On this solemn day of Independence, many greetings to all countrymen. Today also is the festival of Raksha Bandhan. This centuries-old tradition expresses the love of brother and sister. I extend my best wishes to all the countrymen and all the brothers and sisters on this auspicious festival of Raksha Bandhan. My heart is only for you. It has not even been 10 weeks since the formation of this new Government. But even in a short ten-week period, efforts have been made in all fields and in every direction, new dimensions have been added. People have entrusted us to serve them so that they can achieve their hopes, expectations and aspirations.

For the first time in a long period, people are physically weak and need some support. We have implemented a Pension Scheme to meet these needs. In just ten weeks, we made big ticket decisions like protecting the rights of our Muslim women, making major amendments in laws to counter terrorism and to make it more stringent and powerful; transfer of approximately 90,000 crores of rupees to the bank accounts of farmers who are beneficiaries of PM Kisan Samman Nidhi Yojana.

Today, when we are celebrating this auspicious day of Independence, I pay my respects to all those who gave up their lives, who spent their youth in prisons, who embraced the gallows, who instilled the spirit of non-violence through Satyagraha for the freedom of the country. The country gained independence under the leadership of Bapu. Similarly, in the years since independence numerous people have contributed for the peace, prosperity and security of the country. The country gained independence under the leadership of Bapu. Similarly, in the years since independence numerous people have contributed for the peace, prosperity and security of the country. Today, I also salute the people who have contributed to fulfil the hopes and aspirations of the people, for the development, peace and prosperity of Independent India.

After the formation of the new government, I am humbled once again with the opportunity to interact with you. It has not even been 10 weeks since the formation of this new Government. But even in a short ten-week period, efforts have been made in all fields and in every direction, new dimensions have been added. People have entrusted us to serve them so that they can achieve their hopes, expectations and aspirations. We are dedicated to your service with complete devotion, without wasting even a single moment.

To revoke Article 370 and 35A within 10 weeks is a significant step towards fulfilling the dream of Sardar Vallab Bhai Patel.

Current Government should not last long, they sank into the depths of despair very quickly. The result of their experience over a long period- hopes percolated into the minds of the common man. This was the most disturbing thing for the common man. This was the most disturbing thing for the common man.

This was the most disturbing thing for the common man. This was the most disturbing thing for the common man.
2019, I was surprised. The Mood of the country changed. Departure had changed into hope, dreams got linked to resolutions, accomplishment was visible and the common man had only one determination that he can change his country. Yes it was the feeling that We too can change our country and that we cannot stay behind.

I have seen in the recent elections and I felt then that this is an election in which no political party was contesting, no political party was contesting, neither Modi was contesting nor were friends of Modi contesting the election. It was the people of India who were contesting the election, 130 Crore countrymen were contesting the election. They were contesting for their own dreams. The real nature of Democracy could be seen in this election.

My dear countrymen, the solution to the problems - along with the period of determination, accomplishment - we have to walk together now. It is evident that sense of self-reliance develops when problems get solved. Solution to problems encourages a speed of self-reliance. When self-reliance occurs, self-esteem develops automatically and self-esteem has very strong potential. The power of self-reliance is greater than anything and when there is a solution, resolution, capability, self-reliance, then nothing can come in the way of success and today the country, with the feeling of that self-reliance.

And today, with that self-reliance we are determined to move forward to touch new heights of success. When we are trying to solve problems we should not think in isolation. There will be difficulties. Half-hearted efforts may not ensure the applause will not help in fulfilling the dreams of the country. We have to strive to remove problems from their roots.

It is surprising that in Jammu & Kashmir there were legal restrictions on Safai Karamchari brothers and sisters. Their dreams were trampled upon. We have freed them from such shackles. When India was partitioned, graves of people had to leave behind their ancestral homes for no fault of theirs. Those who settled down in Jammu & Kashmir got neither human rights, nor citizenship rights. There are people from hill regions living in Jammu & Kashmir. We intend to take steps for their welfare as well.

My dear countrymen, peace and prosperity of Jammu & Kashmir and Ladakh can be an inspiration for India. lm here to tell you that the Saffron-clad men and women like Shri Bhupendr Pratap Singh and the other哈尔 brothers and sisters of Jammu & Kashmir and Ladakh. They have been deprived of so far. The rights enjoyed by the tribal people of India must also be available to my tribal brothers and sisters of Jammu & Kashmir and Ladakh.

There are several such communities, like Gujaratis, Bakarwals, Gaddis, Sikkim or Balti- all such communities must be empowered with political rights. It is surprising that in Jammu & Kashmir there were legal restrictions on Safai Karamchari brothers and sisters. Their dreams were trampled upon. Now, we have freed them from such shackles.

My dear countrymen, peace and prosperity of Jammu & Kashmir and Ladakh can be an inspiration for India. They can greatly contribute to India’s development. We need to make efforts to bring back their glorious past. The new system that has come into being after the recent step will create facilities that will directly benefit the people of the State. Now, anybody in Jammu and Kashmir, like the rest of Indians, can reach out to the Government in Delhi. There will be no hurdles in between.

We have put in place such a system. Our recent action to strike down Article 370 and 35 A has been welcomed by the entire country and also by people from all political parties of the country, without exception. Some have openly supported us while others give their tacit support. But some in the corridors of power, in a bid to take mileage from vote-bank politics, have been talking in favour of Article 370. The country demands an answer from those speaking in favour of Article 370, if Article 370 and 35-A were so important.

If Article 370 was so crucial then why did ruling parties not make it permanent in the last 70 years despite having a majority? Why was it kept temporary? If there was so much of conviction, you should have moved ahead and made it permanent. This means that you knew all along that the decision taken was not right. But you did not have the courage and the will to amend it. Concerns about political future kept coming up. For me, the country’s future is everything, political future has no meaning.

Our constitution makers and great personalities like Sardar Vallabhbhai Patel took these bold and important decisions even during those difficult times, keeping the goals of national integration and political unification in mind. The exercise towards national integration was a successful one, but some difficulties have been faced because of Article 370 and 35A.

Today, as I address the nation from the Red Fort, I can proudly say that every Indian today can speak of One Nation, One Constitution and we are trying to fulfill Sardar Sahibs dream of EK Bharat Shreshtha Bharat. So we must develop such systems which strengthen the country’s unity and serve as a cementing force, and this process must go on continuously. It should not be merely an interim measure but a continuous process.

Through GST we have fulfilled the dream of One Nation One Tax. Similarly, we successfully achieved the dream of One Nation, One Grid in the energy sector recently.

Likewise, we have developed the system of One Nation, One Mobility card and currently there is a nationwide debate about holding simultaneous elections in the country. This discussion should be taken up in a democratic manner. We will have to add many such new ideas to realize our dreams of EK Bharat, Shreshtha Bharat.

My dear countrymen, the country has to achieve newer heights, the country has to make its mark globally. For this we have to change the attitude towards poverty alleviation in the country. It should not be treated as a favour, but as our dutiful contribution towards building a bright future for the country because we have to free ourselves from the clutches of poverty at any cost. A number of successful efforts have been made during the last 5 years to reduce poverty. We have achieved more success than before and at a faster pace. A little respect and support to the poor can boost their self-esteem and pull them out from the grips of poverty without any government help.

He will be able to defeat poverty with his own strength. It is my poor brethren who have the might to fight against any adversity. He fights against extreme cold with his clenched fists. We need to bow before his innate strength to face adversities and help in eliminating the challenges of his daily life.

Why should poor people have to walk five, six miles to reach the bank, when others have their houses in India do not have drinking water. People have to struggle to get drinking water. Mothers and sisters have to travel 2, 3, 5 km carrying the load of water on their heads. A large part of their lives is spent in struggling for water. This government has decided to
Thought of the water crisis and the importance of water. We must move forward with the belief that in the next five years we have to do more than four times the work that has been done in the last 70 years for water conservation and to revive it to here and there. We cannot wait any longer. The great Saint Thiruvalluvar ji had professed hundreds of years ago when perhaps no one would have thought of the water crisis and the importance of water; even the children should be taught about water conservation as part of their curriculum in their childhood. We have done away with several unnecessary laws for which we have taken many steps, eliminating it like chronic disease. Sometimes it gets cured, but the country cannot now wait much longer for modern infrastructure. The (new) government has only completed ten weeks and there used to be a positive feeling for years together that a new railway station was going to be constructed in a particular area, changed and we have to understand that.

Brothers and sisters, the country has, in a way, matured after so many years of independence. We are going to celebrate the 75th anniversary of Independence. This Freedom is as precious to us as our family. Earlier, when mobile phones were just in vogue, earlier, even on seeing the electricity poles lying on the ground people used to be happy, thinking that the electrification of a particular area or for a particular community or group. They are not satisfied to medial roads any longer. I think this is a very significant change for aspiring India.

Earlier, even on seeing the electricity poles lying on the ground people used to be happy, thinking that the electrification of a particular area or for a particular community or group. They are not satisfied to medial roads any longer. I think this is a very significant change for aspiring India. We have made much progress towards ‘Ease of doing business.’ We aim to reach the Top Five in the global ranking and for this there will be a need for several reforms; anybody wanting to set up a small business or want to take it ahead. Notwithstanding despondent attitudes, ordinary people have been able to achieve a fair degree of success towards ‘Ease of doing business.’

Across the globe there is a growing realization that such a large country as India, a developing nation, can dream big and make such a big leap. ‘Ease of doing business’ seems just a milestone. Our ultimate objective is to achieve ‘Ease of living’, where a common man does not have to exercise himself to get Govt./Officials clearances, he gets his due rights easily and thus there is a need for us to proceed in this direction.

My dear countrymen, our nation must march forward, but the country cannot now wait much longer for incremental progress, we will have to take a big leap, we will have to change our thinking. To make India reach the Global Standards we need to build modern infrastructure. Notwithstanding despondent attitudes, ordinary people have always dream of a good system. They like good things; they have developed a taste for it. So we have decided to invest 100 lakh crore rupees for modern infrastructure in this time period. This will generate employment; will develop new systems and various aspirations will be possible. I would like to conclude with a statement that ‘when water will be sold in grocery shops. Can you imagine?’

This campaign on Water conservation should not just remain a government initiative. It should become a people’s movement like our Swachh Bharat Abhiyan. Do you want to continue this movement with the help of the common man’s ideals, aspirations and energies?

Dear Countrymen, our nation has reached a phase when we should be transparent about everything.

Time has now come that we should take challenges head-on. Sometimes decisions are taken keeping in mind that there is no need for Government to be in the fields but under the influence of Janism. They become a Jain saint called Budhi Sagar ji Maharaj. He left behind some scriptures 100 years ago in which he shared a premonition that there will be a time when water will be sold in grocery shops. Can you imagine?” When will we get 24-hour electric supply?” They are no longer happy with just poles and wires.

The meaning of an Independent India for me is to construct a very good bus station or five star Railway station. The (new) government has only completed ten weeks and there used to be a positive feeling for years together that a new railway station was going to be constructed in a particular area, changed and we have to understand that.

My dear countrymen, you are well aware that corruption and nepotism have damaged our country beyond imagination and entered into our lives like termites. We are continuously trying to weed them out. We have been able to make significant progress in this direction. If the population is not educated, not healthy, then neither the home nor the country can be happy. If the population is educated, empowered, and skilled and has adequate means available to achieve the right ambition to fulfill their wishes and needs, then I think the country can fulfill their ambitions.

I declare from the Red Fort today that in the days to come, we will take forward the ‘Jal-Jeevan’ Mission. We must move forward with the belief that in the next five years we have to do more than four times the work that has been done in the last 70 years for water conservation and to revive it to here and there. We cannot wait any longer. The great Saint Thiruvalluvar ji had professed hundreds of years ago when perhaps no one would have thought of the water crisis and the importance of water; even the children should be taught about water conservation as part of their curriculum in their childhood. Tourism sector and what arrangements should be made
towards it. The country's economy also gets a boost. The development of tourism sector, the country has a very favourable environment for achieving economic success. When there is a stable government, the policies are predictable and systems are stable, then the world also starts having confidence in you. The people of the country have shown this. The world is also watching the progress of India with great pride and respect. We should not let this opportunity go. Today the world is keen to do business with us. It wants to connect with us. Today, it is a matter of great pride for us that while controlling inflation, we are moving forward with an important equation to increase the growth rate. If this time, if inflation is not under control. Sometimes when the inflation is under control, the growth rate gets affected. But our government has not only controlled inflation but has also increased the growth rate.

Capital investment provides more employment
Come, let all of us, the countrymen, take the decision to capitalise on our economy are very strong. And this strength gives us confidence to move ahead. In the same way, by developing a system like GST, and bringing reforms like Insolvency and Bankruptcy Code, we want to develop an environment of confidence. There should be increased production in our country. Increased production is a source of natural wealth, value addition, export of the value added products to the world. Why can't we have a dream wherein every country in the world imports some or the other Indian product, wherein every district of India exports some product? If we focus on this, then we can also increase the income. Our companies and entrepreneurs also dream of getting access to the world market. By getting access to the world market, our investors will be able to enhance the status of India; our investors will be able to earn more; our investors will be able to generate more employment. We are completely ready to encourage our investors to come forward for generating employment.

In our country, certain wrong beliefs have come into existence. We have a consumption mindset. Those who create wealth for the country, those who contribute in the nation's wealth creation are all serving the country. We should not doubt our wealth creators.

The need of the hour is to recognise and encourage the wealth creators of our country. It would encourage them even more honour. If wealth is not created, wealth cannot be distributed. Further, if wealth is not distributed we cannot uplift the poor sector of our society. Such is the importance of wealth creation for our country which we need to facilitate further. Those who are making efforts to create wealth, according to me they themselves are an asset to the nation and must be empowered.

Our country can be a fascinating tourist destination for the world, but for some reason, we have not been able to do it as fast as we need to. Come, let all of us, the countrymen, take the decision to boost tourism in the country. As tourism grows, capital investment provides more employment opportunities. The country's economy also gets a boost. People all over the world are ready to see India in a new way today. Let us think how we can attract tourists to our country from the world over, how we can strengthen the tourism sector and what arrangements should be made at tourist destinations. We should also talk about increasing the income of ordinary citizens, better education for them, new employment opportunities. There should be launching pads for the middle class so that they can earn a decent living. The scientists should have the best facilities and resources, our forces should have the best weapons and equipment that too indigenously made. I believe that there are many areas which can give India a new strength to become a five trillion dollar economy.

Generally, the government of India, the central government, the state governments, district governments, all the governments in India should work together to achieve this goal. It is possible. Today, we have to increase that strength.

In the same way, by developing a system like GST, and bringing reforms like Insolvency and Bankruptcy Code, we want to develop an environment of confidence. There should be increased production in our country. Increased production is a source of natural wealth, value addition, export of the value added products to the world. We are completely ready to encourage our investors to come forward for generating employment.

India should play a crucial role in the war against terrorism. India should unite all forces to bring security, peace and harmony in this sub-continent.

Our neighbour friendly Afghanistan is also going to celebrate its 100th year of independence, four days from now. I would like to extend my heartiest greetings to them on this auspicious occasion.

I believe that those who are spreading fear and fostering violence must be rered on the ground. We have made this clear through our policies and strategies to curb all such malafide intentions. We have no injunctions. Our army, border security forces and security agencies have done a commendable job. They have put in their best to make sure that India will always stay safe from all the adversities. They have martyred their lives to ensure a bright future for us. I salute and I pay my homage to them. It is important that we take timely steps towards reforms. I must always have that determination that we have to make this country strong and robust and to make this country strong and robust, we have to make this country strong and robust.

government was nowhere to be seen, people participated in the mass movement and the results are quite evident.

My dear countrymen, we are about to take one of those steps that the sages and saints made to make the country. The government and the people have to achieve this collectively and jointly. Our 75 crore people who have been exhorting customers not to use plastic bags, that will be an advertisement for your company too. If you give a diary or calendar nothing will happen. But if you give a bag, that will be a medium of your advertisement. It should be a jute bag. It will help poor widows. It should be a jute bag. It will help our country.

We should create an atmosphere in which our children get to know whether they will want their children to be emotionally connected with the country's history, its air and soil. Do they want their children to gather new energy from all these? We have to move ahead in right earnest. No matter how advanced we become, if we get cut off from our roots, we never survive. Today from the ramparts of Red Fort, I am asking you this thing. One that is to generate employment of the youth, to build an image of India in the world and to tell the world what India is capable of. It is time you decide that before 2022, when India will be celebrating the 75th Year of its independence, we take our soldiers to at least 15 tourist destinations in the country. We may face some difficulties in those places but still, you should never despair. There may not be good hotels. But, sometimes difficulties also bring opportunities along. Our children will learn what their children's children will go through. They will get that feel.

Brothers and sisters we like mobile phones, we like to send whatsapp messages, we like to be on Facebook-twitter. But we can help country's economy only if we get the country's economy strong. Let us decide whatever is needed for digital payment? Today we are proud that our RuPay card is accepted in Singapore. In the near future RuPay card will be accepted in many foreign lands. Our Dreams are spreading steadily. Shouldn't we stress on digital payment in villages, small shops and small shopping malls? For the sake of our honesty, let us go to villages and to make our country's economy strong let us move towards digital payment. If you go to villages you will generally see boards put up by banks offering loans on card credit please. I will urge the businesses to display another board: “say yes to digital payment and no to cash”. We should create an atmosphere like this. I will urge the banking sector and the people from the business world to give importance on these things.

In our country the bulk of middle class and higher class are increasing. This is a good thing. People go to various countries as a tourist with their family once or twice in a year. It is good that our children get exposure. But today I am urging all such fake to think over whether they will want their children to know their country as well, when it celebrates the 75th Year of its Independence, which could be achieved only after much great men and women had sacrificed their lives? Are there any parents who do not want their children to be emotionally connected with the country's history, its air and soil? Do they want not their children to gather new energy from all these? We have to move ahead in right earnest. No matter how advanced we become, if we get cut off from our roots, we never survive. Today from the ramparts of Red Fort, I am asking you this thing. Today, when I interact with a group of people who are teachers as well as parents who have a responsibility of guiding young adults; who are going to be the future of our Country. As we look around we often hear the word from students, teachers, parents “We are stressed” in exams. Among the common refrain for the student community was “Busy with studies” and now this simple term has given way to the sickly term “Stressed out” which has become a common denominator today, and all the three – Students, Teachers and the Parents have fallen victims to it.

Let me begin with the fact that problem solving is at the very core of our holy scriptures like “The Holy Gita” which is essentially a dialogue between Bhagwati Shri Krishna and Arjuna where Krishna answered the questions that arose out of the inner turmoil of Arjuna restraining him to attack his very own kin. Hence it is how Bhagwati Shri Krishna satisfies his queries, stands testimony to that fact that problems are to be faced and solutions found. It is the fact that problems is to be faced and solutions found. It is the hallmark of a good Teacher.

There are many factors that contribute to stress, which may arise from different sources. Some common sources of stress include academic pressure, social relationships, financial concerns, and physical health issues. When under stress, the body releases hormones like cortisol and adrenaline that can lead to increased heart rate, blood pressure, and muscle tension.

Stress amongst the Teachers:

As a Teacher, you are living in an age of hearsay, have faith in yourself, be the best counselor for your child, for the students performing well in exams lies with the teacher as she/he is the one who has taught the child, who has been the one who has taught the child. Therefore, Teachers are the ones who are most affected by stress. The most important part, never ever stop “socializing” to avoid feeling lonely. Teachers:

1. It is very important for a Teacher to be “patient” she/he has to realize that sometimes there exist the students to deal with, if you lose control you discourage not only that student but other students as well. Let them ask questions as much as they want.
2. Pay special attentions to students who are weak, by repeatedly asking them “did you understand?” you force them to do more work, but it is even more attentive in the Class, this is something that we call “positive pressure” which is most important.
3. Don’t be too predictive to the students, always be ready for an impromptu exam in the class, so that the students are left guessing and they always pay attention.
4. Come up with motivational stories that motivate student to perform well.
5. Last but not the least never lose sight of the fact that you are a parent too, take the students as your children, show them with love, affection and attention and they will never fail you.

Parents:

1. Allow the kids to flourish, it is much better to let a child play his favorite game for two hours and devote just one hour to study rather than force the kid to sit for studies for three hours and do it without any break. Here are some tell-tale signs:
2. Stress amongst the Students:

Stress amongst the Parents:

Unfortunately, parents unknowingly pass the burden of their own ambitions on to their children and realize whether they are suited to it or not? Every child is unique with his own strengths and weaknesses, “the old school thought of (padhho kholge banawog, kholoog khoolege banhara) has become a thought of the past what with the athletes becoming celebrities earning megabucks today? Perhaps the worst thing that a parent can do is to compare your child with other (more successful) children’s. So always encourage your children trust them and let them find their own path, it’s not so that they don’t care, your constant nagging pushes them to the wall sometimes even with fatal results.

All parents feel that they are the best counselor for their child, for example, the daughter of your neighbor next door took science stream and has gone on to become a Doctor, now as parent you take a clue and jump to the conclusion that science stream is becoming a more grimy term called “depression” for the student community. The first and foremost is to figure out the signs of “Stress” in a child, and some common tell-tale signs:

I. Irritable, aggressive, impatient or wound up behavior
II. Feeling over-burdened
III. Anxiousness, nervousness or being afraid
IV. A feeling like your thoughts are racing and you can’t switch off
V. Feeling depressed
VI. Losing interest in life
VII. Losing sense of humor
VIII. Feeling a sense of dread
IX. Worries about health
X. Feeling neglected or lonely.

What causes stress?

Feelings of stress are normally triggered by things happening in your life which may involve:

I. Being under lots of pressure
II. Facing big changes
III. Worrying about something
IV. Not having much or any control over the outcome of a situation
V. Having responsibilities that you’re finding overwhelming
VI. Not having enough work, activities or change in your life
VII. Time pressures

As teachers, the most important topic and that is How to control Stress?

Students:

Never impose curfews on yourself, go on to being involved in activities of your choice is equally important.

I. Have a proper time-table for everything like watching TV, going to the gym, News Papers, sleeping on time.

II. Doing mild exercises like Yoga, it’s important to some extent.

III. Never panic in any situation

IV. While writing the exams do the “relaxation techniques” so start doing some yoga, it’s important to devote time to spiritual activities as well.

Don’t follow others’ advice they may be passing on the hearsay, have faith in yourself as well as in your children.

Never ever pass your personal anxiety to your children.

IV. Last but not the least be a smart parent, remember, today you are living in an age of information, the kids are more informed than you and they choose the best path.

Its not stress that kills us, it is our reaction to it.”

An Iranian oil super tanker VLCC Grace 1 and its captain and crew members including 24 Indians were released by Gibraltar authorities despite a last-minute claim on the vessel by the US Department of Justice. The Iranian tanker was held on suspicion of smuggling oil to Syria in breach of European Union sanctions. A total of 28 crew on board the vessel included majority Indians but also Russians, Latvians and Filipinos, who had spent over a month in detention on board the ship since it was seized in early July. European countries do not have sanctions against Iran but have had them in place against Iran’s ally Syria since 2011. Meanwhile, the United States has threatened a visa ban on the crew of a seized Iranian supertanker after failing to block its departure from Gibraltar. State Department spokeswoman Morgan Ortagus said, the Grace 1 was assisting Iran’s Revolutionary Guards, which the U.S. deems a terrorist organization, by transporting oil from Iran to Syria.
