Recent statistics reveal that wildlife safaris, attraction during wildlife expedition of wild animals form major tourist interest. Unique landscapes and frequent sightings of protected areas of the country. Species and arrival of winter migratory like pandas etc. Also the presence of bird species and arrival of winter migratory birds attract the tourists to stay connected with protected areas of the country. Unique landscapes and frequent sightings of wild animals form major tourist attraction during wildlife expedition. Recent statistics reveal that wildlife safaris in Indian forests account for one third of the tourism sector. By protecting rhinos, we’re also supporting local communities. In India, the One-horned Rhinoceros are found in three States of Assam, Uttar Pradesh and West Bengal. The Government of India launched the “National Conservation Strategy for the Indian One-Horned Rhinoceros” in the year 2019.

The Minister of State for Environment, Forest & Climate, Government of India, Shri Babul Supriyo recently launched the Indian Rhino Vision (IRV) 2020 programme aimed to protect the existing rhino population and also to increase the distribution of the species in the country. The Minister addressed senior officials of the Ministry, State Forest Departments and other organizations such as Central Zoo Authority, WWF-India, Aaranayak, and UNDP through virtual platforms on the World Rhino Day, 2020. In his address, the minister said, timely efforts and stringent protection and management by the Governments of India and the State Governments have revived the population of Rhinos in the country. The population of Greater One-horned Rhinoceros reached to the brink of extinction by the end of the 20th century with fewer than 200 animals in wild. Approximately 75% of the entire population of Greater One-horned Rhinoceros is found in three States of Assam, Uttar Pradesh and West Bengal.

Tourists seeing Greater- one horned Rhino in Kaziranga National Park, Assam (Picture: Dr. Ritesh Joshi)

Kanchan Puri & Dr. Ritesh Joshi

The greater one- horned rhino, with its single black horn, is a rhinoceros species native to the Indian subcontinent. Its population is fragmented and geographically restricted and is considered a vulnerable species.

Rhinoceros contribute to economic growth through the tourism industry. Ecotourism can be an important source of income for local people. In India, wildlife tourism is increasing mainly because of the presence of rare species in forests like Bengal Tigers, Asian Elephants, Asian one horned rhinoceros, Asiatic lions, red panda etc. Also the presence of bird species and arrival of winter migratory birds attract the tourists to stay connected with protected areas of the country. Unique landscapes and frequent sightings of wild animals form major tourist attraction during wildlife expedition. Recent statistics reveal that wildlife safaris

What is Digital Learning?
Digital learning is any type of learning that includes using digital technology. That includes students taking courses online, but it also includes students doing internet research or watching online videos in a classroom and teachers using digital tools like smart boards and tablets.

Online Learning
This is another broad term, but slightly narrower than digital learning. It means that the

Digital Learning - Rapid Emergence

Nidhi Prasad
Technology will not replace great teachers but technology in the hands of great teachers can be transformational. - George Couros

Digital Learning is not a new term. It is in common use from couple of years since various sectors like banking, tourism, railways etc. and masses are getting attracted. It started being used slowly by adults but the young generation is adopting it rapidly. Recently, during lockdown due to Corona virus it has become the necessity. Education sector has been impacted by COVID-19 drastically, among others. Now the circumstances have forced almost all the section of the society to use it. Its use has become essential. It has forced not only the universities but also schools across India, indeed the world to suspend physical classroom and shift to the online classes.

With this sudden shift away from the classroom in many parts of the globe, some are wondering whether the adoption of online learning will continue to persist post-pandemic, and how such a shift would impact the worldwide education market.

Even Pre - COVID-19 Era, there was already high growth and adoption in education technology, with global Ed-tech investments. Whether it is language apps, virtual tutoring, video conferencing tools, or online learning software, there has been a significant surge in usage since COVID-19. In India, while this transition has been smooth for most private universities, the public ones are still adapting. There have also been debates on the nature of classes and the future of examination and evaluation- whether they could be conducted online or not.

The Difference?

This is another broad term, but slightly narrower than digital learning. It means that the Continued on page 2
DIGITAL LEARNING: RAPID EMERGENCE

WWW.JOBRIYA.IN

Continued from page 1

majority of the coursework will be done through the internet - through forums, shared documents, email, chat, etc. However, it doesn’t imply that there is no face-to-face interaction between students and the teacher. It can include doing coursework in a classroom or at a distance, so long as communication is primarily online.

E-Learning

Also called “Virtual learning,” E-learning generally refers to a course taken entirely over the internet. The teacher and students do not meet face to face. All course work and communication is handled via email, forums, chat or video conferencing. Some institutions refer to this type of course as a “fully online” course.

DIGITAL LEARNING AND EDUCATION

Someone has rightly stated that learning should never stop even at the time of crisis.

Online education is conducted in two ways. The first is through the use of recorded classes, which, when opened out to public, are referred to as Massive Open Online Course (MOOCs). The second one is via live online classes conducted as webinars, or zoom sessions. For this Teacher, Students also need high-speed internet and computers/ mobiles to attend these sessions or watch pre-recorded classes.

There are many platforms created to enable online education in India. These are supported by the Ministry of Human Resource Development (MHRD), the National Council of Educational Research and Training (NCERT), and the department of technical education. There also are initiatives like e-PG Pathshala (e-content), SWAYAM (online courses for teachers), and NEAT (enhancing employability). Other online platforms aim to increase connectivity with institutions, and accessibility to content. These are utilised for course materials and classes, and running of online modules.

Most educators across institutions agree that there is a need to invest in creating standardised online education platforms, and not using apps and Google hangouts only; and to train both students and teachers. Others highlight the necessity to introspect on the nature of these platforms and how students are taught using different online tools and methods, while keeping accessibility and equity challenges in mind. There is also the need to understand all this across academic disciplines and institutions.

In response to significant demand, many online learning platforms are offering free access to their services, including platforms like BYJUS, is an educational technology and online tutoring firm founded in 2011, which is now the world’s most highly valued Ed-tech company. Other organizations are Olive board, Udemy, Coursera, Unacademy, IGNOU etc. and DD Gyan darshan telecast through Doordarshan.

The education industry is undergoing a major shift in recent times; the transition from print to digital. It's not an easy ride for the stakeholders in the industry, but in order to stand the test of time, the shift must happen.

Today’s children are born into a technology-based society and learn how to access the internet at a very early age. As parents, it’s our responsibility to talk to them about the pros and cons of Internet, teach them safe Internet habits, and use strategies to help them do so safely. Now days there are online lessons through which kids can individually learn multiple activities. Additionally coding is also proving to be a magic of technology among kids.

Technology is not all about playing games online or watching animated videos etc. The benefits of technology depend on the way children, parents and teachers choose to use it to enhance learning. When used well for educational purposes, the latest technologies can help create opportunities for more active and meaningful learning experiences.

ADVANTAGES OF E-LEARNING

1. Digital Learning Makes Students Smarter

Learning tools and technology enable students to develop effective self-directed learning skills. They are able to identify what they need to learn, find and use online resources, apply the information on the problem at hand, and even evaluate resultant feedback. This increases their efficiency and productivity. In addition to engaging students, digital learning tools and technology sharpen critical thinking skills, which are the basis for the development of analytic reasoning.

Children who explore open-ended questions with imagination and logic learn how to make decisions, as opposed to just temporarily memorizing the textbook.

2. Digital Learning is Making Students Self-Motivated

Students using digital learning tools and technology become more engaged in the process and more interested in growing their knowledge base, they may not even realize that they’re actively learning since they’re learning through engaging methods such as, teamwork, problem-solving, role playing, and storytelling, quiz.

3. Digital Learning Tools and Technology is Rapidly Increasing Information Sharing

Digital learning is not only allowing students to access more and more information but also ensuring that the information in question is customizable and suited to their personal needs. The opportunity to help every student learn at the best pace and path for them is the most important benefit of digital learning.

Today, we are living in a sharing economy, where various platforms have made online content sharing just a click away. Research and sharing information, which used to take up a lot of learner’s energy and time, now takes up only a few seconds. With Google Docs and other cloud based learning tools working on a group project while being miles apart physically has become easier than ever before.

Thus, Digital learning tools and technology prepares students for higher education and modern careers by helping them acquire skills including problem-solving, familiarity with emerging technologies, and self-motivation.

Through discussion boards and chats, you are able to interact with everyone online and also clear your doubts if any.

4. Learning Opportunity for Educators

Digital learning not only benefits the students, but also gives educators an opportunity to enhance their teaching skills based on the wants and needs of the modern age.

DISADVANTAGES OF E-LEARNING

Well, there are not many disadvantages of e-Learning. The face-to-face learning experience is missing, which may matter to some of you.

However, digital education also has its disadvantages:

- Infrastructure: To have digital education means, you need to have a proper infrastructure not only at schools but also at homes, particularly affordable broadband. One of the main challenges for digital education in India is poor internet connectivity in rural areas and some part of urban areas. Majority of population across India has still no access to internet and a large population in rural areas is still illiterate in the field of digital technology.

- No fixed schedule: Online learning requires much better management and rigid schedules, whereas in traditional classroom training, everything is as per a fixed schedule.

- Reduces creative abilities: Getting all answers on the net easily also reduces the children's own creative abilities.

- Lazy approach to studies: This may lead to poor study habits and can develop in children a lazy attitude. Digital education can also make children forget the basic way of studying. Even for simple problems and homework, they are used to seeking help from the net.

- Most of the online assessments are limited to questions that are only objective in nature.

- There is also the problem of the extent of security of online learning programs.

- The authenticity of a particular student's work is also a problem as online just about anyone can do a project rather than the actual student itself.

- The assessments that are computer marked generally have a tendency of being only knowledge-based and not necessarily practicality-based.

So continuing education through alternative learning pathways, as soon as possible, must also be a top priority right now, to ensure the interruption to education is as limited as possible. We urgently need to support teachers, parents/caregivers, innovators, communications experts and all those who are positioned to provide education, whether through radio programmes, home-schooling, online learning and other innovative approaches.

As it’s rightly said, let’s beat Covid-19 not learning.

**WWW.JOBRIYA.IN**

OL: One Leg, OA: One Arm

- 01 Reservations and relaxations for SC / ST / OBC (non-creamy layer) / OXSM / PwBD (degree of disability 40% or above) candidates will be provided as per Government guidelines. Reserve as per the vacancies identified for SC / ST / OBC (non-creamy layer) / PwBD candidates.
- 02 Category once filled in the online application form will not be changed and no benefit of other category will be admissible later on.
- 03 The reservation charge will be charged from SC/ST/PwBD/OXSM candidates.
- 04 The age upper limit is relaxed by 5 years for SC/ST candidates, 3 years for OBC (Non-Creamy Layer) candidates. It is relaxed by 10 years for PwBD-General, 13 years for PwBD-SC/ST candidates.
- 05 The OBC candidates who belong to "Creamy Layer" are not entitled for OBC concession and such candidates have to indicate their category as General. The OBC (Non-Creamy Layer) candidates are required to submit requisite certificate in prescribed format of Government of India, from a competent authority issued in the current year.
- 06 Upper age is relaxed by 5 years for the candidates who had ordinarily been domiciled in the State of Jammu & Kashmir from 01.01.80 to 31.12.89. Age relaxation will be applicable for XSM/PwBD under Government guidelines.

**SERVICE AGREEMENT BOND:**

The selected candidates will be required to execute a service agreement bond of Rs. 1,00,000/- plus GST (General / OBC / EWS) and Rs. 50,000/- plus GST for SC/ST/PwBD to serve the company for a minimum period of 3 years after completion of training.

**HEALTH:**

The candidate should have sound health. Before joining, candidates will have to undergo medical examination by NTCP Medical Board and the decision of the board will be final and binding. Appointment will be subject to meeting the medical norms prescribed by the Company. No relaxation in medical norms is allowed. Detailed medical norms are available on the website.

**HOW TO APPLY:**

- 01 Eligible candidates have to apply through online registration system of NTCP only. To apply visit: www.ntpcconnect.com. It should be noted that the site is functional from 1.00.00 hours of 23.11.2020 to midnight of 12.12.2020.
- 02 Candidate belonging to General/OBC/EWS category is required to pay a non-refundable registration fee of Rs 300/-; the SC/ST/PwBD/OXSM Female candidates need not to pay the registration fee.
- 03 State Bank of India has been authorized to collect the registration fee, in a specially opened account number(A/C NO. 30087919993) at CAG branch (Branch Code: 0592). On receipt of the fees. Candidate has to approach the nearest SBI branch with a printout of the "pay-in-slip" which is available on the application registration portal of NTCP. The pay-in-slip printed from the portal should only be used for depositing the fee for proper crediting of amount in the allocated account. On receipt of the money, the bank will issue a unique Journal Number and a Branch Code of the bank collecting the money. This journal number and the branch code are to be filled up by the candidate during online registration. Bank commission charge will be borne by the candidate. In case the candidate deposits the fee in a wrong account, NTCP will not be responsible. There will be no other mode of money collection.
- 04 Fees once paid will not be refunded under any circumstances. Candidates are therefore requested to verify their eligibility before paying the application fee.
- 05 All successfully enrolled candidates will be allowed to download the admit card from the site. Please note that the admit card will not be sent by post.
- 06 Candidates are informed that scanned copies of pay-in-slip (applicable for Gen/ OBC/EWS only), photograph & signature (applicable for all) are required to be uploaded while applying for the post online.

**Online Interview for the Award of Junior Research Fellowship (JRF) in DEBEL, Bengaluru**

**Defence Bioengineering and Electromedical Laboratory (DEBEL)**

**Defence Research & Development Organisation (DRDO)**

**General Conditions:**
- Only candidates possessing the above-mentioned qualification(s) need apply.
- All the qualifications acquired should be from recognized Universities/Institutions. Candidates working in Government/ Public sector undertaking/ autonomous bodies should apply through proper channel.
- Upper Age Limit: 28 years as on the closing date of receipt of applications. The upper age limit shall be relaxable to the candidates belonging to Scheduled Castes, Scheduled Tribes and OBC as per Government of India norms.
- The closing date of receipt of applications shall be 21 days after publication of this Advertisement in Employment News.
- How to apply: Candidates should download and fill the Application Form in the prescribed format (available on the website www.drdo.gov.in). The signed Application Form along with certificate in support of minimum educational qualification, matriculation certificate/ birth certificate in support of date of birth, GATE/NET Score card (if applicable), valid as on the closing date of application, caste certificate (if applicable) should be scanned in a single PDF file and emailed to hrd@debel.drdo.in, before the closing date.
- Incomplete/partially filled applications are liable to be rejected.
- Screening of the applications will be carried out by a duly constituted Screening Committee and the shortlisted candidates will be interviewed through web-based video conference over internet and the schedule of interview will be intimated beforehand via email. Therefore, the candidates should possess an active email ID and check the same periodically till the selection process is completed. Only candidates shortlisted by the Screening Committee will receive communication for further selection procedure.Canvasing in any form will result in disqualification of candidature.
- Candidates should ensure Internet connectivity, Webcam, and necessary software at their end to attend the online interview through video conference and DEBEL shall not be responsible for any connectivity failure or communication faults during the online interview.
- Based on the online interview, a Panel of candidates for the anticipated vacancies will be drawn and the Panel would operate for a period of one year. However, the mere fact of empanelment will not entitle any candidate to an offer of Fellowship, which is contingent upon occurrence of vacancies during the year and actual number of vacancies may vary as per Organisational requirement. Director, DEBEL reserves the right not to select any candidate, if suitable candidates are not available.
- The Fellowships shall be awarded initially for a period of two years (extendable as per rules), with monthly emoluments of Rs. 31,000/- plus House Rent Allowance as admissible under the rules.
- It may be noted that offer of Fellowship does not confer on Fellows any right for absorption in DRDO.

NOC from the present employer (if applicable)

Applications is invited for the following post in Krishi Vigyan Kendra:

Director, National Institute of Pharmaceutical Education and Research (NIPER), Raebareli

1. The National Institute of Pharmaceutical Education and Research (NIPER), Raebareli is an Institute of National Importance under the aegis of Department of Pharmaceuticals, Ministry of Chemicals and Fertilizers, Government of India.

2. The applications are invited for the post of DIRECTOR, National Institute of Pharmaceutical Education and Research (NIPER), Raebareli.

3. The Director of NIPER Raebareli, being the academic as well as administrative head of the Institute, is expected to have proven administrative, teaching and research background with the leadership qualities to head an Institute of National Importance. Details with regard to eligibility, Pay scale, application format and other terms and conditions are available on the websites of Departments of Pharmaceuticals, Ministry of Chemicals and Fertilizers (www.pharmaceutical.gov.in) and NIPER Raebareli (www.niperraebareli.edu.in).

4. The hard copy of application in prescribed format should reach on or before the last date i.e. December, 30, 2020 before 1730 hrs by Speed/Registered Post only to the "The Registrar, National Institute of Pharmaceutical Education and Research Raebareli, Transit Campus - Bijnor-Sisendi Road, Sarojini Nagar, Near CRPF Base Camp, Lucknow (UP)- 226002 and mail id (registrar@niperraebareli.edu.in). Copy of application through email is also mandatory.

5. Certificate(s) regarding Experience.

6. Permanent Address/Correspondence Address.

8. Gender.

10. Email ID.

11. NOC from the present employer (if applicable).

12. Two recommendation letters.

13. Applicationstatus/Remarks (if any)

Registrar

President, KVKB-Mangalbharti
INDIAN RHINO VISION 2020- PROTECTING AND ...
Continued from page 1

population of Greater One-horned Rhinoceros now occurs in India in the three States viz, Assam, Uttar Pradesh and West Bengal. Census of Rhinoceros is undertaken at the State-level by the respective State Governments periodically.

Indian Rhino Vision (IRV) 2020:
With the Collaboration between the Government of Assam, the International Rhino Foundation, the World Wildlife Fund for Nature, the Bodoland Territorial Council, and the U.S. Fish & Wildlife Service; Indian Rhino Vision (IRV) 2020 has been developed which aims to protect and increase the population of the one-horned rhinoceros. IRV 2020 hopes to raise the number of rhinos in Assam to 3,000 by 2020 and spread them over seven of the state's protected areas: Kaziranga, Pobitora, Orang National Park, Manas National Park, Laokhowa Wildlife Sanctuary, Buraçapori Wildlife Sanctuary and Dibru Saikhowa Wildlife Sanctuary.

The Indian rhino were once abundant in alluvial plains of India but due to uncontrolled poaching (of horns), degradation and loss of available habitats; rhino populations are threatened. In India, the species occurs in Kaziranga National Park (World Heritage Site), Manas National Park (World Heritage Site), Dudhwa National Park (re-introduced population), Kaziranghat Wildlife Sanctuary, Orang National Park, Pobitora Wildlife Sanctuary, Jaldapara Wildlife Sanctuary, and Gorumara National Park. International trade in rhino horn has been banned under CITES (Convention on International Trade in Endangered Species of Fauna and Flora). Out of all the conservation measures taken by the government and NGOs, the captive breeding programmes have been proved to be the most successful in Indian rhinos. At present, majority of the Indian rhinos population is concentrated in Assam’s Kaziranga National Park. Greater one-horned rhinos are grazers. When not grazing on land, animals like to immerse themselves in water, where they also graze on aquatic plants.

The Ministry of Environment, Forest and Climate Change in 2016 implemented a project called RhODIS (Rhino DNA Index system) to create DNA profiles of all rhinos in the country. The Veterinary Genetics Laboratory (VGL), University of Pretoria, South Africa has developed this RhODIS for active conservation and management practices on rhino conservation. The project will help in curbing poaching and gathering evidence in wildlife crimes involving rhinos. Wildlife Institute of India (WII) Dehradun is the nodal agency for the project. The RhODIS would help provide concrete evidence, as required for conviction in poaching cases.

The Ministry and the State Forest Departments of Assam, Uttar Pradesh & West Bengal with support from other organizations are taking appropriate steps in accordance with the "New Delhi Declaration" which was signed after the 2nd Asian Rhino range States Conservation meeting held on 26th-28th February, 2019 at MoEF&CC, New Delhi wherein representatives from Bhutan, Indonesia, Malaysia and Nepal attended the meeting besides India. Initiatives have been undertaken by the State Governments such as West Bengal and Bihar are also working for the reintroduction of the Rhinoceros in the areas which used to hold the Rhinoceros populations till a few decades back.

Success was achieved in restocking the rhino population in the World Heritage Site Manas National Park recently through wild to wild translocations. One-horned Rhinoceros is also one of the 21 species identified for Recovery programme for critically endangered species by the Ministry. The Ministry has also launched the “National Conservation Strategy for the Indian One-Horned Rhinoceros” with the goal to repopulate Rhinoceros population in those areas also which used to hold the Rhinoceros earlier by augmenting the existing conservation efforts and strengthening them through scientific and administrative measures.

World Rhino Day is celebrated on 22 September every year, initiated by the World Wildlife Fund-South Africa in 2010. This day aims to create awareness on the importance of world’s five rhinoceros species which are Black rhino, White rhino, Greater one-horned rhino, Sumatran and Javan. The Greater one-horned, Javan and Sumatran are the three species of rhino in Asia, whereas the two African rhino species are black rhino and white rhino.

In India, Greater one-horned rhino is found and is included in the Schedule - I of Wildlife (Protection) Act, 1972. The scientific name of Indian rhino is Rhinoceros unicornis, these animals are mega-herbivores weighing over 1000 kgs. As per the literature, these iconic species have functional role in maintaining forest ecosystem and biodiversity of their landscape. Hence they are also called keystone species. Rhinos by eating grasses indirectly affect smaller herbivores creating cascading effects for other species as well. They also help in phenomenon of seed dispersion through excreta.

The protection and promotion of One-horned Rhino species is of utmost environmental importance.

India has emerged as the 4th largest producer of renewable energy: PM Modi

Prime Minister Narendra Modi said India's renewable power capacity is the 4th largest in the world and it is growing at the fastest speed among all major countries. He said, the renewable energy capacity in India is currently 136 Giga Watts, which is about 36 percent of the country's total capacity. Inaugurating the virtual 3rd Global Energy Investment Meeting and Expo, RE-Invest 2020 on 26th November, Mr Modi said, India is travelling on an unparalleled journey in the last 6 years. He said, the country is expanding generation capacity and network to ensure every citizen has access to electricity to unlock their full potential. The Prime Minister said, India's annual renewable energy capacity addition has been exceeding that of coal based thermal power since 2017. In the last 6 years, India has increased installed renewable energy capacity by two and half times. He invited investors, developers and businesses to join India’s renewable energy journey as there are huge renewable energy deployment plans for the next decade. He stated that these are likely to generate business prospects of the order of around 20 billion dollars per year.

Over 2.6 Crore families provided clean drinking water under Jal Jeevan mission

WWW.JOBRIYA.IN

Prime Minister Narendra Modi virtually laid the foundation stone for several rural water projects in Mirzapur and Sonbhadra districts in Uttar Pradesh on 22nd November. The projects at the estimated cost of over 8,550 crore include, nine water treatment projects for Mirzapur district and 14 projects for Sonbhadra district. The Prime Minister said, the drinking water projects in Mirzapur and Sonbhadra district will not only provide clean water to the people but will also be helpful in eradicating several diseases. The Prime minister said that despite having a lot of resources, Vindhyachal or Bundelkhand regions became regions of deficiencies. He said, this region was neglected for decades after independence which forced many people to migrate. The projects are planned to be completed in 24 months. The Prime Minister added that self-reliant India gets strength from self-reliant villages. During the last one and half years from the start of Jal Jeevan Mission, more than 2 crore 60 lakh families have been provided piped drinking water connection to their homes including lakhs of families in Uttar Pradesh as well.

Government ready to hold talks with farmers, discuss issues

Agriculture Minister Narendra Singh Tomar has said, the government is ready to hold talks with farmers and discuss issues. Talking to the media, the Minister said, the new farm laws were the need of the hour and are going to bring revolutionary changes in the future. He appealed to the protesting farmers to not agitate. He said, the centre have invited farmers for talks on 3rd December and expressed hope that the dialogue will have a positive result.

Access to 43 mobile apps blocked

Government blocked access to 43 mobile apps. This action was taken based on the inputs regarding these apps for engaging in activities, which are prejudicial to India's interests. Ministry of Electronics and Information Technology has issued the order for blocking the access of these apps by users in India based on the comprehensive reports received from Indian Cyber Crime Coordination Center. Earlier on 29th June Government had blocked access to 59 mobile apps and on 2nd September, 118 more apps were banned under section 69A of the Information Technology Act.

Constitution Day celebrated across country

President Ram Nath Kovind led the nation in community reading of the Preamble to the Constitution of India, on the occasion of the Constitution Day on 26th November. The President read the Preamble from Rashtrapati Bhavan which was live telecast by Doordarshan and joined by the people across the nation. Constitution Day marks the adopting of the Indian Constitution by the Constituent Assembly. The day is also known as National Law Day and commemorates the adoption of the Constitution in India. On 26th November in 1949, the Constituent Assembly of the country formally adopted the Constitution of India which came into force on 26th January 1950. Constitution Day was first celebrated in 2015, when NDA Government decided to mark the day as a tribute to Dr B R Ambedkar who played an important role as the Chairman of the Drafting Committee.

Centre to continue momentum of economic reforms: FM

Finance Minister Nirmala Sitharaman has said that the government will take steps to continue the momentum of economic reforms in the country. Addressing a conference organised by CII, she said, the momentum of reforms will continue to make India a hotspot of global investment. Ms Sitharaman said that Prime Minister Narendra Modi has not lost any opportunity to take deep reforms at this time of pandemic. She said, Mr Modi also undertook those kinds of reforms, which have not seen the light of the day over the decades. She said, the financial sector is being professionalised and the government will continue with disinvestment and privatisation agenda. On reforms in taxation system, the Finance Minister said that the use of technology, such as faceless assessment, has eased the tax filing process. On corporate tax, Ms Sitharaman said that the reduction in Corporate tax clearly shows that our intent is to show immediate benefits for the MNCs and any large companies or small companies.

Economic recovery in country, stronger than expected: RBI

Reserve Bank Governor Shaktikanta Das has said that the Indian economy exhibited a stronger than expected pickup in recovery after the first quarter of the current fiscal. Mr Das, however, warned that downside risks to growth continue due to a surge in Covid-19 infections. He was speaking at the annual day event of Foreign Exchange Dealers’ Association of India. RBI Governor said, even as the growth outlook has improved, we need to be watchful about the sustainability of demand after festivals and a possible reassessment of market expectations surrounding the Covid-19 vaccine. Over the last two months, the government had announced two stimulus packages to boost demand in the economy through a slew of incentive schemes.

UN Chief Antonio Gutteres condemns rocket attacks in Kabul

UN Secretary-General Antonio Gutteres has condemned the rocket attacks in Kabul, which resulted in the death and injury of many civilians. In a statement, Secretary-General underlined the urgency of ending the violence in Afghanistan. He has expressed hope that the upcoming Afghanistan Peace Negotiations can swiftly achieve a de-escalation of the conflict and cessation of attacks in order to save lives.

Bangladesh to act legally against portals spreading rumours, fake news

Government of Bangladesh will soon start taking legal action against the online portals and websites which are used to spread rumour and create instability in society. Speaking at a function in Dhaka on 26th November, Information Minister Dr. Hasan Mahmud said that in 2009 there were very few online media portals but now there are many such websites. Action will be taken against those websites which are not providing news but being used to serve personal interest.

Diego Maradona passes away

Legendary Argentine footballer, Diego Maradona, widely regarded among the greatest football players of all time passed away on 25th November following a heart attack. The 60-year-old had been hospitalised after he complained of regularly being fatigued. Maradona was hospitalised after he complained of regularly being fatigued. Maradona had begun his professional career with Argentinos Juniors at the age of 16 and he went on to become one of the greatest players to ever play the game of football. He was speaking at the annual day event of Foreign Exchange Dealers’ Association of India. RBI Governor said, even as the growth outlook has improved, we need to be watchful about the sustainability of demand after festivals and a possible reassessment of market expectations surrounding the Covid-19 vaccine. Over the last two months, the government had announced two stimulus packages to boost demand in the economy through a slew of incentive schemes.

Sports Ministry restores recognition of Archery Association of India

Youth Affairs and Sports Ministry has restored the government recognition to Archery Association of India as a National Sports Federation for promotion and development of Archery in India.
