lal Bahadur Shastriji had a unique quality in that, he was incredible in that as a man he was rock solid from inside. His slogan "Jai Jawan, Jai Kisan" is the hallmark of his grand person. Remember the sound of his selfless service to the nation that in a brief tenure of about one and a half years he gave to our jawans and farmers the

A CLEAN...
Continued from page 1

India's proactiveness is seen internationally. It makes me proud that India remained at the forefront of the COP-21 negotiations in Paris in 2015. In March 2018, world leaders of several countries converged in New Delhi to mark the start of the International Solar Alliance, an endeavour to harness the rich potential of solar energy and bring together all nations that are blessed with solar power.

While the world is talking about climate change, a call for climate justice has also reverberated from India. Climate justice is about safeguarding the rights and interests of the poor and marginalised sections of society, who are often the biggest sufferers from the menace of climate change. As I have written earlier, our actions today will have an impact on this climate change much beyond our time. It is up to us to take on the mantle of global responsibility to work in this direction. They have become the harbingers of a monumental change in our society. I assure them all support from the government in their pursuits.

Together, we will create a clean environment that will be the cornerstone of human empowerment.

MANN KI BAAT...

mantra to reach the pinnacle of success.

My dear countrymen, while remembering revered Babu Tupi today, it is quite natural not to skip talking of cleanliness. A movement "Swachhata Hi Sewa" was launched on the 15th of September. Crores of people got connected with this movement and luckily also I got a chance to participate in the voluntary cleanliness shramdaan with the children of Delhi's Ambedkar School. I went to the school, the foundation of which had been laid by none other than respected Baba Sahab himself.

On the 15th of September, people from all sections across the country connected themselves to this voluntary cleaning movement. Institutions also extended their contribution enthusiastically.

School children, college students, NCC, NSS, youth organisations, media groups, the corporate world, all of them offered voluntary cleanliness service on a large scale. I heartily congratulate all these cleanliness-loving countrymen for their efforts. Come on, let us listen to a phone call.

Many many thanks, you’ve made a significant remark that cleanliness has a specific meaning in every one’s life and what could be a matter of immense joy for all of us than the fact that a toilet has been built in your home under the scheme of “Swachh Bharat Abhiyan” and that, all of you have the facility now. And possibly those connected with this movement might not be able to agree that you cannot see because of your visual challenge. But one understands the difficulties you were facing when there was no toilet and that the construction of that toilet has truly proved to be a big boon for you. If you had not made a call about this aspect, perhaps those connected with this cleanliness movement might have also not thought about such a sensitive issue. I sincerely thank you for your phone call.

My dear countrymen, Swachh Bharat Mission has become a success story not only in our country but in the whole world and everyone is talking about this movement. This time India is hosting the biggest Sanitation Convention of the world so far, the Mahatma Gandhi International Sanitation Convention. Sanitation Ministers from countries across the world and experts on the subject of sanitation will come together and share their experiments and experiences. Mahatma Gandhi International Sanitation Convention will conclude on 2nd September 2018 with the commencement of Babu’s 150th Birth Anniversary celebrations.

My dear countrymen, there’s a Sanskrit quote—

which means justice lies at the root of swaraj and while discussing the subject of justice, the spirit of human rights is inherent in that. This is specially important when we are celebrating the civilisation of the exploited, victimised and deprived people and to ensure justice for them. In the Constitution drafted by Dr. Babasaheb Ambedkar, many provisions were inserted to protect the fundamental rights of the poor. Inspired by his vision, the ‘National Human Rights Commission’ (NHRC) was formed on 12th October 1993. A few days later NHRC would complete 25 years of its existence. The NHRC has not only protected human rights but has also promoted respect for human dignity over the years. Our most beloved leader, Shri Atal Bihari Vajpayee, the former Prime Minister of our country, had clearly said that human rights are not an alien concept for us.

In the emblem of our National Human Rights Commission, the ideal mantra harking back to Vedic period—"Swarabhavantu Sukhinih" is inscribed. NHRC has instilled widespread awareness of human rights and has played an important role in preventing their misuse. In its journey of 25 years, it has created an atmosphere of hope and confidence in the countrymen. For a healthy society, and for lofty democratic values, it is a very hopeful inspiring event. Today, with NHRC operating at the national level, 26 State Human Rights Commissions have also been constituted. As a society, we need to understand the importance of human rights and inculcate them into practice — this is the very basis of Sab ka saath, Sab ka vikas, Sab ka vikas.

My dear countrymen, the month of October heralds, Jai Prakash Narayan ji’s birth anniversary, the beginning of the birth centenary of Raj matia, Vijayaraje Scindia. These luminaries have been infusing inspiration in all of us and we offer our heartfelt tributes to them. 31 October happens to be the birth anniversary of Sardar Sahib, we shall dwell upon his birth anniversary in detail in the next episode of Mann Ki Baat but today I want to mention that for the past few years, the occasion of Sardar Sahib’s birth anniversary on October 31 is marked in every small town and district by organizing the ‘Run for Unity’ race.

Even this year, we should try to organize ‘Run for Unity’ in our village, town, city or metropolis. This is the best way to remember the great Sardar Sahib, because he worked for the unity of our nation throughout his lifetime. I urge you all that on October 31, through ‘Run for Unity’, to strengthen our efforts and bind every section of the society as a unified unit. This will be a great tribute to Sardar Sahib.

My dear countrymen, be it Navratri, Durga Puja or Vijayadashami, I offer all my heartfelt greetings to all of you on account of these holy festivals. Thank you —PIB
