YOGA made India “Proud of” in the world. It has contributed in keeping the human beings mentally & physically fit. Yoga is now internationally known and people, particularly in the western world, are keen to learn it. It is not that world was not knowing about it earlier but since last one decade with the efforts of our Prime Minister, Mr. Narendra Modi it had gained international fame.

During the lockdown period on account of corona virus disease it has become almost an integral part of our lives and helping us to keep ourselves fit mentally and physically. It is also contributing in making our lives stress free and strong and to some extent it has also relieving people who are suffering from mild depression etc. As social-distancing has reduced our physical movements, it is important to uplift vitality without having to step out of the comfort of your home. Yoga is a sustainable practice and a holistic health option that everyone can access.

WHAT IS YOGA?

“Yoga Is When Every Cell of the Body Sings the Songs of the Soul” - B.K.S Iyengar

So, how well do you really know Yoga? As the world gears up to celebrate the International Day of Yoga on 21st June, let us try and unravel the mysteries of the world of Yoga. Most people in this country believe that yoga is just postures which unfortunately are not true today.

The Sanskrit root yuj means to “bind,” or “join together.” Yoga means “Union” or “Oneness. In our experience when everything becomes one. At the deepest spiritual level, yoga allows us to reveal the Self, the True Essence of our Being. Yoga is a way of life, an art of righteous living or an integrated system for the benefit of the body, mind and inner spirit.

It concentrates on the emotional and psychological health of a patient along with his/her physical condition. ‘Asanas’(physical exercises) and ‘pranayama’ (breathing techniques), the integral parts of yoga, are performed in correlation with each other. Yoga today is considered far superior to all exercises, because in Yoga the emphasis is not just on exercises but on mind control and a balanced diet as well.

Yoga is no longer confined to the Ashram's of India. MDNIY is also active in India’s fight against coronavirus disease (Covid-19) along with Ministry of AYUSH, Government of India. The MDNIY has taken several initiatives like research in collaboration with the prestigious organizations and hospitals like Lady Hardinge Medical College (LHMC), All India Institute of Medical Sciences (AIIMS), National Institute of Immunology (NII), Delhi. Also, there are various yogic training programmes like “COVID warriors training”, “Stay home, stay fit with MDNIY- Practice Yoga at Home”, “Yoga at Home for active, fit and healthy you and Practice yoga at home” actively running online on digitalized platform by MDNIY.

The MDNIY is addressing Covid-19 pandemic problem through clinical studies for Yoga, with studying the impact of yoga interventions on people exposed to COVID-19 patients and yoga for rehabilitation of people recovered from COVID-19. The MDNIY has set up an interdisciplinary research and development task force with a group of experts to formulate and develop strategies for this initiative.

In this current pandemic situation people are more in stress and fear which is actually deteriorating their immune system. Yoga is a discipline based on an extremely subtle science, which focuses on bringing harmony between mind and body.

SKILLS REQUIRED

A good yoga teacher can help motivate one to health and healing, or even facilitate life changes. But what makes a great yoga teacher? It goes without saying we must all understand alignment, breath and asanas, but this doesn’t necessarily make a great yoga teacher. Apart from the academic qualifications, it is also necessary that you have some of the following skills which include:
• Good Communication Skills
• Interpersonal Skills
• Skills to motivate others to believe in yoga
• Strong Determination
• Have a will power to practice the most difficult “asanas” or yogic positions
• A deep desire to help people heal and grow.
• A long history of regular yoga practice. If we haven’t experienced it ourselves, it is difficult to teach it.
• Sensitivity to people’s energy. If we can learn to feel and notice what our students are going through, we can tailor our instruction to bring them to the best place for them that day.

On a professional level, one needs to specialize in: A career, as a yoga instructor allows an individual to express his or her creative spirit through yoga classes. A broad range of specializations in yoga have also come up, and an instructor can specialize in a niche area to offer focused expertise only in that area. Some of the popular categories include:
• Yoga exercises for physical fitness
• Spiritual Yoga Therapy
• Yoga especially designed for kids
• Yoga for the couples
• Corporate Yoga
• Pre-Natal and/or Post-Natal Yoga
• Private lessons of Yoga
• Retreats or workshops

Yoga teachers can expect to enjoy rapid career growth because an increasing number of people are willing to spend more time and money on the improvement of their physical and mental health.

DUTIES OF A YOGA INSTRUCTOR:
• Design courses & lesson plans
• Analyze the fitness level & requirements of all participants.
• Demonstrate and perform all yoga exercises to participants.
• Design safe and comprehensive yoga programs for various participants.
• Monitor participant performance and recommend different yoga exercise.

With so much of competition around, it is not easy to establish oneself and gain instant riches in this field. Becoming a yoga instructor is not as easy as it seems, as it requires a lot of patience, practice, perseverance and dedication. You need to be able to gauge the right regimen for your students depending on their need, age, lifestyle, body, and fitness.

Prime Minister Modi asserted that India always strives to reach out to its neighbouring countries in order to arrive at a common consensus. Meanwhile, External Affairs Minister S Jaishankar and the State Councillor and Foreign Minister of China had a phone conversation on recent developments in Ladakh on 18 June.

In response to a query on the statement by the Chinese side that the sovereignty of the Galwan valley area belongs to China, MEA Spokesperson Anurag Srivastava said, both sides have agreed that the overall situation should be handled in a responsible manner and that the understandings reached between Senior Com manders on 6th June should be implemented sincerely.
