This sector contributes significantly lower capital cost, next only to generating largest employment fostering entrepreneurship and development of the country by decades. It contributes significantly to the Indian economy over the last few decades. Small and Medium Enterprises (MSME) sector has emerged as a highly vibrant and dynamic sector of the Indian economy over the last few decades. It contributes significantly in the economic and social development of the country by fostering entrepreneurship and generating largest employment opportunities at comparatively lower capital cost, next only to agriculture. MSMEs are complementary to large industries as ancillary units and this sector contributes significantly in the inclusive industrial development of the country. The MSMEs are widening their domain across sectors of the economy, producing diverse range of products and services to meet the demand of domestic as well as international markets.

Small and Medium Enterprises (SMEs) are crucial for the economic growth and stability of any country and play a vital role especially for developing countries as they facilitate economic activity and provide employment thus contributing to poverty reduction. In the Indian context they can be considered as a backbone of national economy. The Micro sector with 630.52 lac estimated enterprises accounts for more than 99% of total estimated number of MSMEs. Small sector with 3.31 lac and Medium sector with 0.05 lac estimated MSMEs, accounts for 0.52% and 0.01% of total estimated MSMEs, respectively.

One of the data from National Sample Survey (NSS) 73rd round will further emphasize on the significance of MSME sector in India as it states that during the period 2015-16, MSME sector has been creating 11.10 crore jobs (380.41 lacs in Manufacturing), 387.18 Trade and 362.82 lacs in Other Services and 0.07 lacs in Non-Captive Electricity Generation and Transmission in the rural and the urban areas across the country. Micro sector with 630.52 lac estimated enterprises provides employment to 1076.19 lac persons, which accounts for around 97% of total employment in the sector. Small sector with 3.31 lac and Medium sector with 0.05 lac estimated MSMEs provides employment to 31.95 lac (2.88%) and 1.76 lac (0.16%) persons of total employment in MSME sector, respectively. Out of 1109.95 lacs employees in MSME sector, 844.68 (76%) are male employees and remaining 264.92 lacs (24%) are females.

India has been the breeding ground for ideas and entrepreneurs in the recent past. Start-up activity is at an all-time high. Start-ups have mushroomed across markets and industries, despite all the murkiness and uncertainty in the policy framework. India needs to 6 or 7 million jobs a year and global data shows that it is the MSMEs including start-ups, not large enterprises that create net new jobs in any country. Start-ups are also the centers of innovation and are a great way to enhance employment creation in the economy.

The “Start-up India” initiative launched on January 16, 2016 aims at fostering entrepreneurship and promoting innovation by creating an ecosystem that is conducive for growth of Start-ups. The objective is that India must become a nation of job creators instead of being a nation of job seekers. The Startup India by Prime Minister of India has already brought lots of positives among the entrepreneurs in India. Industry is elated by the continued on page 3

The Division organised a discussion on ‘Children’s Literature and Young Readers Trapped in Electronic Gadgets’ at the World Book Fair on January 10, 2019. The discussion highlighted the importance of books and their impact on children who in today’s times are often found preoccupied in the world of modern day gadgets. Publications Division also released ten books during the event - Saral Panchatantra Part I; Children’s Vivekananda; Children’s Mahabharat in English; Shekhawati ki Lok Sanskriti; Hamare Samay me Upanishad; Haar Ki Khushi; Maa Ka Janamdin; Bapu Ka Vani; Ved Gatha; and Bal Mahabharat in Hindi. India scored 622 for 7 in their first innings and then bowled out Australia for 300 thereby enforcing the follow-on. However, persistent drizzle washed out day five thereby keeping the victory margin down to 2-1. The Hosts were still trailing by 316 runs when the match was called off.
