K.P. Singh, Beena Singh, Rajat Bansal, Indrajeet Singh and Nikhilesh Hari

The Bastar district lies in natural forest area with various types of tribal communities. It is abundantly and richly endowed with forest resources (45-60%). The forests in this district can be divided into four belts, namely, Northern mixed forests, Central moist region comprising of Sal belts, teak belt zone and the dry region comprising of mixed forests. Out of these the major types of forests are Sal forests, teak forests and mixed forests. The major portion of the forest area is covered with Sal forest which mostly lies on the plateau. In the hilly region, Sal is confined to narrow valleys and on lower slopes. Podu cultivation by felling of forest is the general practice of the tribal population in the project area. Agricultural crops like Ragi, Sama, Paddy, Rajmash, Niger and other pulses are also raised in the area for one or two seasons. After cultivation of the above crops for one or two seasons the farmers move on to the nearest new forest areas since the soil becomes depleted and repeat the same process of destroying the forests. The practice of podu/shifting cultivation has caused denudation of forests, which is a serious threat to the ecology, resulting in soil erosion and silting of the river basins. Traditionally the tribal communities of the villages were not used to the cultivation of horticultural crops and all of them were engaged in agricultural crops cultivation. For livelihood people from the region used to migrate to neighbouring states like Telangana, Andhra Pradesh, Maharashtra and Kerala. Migration of labour is an important factor affecting the course of socio-economic development of any area. Employment is seen as the primary driver of migration, especially rural to urban migration. Employment generation is the most important indicator of development in any country. More the number of unemployed, more will be the burden on economy as the unemployed are fed by the employed.

Horticulture is one of the fastest growing sectors in India and contributes immensely in poverty eradication and nutritional security of the population. This sector has immense scope to increase income and employment and helps in sustaining large number of industries. Horticultural crops play a unique role in

**FOREST MANAGEMENT AS A CAREER**

Nidhi Prasad

Forest management is an important discipline. With the advancement of technology, there is a need to relook at the area keeping in view the challenges we are facing in connection with our environment. With the development of technology the life has become very comfortable but somewhere it has also threatened the very existence of human life.

As you know that forests are called the lungs of the environment! They are a factory of oxygen and various other very important natural resources.

Forest is a natural system. Forest management is a branch of forestry and is a process in which forests are tended, harvested and regenerated with overall administration that includes legal, economic, and social aspects.

In simple words, Forest Management is the development and implementation of a plan integrating all of the techniques, practices and principles required to take care of the forests. It is the science and craft of creating, managing, using, conserving and repairing forests and associated resources for human and environmental benefits.

**HOW TO PURSUE A CAREER IN FOREST MANAGEMENT?**

Many colleges and universities in the country offer undergraduate and postgraduate courses in forestry by way of B.Sc. (Forestry) and M.Sc. (Forestry) respectively. A student must have passed Higher Secondary (class XII) in Science stream with Physics, Chemistry and Biology (PCB) as compulsory subjects. This makes you eligible to apply for a B.Sc. in Forestry. If you want to dive deeper into this field, you can go for an M.Sc. in Forestry which is a two-year program. Most of the agricultural institutes and universities are offering these courses.

For a master’s degree in forestry, graduates in Science with subjects of Physics, Chemistry and Biology or Agriculture! Horticulture! Forestry are considered eligible. The specializations offered here are Forest Management, Forest Products, Wildlife Science, Forest Economics, Commercial Forestry, Agro-forestry to name a few. You can further study and apply for M.Phil./Ph.D in this field to become a scholar and open more doors for oneself.

Most of the institutes/ universities have a general course in forestry. However, some of these offer courses with specialization in particular branches in forestry. Topics covered under a forestry course include plantation forestry, social forestry, agro-forestry, ecology, biodiversity, tree improvement, forest hydrology and watershed management, wood science and technology, forest goods and

Continued on page 22
the Indian economy by improving the income of the farmers. Cultivation of these crops is labour intensive and lot of employment is generated for the rural people. Growing of high value crops on big scale not only conserves the resources but also makes the farmers prosperous. Thus, resource conservation also gives rise to more productivity and growth which ultimately results in employment generation.

The justification for encouraging Coffee Plantations in the land of tribals is based primarily on livelihood and economic sustainability. It would therefore be useful to analyze the relative returns which are likely to accrue to the farmers on taking up various crops. Through Coffee Plantation the farmers will be capable of generating returns which would be higher than the returns from other dry land agriculture crops. Coffee is mainly cultivated in deep fertile jungle soils under a two tier mixed shade canopy comprising of evergreen leguminous and non-leguminous shade plants. When growing under shade it has several advantages. Shade plants provide a natural habitat for vast population of birds and natural enemies of insect pests/diseases that helps in reducing the soil erosion, contribute towards the fertility of coffee soils by recycling nutrients from deep soil in the form of leaf litter and finally protect the coffee bushes from vagaries of changing weather conditions.

The soil and climatic conditions of Bastar are quite similar to the southern states of country where coffee is cultivated in large areas. The land forms and climatic factors of Bastar confirm that it satisfies the climatic requirements for coffee cultivation. The forest soils are rich in nutrients. It ranges from shallow to deep, friable with pH form 4.5 to 7.0 and lies at an elevation of 500 to 1276 meters above mean sea level. Rainfall ranges from 1300-1800 mm with frequent showers during summer season. The present study is being undertaken under the Darbha block of Bastar. It is located at 18°52’ N 81°55’E and at elevation of 678m above MSL. The area of orchard is 20 acres. It is a mixed forest area where plantation of mango, silver oak and jackfruit is also done to provide additional shade.

This is the foremost attempt that has been made to commercialize the production of coffee in Bastar. The work was started in the year 2017-18 under the funding agency District Mineral Foundation Trust (DMFT scheme). The economic prospect and commercial benefits of coffee is now attracting rural people toward its production. Keeping in view of the economic upliftment of farmers and to increase their standards of living, the development of Coffee plantation project was initiated in barren lands. It is also a measure to increase the forest cover and to provide ecological and environmental balance in the tribalfinity areas.

The Coffee Plantations in the lands of tribals has been found to provide sustainable income to the tribal farmers and the cultivation of coffee would provide relatively better income to the farmers than other crops.

**Objective of project**

- To introduce and evaluate the new crop model (including Coffee) in non-traditional areas.
- To address deforestation issues utilizing the barren lands and to minimize laborers migration from remote villages of Bastar.
- To generate employment and livelihood security to the tribal farmers through coffee production and multi crop intercropping round the year.
- To establish marketing linkages of processed coffee among SHGs & National agencies.

The seeds of coffee varieties have been procured from the Regional Coffee Centre, Koraput, Odisha. The growth of plants is in a fine condition and most of them are already started in their bearing stage. The yield will be recorded from the present year onwards the evaluation of its quality. Other crops like groundnut, arhar and toria has been also been grown to combat initial income as well as to utilize the available resources and time of farmers. The details of the varieties grown in Darbha are as follows:

**Arabica varieties**

1. San Ramon: alternate bearing habit with an yield potential of 10 to 15 q / ha
2. Chandragiri: Yield potential of 15 to 18 q / ha
3. Selection-8: Moderate yielder of around 12 q / ha
4. Selection-9: Yield potential of 13 to 17 q / ha

**Robusta variety**

1. CxR has an yield potential of 20 to 22 q/h under irrigated condition while in the rainfed conditions, it yields around 10 to 15 q / ha
2. There is an immense scope for larger scale production of Coffee, particularly Robusta type in Bastar Plateau. Intercropping with black pepper, custard apple, cinnamon, clove and nutmeg is also feasible.

**Implementing an innovative project to meet tribal farmer’s requirement**

I. **Model-I:** Intensive coffee plantation involving set of recommended varieties to the maximum crop intensity. Under this model a set of four varieties of Coffee arabica (viz. Sam Ramon, S-8, S-9 and Chandragiri dwarf) and C. robusta (viz. CxR) were planted and evaluated for yield and its attributes. Out of these the cv. Chandragiri dwarf and CxR are found to thrive well in the targeted area. Farmer’s perception has also noticed to be high for these varieties. It is important to mention here that few farmers of Odisha in the adjoining places of Bastar are harvesting coffee with an yield in the range of 9-10 q/ha (Chandragiri variety and Selection 9).

II. **Model-II:** Intensifying the different intercrops of fruit/ shade trees like silver oak, mango, jackfruit, custard apple, guava and other dry land fruit species to utilize coffee plantation interspaces. Under this model the intercropping of above mentioned fruit and spices plants have already been planted and their continuance is under progress.

III. **Model-III:** Utilizing further left out interspaces/ canopy spaces in coffee plantation through various intercrops viz. black pepper pulses, oilseeds, leafy vegetables etc. Under this model intercrops like groundnut, horse gram, toria has been targeted for generating income during lean period as a further supplement of money to the farmers for growing next crops.

IV. **Model-IV:** Introducing processed products like filter coffee, green coffee as well as branding of the same and other intercrop produces. Under this model raw produce is being processed locally through SHGs and is being marketed by the brand name of Bastar Coffee.

**Bringing perceptible improvements in project**

- I. Through coffee cultivation the farmers of the area can fetch an amount of around Rs. 15000 - 20000 per acre (after 4th year of crop) even from the non-productive barren lands. Further an additional income of about Rs. 15000 per acre (after 4th year of crop) could be generated through various fruits and spices intercrops and Rs. 10000 per acre (from 1st year) from various intercrops grown in the initial stages of intervention which may enhance during later years. Thereby a total of Rs. 45000 per acre net income is targeted.
- II. Deforestation issues could be entirely resolved and the farmers are much convinced for getting year round employment as well as income generation.
- III. Utilization of van adhikar patt lands through recommended modern cultivation practices of coffee. Further, the community mode farming in such tribal and hilly villages can be promoted in near future for the left out communities.
- IV. Availability of sufficient skilled manpower for labour intensive operations like manual weeding, shade regulation and soil conservation measures and the like gives year round employment and livelihood sustainability to the tribals.

V. The horticultural practices followed in the Indian coffee plantations are considered as one of the best in the world, in which emphasis is mainly towards manipulation of microclimate and plant health, so as to reduce excessive dependence on agrochemicals. It is one of the best cropping models that meets the aforesaid techniques too. New site: Popularizing non-traditional crops like coffee and black pepper is evolving high level of interest among the tribal farmers. This is one of the reasons owing to which a group of 48 farmers (including women farmers as well) are...

For further details regarding eligibility, qualification, category of posts and other criteria for selection please visit the institute website www.nitj.ac.in. Last date of submission of online application is 30.11.2020.

New Delhi Municipal Council
Palika Kendra: New Delhi
Civil Engineer Establishment-II

Subject: Filling up the post of Chief Engineer (Civil) in the pay scale of Rs. 1,31,100-2,16,600 level 13A in revised 7th CPC pay matrix.

The New Delhi Municipal Council proposes to fill up a post of Chief Engineer (Civil) on deputation basis. The pay scale, educational qualification, eligibility criteria etc. of the post is as per the extant Recruitment Rules as below:

A. Pay Scale: Rs. 1,31,100-2,16,600 level 13A in revised 7th CPC pay matrix.

B. Eligibility: Officers under the Central/States Govts./UTs/Universities/Recognized Research Institutions/Public Sector Undertakings/Semi-Govt./Autonomous or Statutory Organizations:

(i) Holding analogous posts on regular basis; or
(ii) With 02 years regular service in posts in the scale of Rs. 1,19,500-2,14,100 level 13 in 7th CPC pay matrix or equivalent; or
(iii) With 07 years regular service in posts in the scale of Rs. 70,800-2,09,600 level 12 in 7th CPC pay matrix.

(b) Possessing a degree in Civil Engineering from a recognized university or equivalent with 14 years experience in Civil Engineering works.

(The departmental Officers in the feeder category who are in the direct line of promotion shall not be eligible for consideration for appointment on deputation. Similarly, deputationist shall not be eligible for consideration for an appointment by promotion).

The New Delhi Municipal Council proposes to fill up the post of Chief Engineer (Civil) in the pay scale of Rs. 1,31,100-2,16,600 level 13A in revised 7th CPC pay matrix.

C. Tenure: For a period of three years extendable as per policy of the govt. in vogue. As per consolidated instructions on deputation issued by DoPT vide O.M. dated 17.06.2010, a person drawing salary in higher grade cannot be appointed on deputation basis in the lower post.

2. Names of eligible & willing officers fulfilling the above criteria may be sent along with the following document to Director (Personnel), Room No. 2516, Palika Kendra, Sansad Marg, New Delhi-110001:

i. Bio data in the prescribed Proforma:

ii. ACRs for the last 05 years; and

iii. Latest vigilance/cadre clearance

3. The application along with the above said documents should reach this office latest by 05.12.2020. Applications not sent through proper channel and/or without the above said documents are liable to be rejected.

VACANCY CIRCULAR

Member (Law), Joint Electricity Regulatory Commission (JERC)
for Manipur and Mizoram

Pursuant to the Memorandum of Agreement (MoA) signed among the Government of India and the State Governments of Manipur & Mizoram, the Joint Electricity Regulatory Commission (JERC) for Manipur & Mizoram was set up by the Government of India under the provisions of the Electricity Act, 2003. The Commission is located at Aizawl. The JERC is a two member Commission, each member representing the respective participating State. The Chairperson of the JERC is appointed on rotation for one year from the members.

1. The post of Member representing Manipur in the JERC is due to fall vacant on 24.1.2021. It is proposed to fill up the vacancy.
2. Appointment to the post of Member is governed by the relevant provisions of the Electricity Act, the MoA and the Joint Electricity Regulatory Commission for the States of Manipur & Mizoram (Salaries, Allowances and other Conditions of Service of Chairperson and Member) Rules, 2006. The Pay of the Member has been revised to Rs. 67000-(annual increment @ 3%)-79000 without any grade pay (HAG scale). Further revision of pay subsequent to the 7th Central Pay Commission is yet to be made.
3. Relevant extracts of the Electricity Act prescribes the qualification for appointment of a Member i.e. “...the Members of the State Commission shall be persons of ability, integrity and standing who have adequate knowledge of and have shown in, dealing with problems relating to engineering, finance, commerce, economics, law, or management.”
4. Hon’ble Supreme Court pronounced its judgement on 12.4.2018 in the Civil Appeal No. 14697 of 2015 - State of Gujarat & Others vs. Utility Users’ Welfare Association & Others. As per the above judgment of the Supreme Court, it is mandatory that there is a member from the Legislature, who is person who is or has been holding a judicial office or is a person possessing professional qualifications with substantial experience in the practice of law, who has the requisite qualifications to have been appointed as a Judge of the High Court or a District Judge. Hence, this vacancy shall be filled up from a person of law having qualification as mentioned in apex court judgment dated 12.4.2018.
5. The Member of JERC for Manipur & Mizoram shall hold office for a term of five years from the date on which he/she enters upon his/her office or till he/she attains the age of sixty-five years, whichever is earlier. The candidate will have to give a declaration that he/she does not have any financial or other interest, which is likely to affect prejudicially his/her function as Member of the above JERC.
6. Relevant extracts of the Electricity Act, 2003 relating to the requirement of qualification, experience, etc. for Member, JERC for Manipur & Mizoram and Hon’ble Supreme Court Judgment dated 12.4.2018 relating to the requirement of qualification, experience, etc; for Member (Law) and a copy of Joint Electricity Regulatory Commission for the States of Manipur & Mizoram (Salaries, Allowances and other Conditions of Service of Chairperson and Members) Rules, 2006 are attached in the vacancy circular dated 22.9.2020 available at website of Ministry of Power i.e. https://powermin.nic.in.

Applications/ nominations are invited in the proforma given at Annexure, from suitable persons having qualification and experience as mentioned in para 5 above for appointment as Member (Law), JERC for Manipur & Mizoram so as to reach the Joint Electricity Regulatory Commission, Government of Mizoram, Old Secretariat Building Annexaxe-2, Aizawl-796001 (Tel : 0389-2333285) within six weeks from the date of publication of this circular in the Employment News. The same may also be emailed at jssecypower@gmail.com.

Under Secretary to the Government of India
Tel : 011-23730265

FOREST MANAGEMENT ...
Continued from page 1

services, forest resource management, seed technology, rangeland and pasture management, economics of forestry system, regional and global climate changes, forest geoinformatics, wildlife conservation and ecotourism etc.

Indian Institute of Forest Management (IIFM) at Bhopal is a very well-known for its Postgraduate Diploma in Forest Management equivalent to MBA. It has also launched Postgraduate Diploma in Sustainability Management. The institute is recognized as a research centre for pursuing doctoral research of the Forest Research Institute, Dehradun. Some of the organizations which have recruited candidates from this reputed institute are-

The Nature Conservancy, Water Aid, World Wildlife Fund, United Nations Development Programme (UNDP), Grameen Foundation India. The Energy and Research Institute, Swades Foundation, Technoserve, Periyaar Tiger Reserve, Jaijaur Rugs, etc. Those holding a postgraduate qualification in management with specialization in Agri-Business, Rural Management, and Rural Development may also find managerial careers in a forestry related enterprise.

Apart from this, there are certain certifications and diploma courses which one can do. These are Certificate Course in Wildlife Management, Diploma in Zoo and Wild Animals Health Care Management or Post Graduate Diploma in Forest Management (PGDFM).

SKILLS AND APTITUDE

- Physical fitness
- Keen to take up challenges & adventure
- Managerial capabilities
- Active listener
- A genuine interest in the preservation of the natural environment and habitat
- Mapping of the forest
- Decision-making skills
- Meticulous and curious nature with observation skills
- Strong people skills
- Communication skills
- Ability to analyze data
- Inclination for research and academic bent of mind

WORK DESCRIPTION

- Manage forested lands for economic, recreational, and conservation purposes.
- Train and lead forest and conservation workers in seasonal activities, such as planting tree seedlings, putting out forest fires, and maintaining recreational facilities.
- Train personnel in technical or scientific procedures.
- Survey, measure, and map access roads and forest areas such as burns, cut-over areas, experimental plots, and timber sales sections.
- Survey land or properties.
- Prepare maps.
- Select and mark trees for thinning or logging, drawing detailed plans that include access roads.
- Provide information about, and enforce, regulations such as those concerning environmental protection, resource utilization, fire safety and accident prevention.
- Supervise forest nursery operations, timber harvesting, land use activities such as livestock grazing, and disease or insect control programs.
- Manage agricultural or forestry operations.
- Monitor activities of logging companies and contractors.
- Plan and supervise construction of access routes and forest roads.
- Provide forestry education and general information, advice, and recommendations to woodlot owners, community organizations, and the general public.
- Advise others about environmental management or conservation.
- Perform reforestation or forest renewal, including nursery and silviculture operations, site preparation, seeding and tree planting programs, cone collection, and tree improvement.
- Issue fire permits, timber permits, and other forest use licenses.
- Provide technical support to forestry research programs in areas such as tree improvement, seed orchard operations, insect and disease surveys, or experimental forestry and forest engineering research.
- Devise plans for planting and growing new trees, monitor trees for healthy growth, and determine the best time for harvesting.
- Develop forest management plans for public and privately-owned forested lands.

CAREER OPPORTUNITIES IN FOREST MANAGEMENT

Forestry experts are in every sector of employment, but there are some areas where these professionals are in much higher demand. There is a great need for those who have the breadth of knowledge and skills gained during their pursuit of a forestry degree. Some of the popular sectors are-

1. CONSERVATION

Keeping forests robust and healthy for our social enjoyment is always a worthy pursuit, but conservation means much more than that. It means enough trees to sustain our way of life for future generations, using those trees to battle soil erosion and climate change, and preserving green spaces for the wildlife that need those trees as their habitat. Those who work in forestry tend to be conservationists at heart and will take care of forests in ways that keep them thriving.

2. SAFETY & ENFORCEMENT

Forestry experts can help with everything from keeping trails safe and neat to fighting the fires that rage through woodland areas and helping ensure proper tree planting to prevent widespread erosion. Forestry professionals do everything from hands-on work that keeps individuals safe in recreational areas to enforcing strict regulations on logging and farming operations.

3. EARTH SCIENCES

When it comes to how we interact with the earth, forests play a vital role. Trees remove a quarter of the CO₂ humans add to the atmosphere, provide high levels of bioenergy, cool the air around them, and lead to more rainfall. They provide valuable protections for watersheds across the world, through which billions of people find their drinking water. Forests can prevent wide-scale erosion, which protects homes and businesses. Trees can also help change the soil over time, creating something richer, more mature, and perfect for farming. Forestry experts can find all sorts of ways to dive into these issues and make science their life's work.

4. TRANSPORTATION, INFRASTRUCTURE, SUPPLY CHAIN & LOGISTICS

Forests and the trees in them create many much-needed products, from paper products of all kinds to timber to build homes to the use of leaves in medical and personal care formulations. Forestry experts can help with all aspects of creating these items, from figuring out how to transport felled trees to keeping enough sustainable forests growing to maintain the supply chain, to looking at logistical concerns that will keep those products moving even as new seedlings begin to grow in places where the original trees were used for industry.

5. EDUCATION

The world of education needs forests for the most basic elements of teaching including paper, pencils, thousands of lessons in biology, a deeper understanding of rain cycles and soil conservation, and so much more. Forestry experts bring this kind of education to the public every day, teaching the young and old how to live in harmony with the natural world around them. Working in forestry education might take a person from the classroom to the forest, where they have the opportunity to impart knowledge and hope that will trickle down through generations of learners.

6. LAW & POLICY

Forestry law is a type of environmental law that focuses on the regulations, rules, and sustainable activities that define the health of a forest for years to come. Experts in forestry law might fight to keep illegal things from happening, like logging or clear-cutting on protected land, seek ways to preserve forested areas, and help create the policy that protects the environment. This might include earning a degree in forestry and then going on to law school, or alternatively, working for years to gain the knowledge to become a forestry consultant for law firms and environmental think-tanks.

7. MANUFACTURING

Forest industry companies are looking to smart manufacturing to help them create their products in ways that don't disturb the ecosystem of a forest any more than necessary to extract the materials they need. Forestry experts who focus on these manufacturing technologies can help create a new way of looking at sustainable growth in forested areas that are used for logging and can work with companies to implement those strategies in a more timely, efficient, and cost-effective manner.

Plethora of career opportunities is available in public as well as in private sector. The public sector jobs include work in:

- Zoological parks
- Wildlife ranges
- Corporate having their own plantations for timbering
- Wildlife research institutes
- Indian Council of Forestry Research and Education (ICFRE) and its affiliated institutes
- Wildlife department
- Forest department
- National parks & sanctuaries
- Forest nurseries.

Those holding bachelor's degree in forestry can apply for the Central government through the Indian Forest Service (IFS) examination conducted by the Union Public Service Commission. There are opportunities galore for post graduates from recognised institutes who can easily get a job with many national and international organisations, NGOs, consulting firms and IT companies, natural resource management organisations and financial institutions.

Apart from the Indian Forest Service, other sectors where forest experts are employed include the paper and pulp industry, the plantation industry, companies engaged in manufacturing forest products, silviculture, social forestry, wasteland development, forest products, silviculture, social forestry, wasteland development, and environment sector etc. There are several on-going, international forestry and Natural Resource Management (NRM) projects.

Fresh forest managers can look forward to good placements in International organisations like International Union for Conservation of Nature & Natural Resources, WWF, IUCN and agencies engaged in bilateral projects hire consultants and advisors offering plum posts for candidates with talent and grassroots experience.

The demand for professionals in forest management is tremendous and every state has its own forest management cell to counter the problem of dwindling forest cover. Forest managers in India have to walk the tight rope in trying to tackle problems like illicit felling, poaching, human interference, and rampant encroachment. Moreover unlike other sectors like Info Tech, this sector is largely immune to market volatility, and thus, provides substantial job security and satisfaction.

New disciplines like adventure eco-tourism and social forestry are also areas that you could branch out to. Your job profile will also require that you use your marketing skills to sell forest produce.

about to commence the cultivation of coffee on the village Dimaji having an area of around 100 acres of land in community mode. The proposal was submitted by the College of Horticulture and Research Station, Jagdalpur, IGKV, Rajpur that has already been approved and sanctioned by the district authority under DMFT and MGNREGA schemes. The coffee plantation with feasible intercropping models will be undertaken in the new area as well. Raising different crops altogether will act as a source of incentive to the farmers. This in turn would motivate other farmers too to come forward under the community cultivation. Through this project more than 100 job card holders of Koyamati village will be working per day around the entire project tenure of 04 years. The farmers will be able to earn approximately Rs. 30,000/ per family per year thereby employment generation as well as livelihood sustainability for the rural population will be developed through the commencement of this Project.

**Impact of the project**

- Afforestation and maintenance of ecological balance.
- Employment generation and non-migration of tribal farmers.
- Permanent settlement of tribal families and improvement of their socio economic standards so as to ensure social stability and economic security.
- Effective soil conservation.
- Conversion of waste lands into productive lands.
- Creation of subsidizing industries, market centers, which would generate additional employment opportunities, resulting automatic development of infrastructure.
- Additional annual revenue to the State/Central Government through taxes.

**RURAL EMPLOYMENT GENERATION IN TRIBAL COMMUNITY**

**Academics:** For an academic career you may join an agricultural university/college where forestry and related subjects are taught. For the purpose you have to meet the requirements of Universities Grants Commission.

**Research:** There is ample scope of research in various disciplines of forestry. Research can be pursued at universities, forestry institutes and specialised research agencies established by government bodies. Research can be followed after post-graduation in forestry and allied subjects.

**THE UNIVERSITIES/COLLEGES THAT OFFERS FOREST COURSES IN INDIA ARE:**

- Indian Institute of Forest Management, Bhopal
- Forest Research Institute University, Dehra Dun
- Dr. Yashwant Singh Parmar University of Horticulture and Forestry, Himachal Pradesh
- Wildlife Institute of India, Dehradun
- Dr. B.R. Ambedkar University, Uttar Pradesh
- GB. Pant University of Agriculture and Technology
- Arid Forest Research Institute, Jodhpur
- Tropical Forest Research Institute, Jabalpur
- Institute of Forest Genetics and Tree Breeding, Coimbatore

**Forest Research Institute University, Dehra Dun**

Therefore, Forest Management is the way that forests and the trees within them are protected and used to provide forest products and other benefits. Thus, with 31% of our planet covered in forest, we need trained professionals to preserve and protect them. But growing populations are putting pressure on forests, and global warming is making trees more vulnerable to fire, clear cutting, and erosion. This means an increased need for soil scientists, fire ecologists, and other forestry professionals to enter the workforce.

"Earth provides enough to satisfy every man's needs, but not every man's greed." - Mahatma Gandhi

**FOREST MANAGEMENT & TRAINING**

Subject:- Filling up of one faculty post of Joint Director (Management Service) on deputation basis in the Institute of Secretariat Training & Management, New Delhi

Anita Bilung, Under Secretary (Training), Training Division, Block-IV, 3rd Floor, JNU (OLD) Campus, New Delhi-110067 within a period of 60 days from the date of publication of this advertisement in the Employment News/ Rozgar Samachar.
**NATIONAL**

**Over 54% votes polled in first phase of Bihar assembly elections**

An estimated 54.53 per cent of voters exercised their franchise on 28th October in the 1st Phase of elections in 71 Assembly constituencies spread across 16 districts. Chief Electoral Officer H.R. Srinivasan said, a maximum of 62.50 per cent voting was recorded in Dhauraiya constituency, followed by 60.97 in Banka and 60.84 in Katoria assembly constituency. Out of 71 constituencies, 35 were in Naxal-affected areas, 30 were not Naxal-affected with no reported incident so far. In most of the Naxal-affected areas, polling percentage is more than recorded in the previous Assembly elections.

**Self-reliant India, a force multiplier for world economy**

Prime Minister Narendra Modi has said that a self-reliant India will be a force multiplier for the world economy. Inaugurating the Fourth India Energy Forum, he said, India’s energy will energize the world. Mr. Modi said energy security is at the core of our efforts and country’s energy future is bright and secure. Prime Minister said, India’s energy sector will be growth centric, industry friendly and environment conscious. Mr. Modi said, India believes that access to energy must be affordable and reliable that is when socio-economic transformations can take place. He said, India is among the most active nations in furthering renewable sources of energy. Prime Minister said, we have aimed to increase the renewable energy installed capacity by 175 Giga Watt by 2022 and we have further extended this goal to 450 Giga Watt by 2030. He said, India has one of the lowest carbon emissions than rest of the industrialized worlds. The government has planned to achieve One Nation, One Gas Grid and shift towards a gas-based economy. The Prime Minister said, India will work towards meeting all our major goals and we are well on track to meet the commitment we made to the global community.

**Centre to leave no stone unturned to strengthen Armed Forces**

Defence Minister Rajnath Singh has said that the government is committed to facilitate the Army in their forward movement on the road to reforms and will help them in achieving advantages in all areas. Addressing the Army Commanders’ Conference in New Delhi on 28th October, he said, the initiatives undertaken by the Indian Army in the current security environment makes him proud. Mr. Singh asserted that the government will leave no stone unturned to strengthen the Armed Forces. He said, the Indian Army has been successful in addressing several challenges to the security and sovereignty of the country since Independence. The Defence Minister further said that the Army played a significant role in neutralising threats of terror, insurgency or external attacks.

**Feni bridge connecting India and Bangladesh to be completed by December**

The 1.8 kilometer long Feni bridge connecting Sabrum in India with Rangam in Bangladesh will be completed by December this year. This was announced by the Road Transport, Highways and MSMEs Minister Nitin Gadkari while laying the foundation stone of nine National Highways in Tripura. Mr Gadkari said that the Feni bridge being built at the cost of Rs. 129 crore will ease the transportation of goods from Chattogram and Kolkata ports. An integrated check post is also proposed to be built near Sabrum. He said the construction of the RCC bridge over Feni will improve connectivity to the international border with Bangladesh. Describing Tripura as the gateway of the ‘Act East Policy’, Union Minister of State for Development of North Eastern Region (DONER) Dr. Jitendra Singh said that very soon a train to Bangladesh from Tripura will start. It will herald the entire region access to the seaports.

**Growing energy sector opens up opportunities to investors**

Prime Minister Narendra Modi has invited the global industry to become partners in India’s progress and shared prosperity by enhancing India’s production of all forms of energy. Interacting with CEOs of leading oil and gas companies in the annual event organized by NITI Aayog and Ministry of Petroleum and Natural Gas on 28th October, Mr Modi said, India’s rapidly growing energy sector presents tremendous opportunities to investors. During the interaction, Prime Minister highlighted that energy is at the centre of human development, which is why conversations around the energy sector are important. He said that at the core of the government’s policy is providing equitable access of clean, affordable and sustainable energy to all Indians for which the country has adopted the measured approach. He said, India now allows 100 per cent FDI in exploration and production projects, and has permitted 49 per cent FDI in public sector refining under the automatic route. He said, these reforms are translating into increased FDI flow in the sector.

**RBI asks lending institutions to credit interest on loans**

The Reserve Bank has asked all lending institutions to credit the interest waiver on loans uponto two crore rupees for the six months moratorium period beginning March 1, 2020. The government had announced the waiver of interest on account of reduced gap of ex-gratia payment of difference between compound interest and simple interest for six months to borrowers in specified loan accounts. Under the scheme, the lending institutions have been mandated to grant ex-gratia payment to certain categories of borrowers through crediting the difference between simple interest and compound interest for the period between March 1, 2020 and August 31, 2020.

**Tax refunds to more than 39 lakh taxpayers**

The Central Board of Direct Taxes has issued refunds of over Rs. 1.26,909 crore to more than 39 lakh taxpayers between 1st April to 27th October this year. In a tweet, the CBDT said, Income tax refunds of Rs. 34,532 crore have been issued in over 37 lakh 21 thousand cases and corporate tax refunds of Rs. 92,376 crore have been issued in over one lakh 92 thousand cases.

**Armenia, Azerbaijan accuse each other of violating US supported ceasefire**

Armenia and Azerbaijan accused each other of violating a new US supported ceasefire in fighting over the mountain enclave of Nagorno-Karabakh. The latest developments raised doubts about the prospects of the new international push to end a month of clashes. The latest ceasefire was agreed after separate talks in Washington between US Secretary of State Mike Pompeo and the foreign ministers of Armenia and Azerbaijan. Representatives of the Organization for Security and Co-operation in Europe (OSCE) Minsk Group led by France, Russia and the United States, also participated in the talks.

**Japan to achieve zero carbon emissions by 2050**

Japanese Prime Minister Yoshihide Suga has said that the country will achieve zero carbon emissions by 2050. Mr. Suga announced this in his policy speech at first parliamentary session since he took office last month. The Prime Minister said, he intends to make a sustainable economy a pillar of his growth strategy and put maximum effort into achieving a green society. Mr. Suga emphasized the need to shift away from fossil fuels to counter climate change as an opportunity rather than a burden. As per Japan’s current energy plan, 56 per cent of its energy requirements come from fossil fuels.

**BCCI announces Indian squads for upcoming tour of Australia**

The BCCI has announced the Indian squads for the upcoming tour of Australia, the team’s first international outing since the COVID-19 lockdown forced the home series against South Africa to be called off mid-way. According to the BCCI release, the Selection Committee met via video-conference to pick the player. India is playing three T-20is, three ODIs and four Test matches against Australia. One big omission from all the three squads is Rohit Sharma who is currently sitting out of Mumbai Indians’ games due to an injury. The BCCI said, they are continuing to monitor his and Ishant Sharma’s progress. Apart from the squads, four additional bowlers have been named to travel with the contingent. They are Kamlesh Nagarkoti, Karthik Tyagi, Ishan Porel and T. Natarajan.
